THE  
FRETWORKERS' WEEKLY.

For All Amateurs & Craftsmen.

VOL. XXXII.

AUGUST 5, 1911.

No. 825.

## YOUR START IN LIFE

Be Sure it is the Right One.

Don't make the mistake of entering upon an unprofitable career when starting life. A wrong start means time and money wasted, and possibly an old age of poverty. Make certain of getting into the right groove, and your future is assured. You can do well for yourself in life if you take the trouble to be sure you are making the right start.

If you don't work now you will have to work doubly hard in the future, and even then for very little money.

Send a post-card to Clark's College, and you will receive by return post a book which will help you—a handsome, well-illustrated book which is sent free and costs you nothing. Clark's College has placed 80,000 students—youths and young ladies—into good life positions, and finds a post for every student as soon as proficient. Write to-day for our Guide to the Civil Service, No. 24, or Guide to Business, No. 25, mentioning *Hobbies*.

**CLARK'S COLLEGE, Ltd.,**

The Civil Service and  
Business University of London.

1, 2, & 3, CHANCERY LANE, LONDON, W.C.

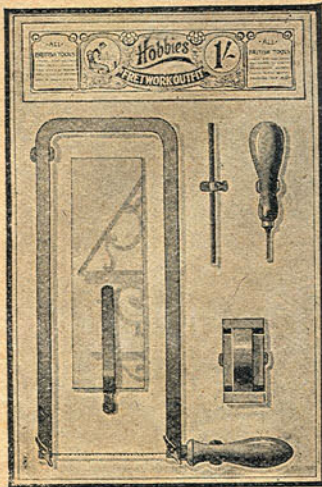

EVERY Home Worker — Amateur and Professional alike—should buy "Hobbies." Something fresh, interesting, and instructive Every Week. It caters specially for Fretworkers, making them a present of a 3d. pattern sheet weekly, and for wood-workers generally, giving ample detailed Instructions and diagrams shewing how to make hosts of useful and ornamental articles. A Penny spent on "Hobbies" provides a pound's worth of instruction. Order a copy from your newsagent right away.

# PANEL FRETWORK OUTFITS.

STEEL PANELS  
IN BOXES.

## MOST HANDSOME AND COMPLETE SERIES EVER MANUFACTURED.

The size of the Enamelled Panel is 20½ in. by 14½ in. It is provided with Patent Steel Clips, which hold the tools securely in position, and also with Keyhole Eyelets, by which the Panel may be hung upon the wall, and thus form a useful and permanent Fretwork Tool Rack. Its very handsome finish makes it a suitable ornament for any workroom.

**W**E are now able to offer to the public a series of very handsome Boxed Fretwork Outfits. The Panels upon which the Tools are mounted are of enamelled steel, and measure 20½ in. by 14½ in. They are formed with a beaded rim, which gives the necessary stiffness.

The Tools are our own make, and all the Outfits include such well-known and favourite articles as the Hobbies 18 in. Patent Lever Hand Frames, Hobbies Saw-blades, Hobbies Cutting Tables, Drills, Handbook, Designs, etc. The Steel Panels are embossed and beautifully enamelled in several colours, and for Presentation purposes no finer Fretwork Outfits could be had.

These Panel Outfits, which are prepared at our Dereham Factories, are supplied in Three Prices—7/-, 8/- and 10/- each. The size and quality of the Steel Panel is in each case the same, but the higher priced Outfits include a larger assortment of Tools.

### No. 1 PANEL OUTFIT.

**T**HIS splendid Outfit is mounted upon an embossed and enamelled Steel Panel. The tools are held by permanent steel clips. The Outfit is packed in a strong and handsome box, and includes:

# FRETWORK OUTFITS.

IN BOXES.

*AS there is a constant demand for more advanced Sets of Fretwork Tools than those put up on Carded Outfits, we have made up special Boxed Sets at 5/- 7/6 and 10/6 each, which we think will give complete satisfaction to the most exacting of Fretworkers. It will be seen that if purchased separately the Tools and Materials would cost more than the very reasonable price we are charging for the Complete Outfits. No unnecessary articles are included, and as all the Tools are made in our own Factories, our Customers may feel assured that no fault can be found with either the quality or the workmanship.*

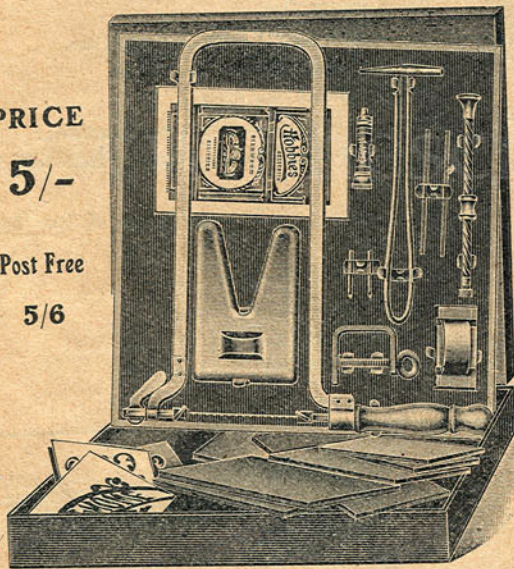

*The Tools in this Outfit Box are fixed to a Loose card from which any tool may be removed and instantly replaced, as they are all fixed to the Card by Hobbies Patent Spring Steel Clips.*

# HOBBIES HAND FRET MACHINE.

ALL PARTS  
REPLACEABLE.

*THE HOBBIES Hand Fretwork Machine is similar in every respect, except in treading, to the "Briton" Fretsaw. There is a 7-inch Driving Wheel of graceful design, provided with a full-sized Handle instead of with the small knob usually found on such machines. The Arm Fittings are similar to those of the "Briton" (see page 12), and will take work up to 18 inches in length. They are fitted with the Hobbies Patent Lever Clamps. This Machine may be clamped to any Table or Bench.*

## TREADLE STANDS FOR HAND MACHINES.

FRETWORKERS who have used a Hand Machine for some time, and who may afterwards wish to possess a Treadle Fret-saw, may do this without going to the expense of purchasing an entirely new machine.

For the above, we have made up serviceable Treadle Stands, to which the Hand Machine can be simply and securely attached. The framework is similar to that of the "Briton," and includes: Complete Frame, Treadle, Driving Wheel, Pitman, and Belt. The Machine is clamped to the stand in the same manner as to a table, after the 7-inch Driving Wheel has been removed. A Balance Wheel (price 8d.) may, if desired, be added to give greater freedom in running. Price of Detached Stand (Frame, with Treadle, Driving Wheel, Pitman, and Belt) .. .. 7/6

Each Hand Machine is carefully tested before being despatched, and is sent in a case in complete working order, and ready for immediate use.

Hand Machines and Stands are sent by Rail from our Dereham Works, at the Railway Company's risk. The Purchaser pays carriage on delivery. In ordering, the name of nearest Railway Station should be given.

## PARTS AND FITTINGS FOR HOBBIES HAND FRETWORK MACHINE.

We keep in stock all the parts and fittings of which the Hand Machine is composed. The owner of a Machine can consequently always obtain from us a duplicate of any lost or broken part, and can then easily repair the damage himself.

# HOBBIES TREADLE FRETSAWS.

THE  
"YOUNG BRITON."

OUR OWN MANUFACTURE.

CHEAPEST OF ALL TREADLE MACHINES.

PRICE :

12/6

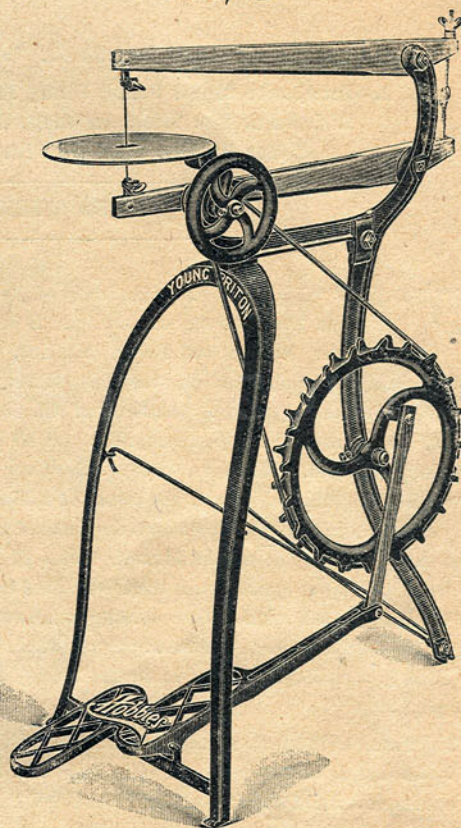

FOR WEEKLY PAYMENTS, SEE PAGE 29.

**A** YEAR or two ago we put on the market this cheap and reliable Treadle Fretsaw, and the demand for it has justified our effort. The frame of the Machine is made entirely of iron finished in cycle enamel. The Balance-Wheel, All-steel Pulley and Table are the same as used on our "Briton" Machine. The Saw Clamps are our Patent Spring—open pattern, and will securely hold the finest saws. The Arms are made of well-seasoned beech (varnished), and will take work 18 in. long and up to 1½ in. thick. The Machine runs smoothly, and with it excellent work can be produced. It is made of the best materials, and all the work is carefully executed. Should the owner meet with any accident, he can write to us for a duplicate of the damaged part, and execute the repairs himself.

For those Customers who do not care to pay the cost of a machine at once, they can obtain the "Young Briton" or any of our Fretsaws from us on the Weekly Payment System.

It is advisable that this Machine be screwed to the floor. Screw openings being provided for the purpose in each foot.

A WRENCH, ONE DOZEN SAWS AND DESIGN ARE SENT WITH EACH MACHINE.

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents

# HOBBIES TREADLE FRETSAWS.

THE  
"BRITON."

A THOROUGHLY RELIABLE MACHINE.

MADE AT OUR OWN WORKS.

PRICES—

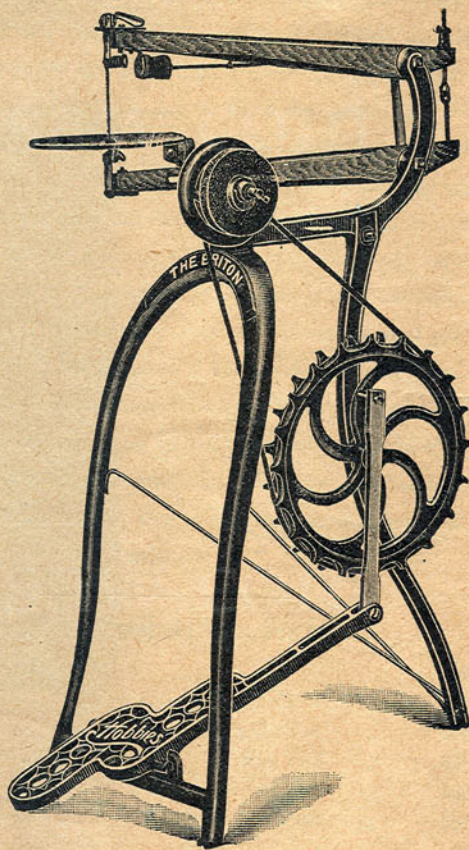

No. 1.—Hobbies "Briton" Fretsaw .. .. .	14/6
No. 2.—Ditto, with Nickel Plated Tilting Table and Emery Wheel .. .. .	17/-
Ditto, with Side Wings for supporting Work, as shown on page 14 .. .. . extra	2/6
Either Machine fitted with the new reversible and removable Clamps, 1/- extra.	

For WEEKLY PAYMENTS See page 29.

OUR NEW "BRITON" Machine is one of the cheapest reliable Treadle Fretsaws on the market. It is an improvement on our well-known Roger Machine, which has been sold literally by thousands in the last fifteen years. It runs smoothly and easily, gives no trouble, and will do thoroughly good work. It is made of the best materials, and all the work is most carefully executed. Moreover, all the parts of our various Machines are interchangeable, so that if the owner of a Machine meets with any accident, he can write to us for a duplicate of the damaged part, and easily execute the repairs himself. With all these advantages to be secured for so small a sum, there is no need for any Fretworker to content himself with a slow-working handsaw, more especially since, if a customer does not care to pay the whole cost of a Machine at once, he can obtain it from us on the Weekly Payment System, see page 29.

The Frame of the Briton Machine is made entirely of Iron, finished in cycle enamel and elegantly lined in red. The Driving Wheel is of our improved non-slipping pattern, and the V Pulley wheel, which is of steel, also grips the belt. The Table, which is ground and plated, is adjustable, and can be tilted to any angle for Inlaying. The arms will take work 18 in. long by 1½ in. thick; the height to the Table is 32 inches.

The Machine is fitted with Hobbies Patent Lever Steel Clamps, with the patent screws and shackles. There is also an improved Dust Blower, and the end of the Balance-Wheel Spindle is pierced for holding a Drill. A Drill Bit, Wrench, Oil Can, Saws, and two Designs are sent out with each Machine.

Hobbies New Reversible Saw Clamps, with Removable Bottom Clamp, can be supplied with this Machine at an extra cost of 1/-

Each Machine is carefully tested before being despatched, and is sent in a crate in complete working order, and ready for immediate use.

Machines are sent by Rail from our Dereham Works at the Railway Company's risk. The purchaser pays carriage on delivery, but no Machine should be taken in if in a damaged condition. In ordering, the name of the nearest Railway Station should be given.

Orders for Goods by Post should be addressed to HOBBIES LIMITED, Dereham, Norfolk.

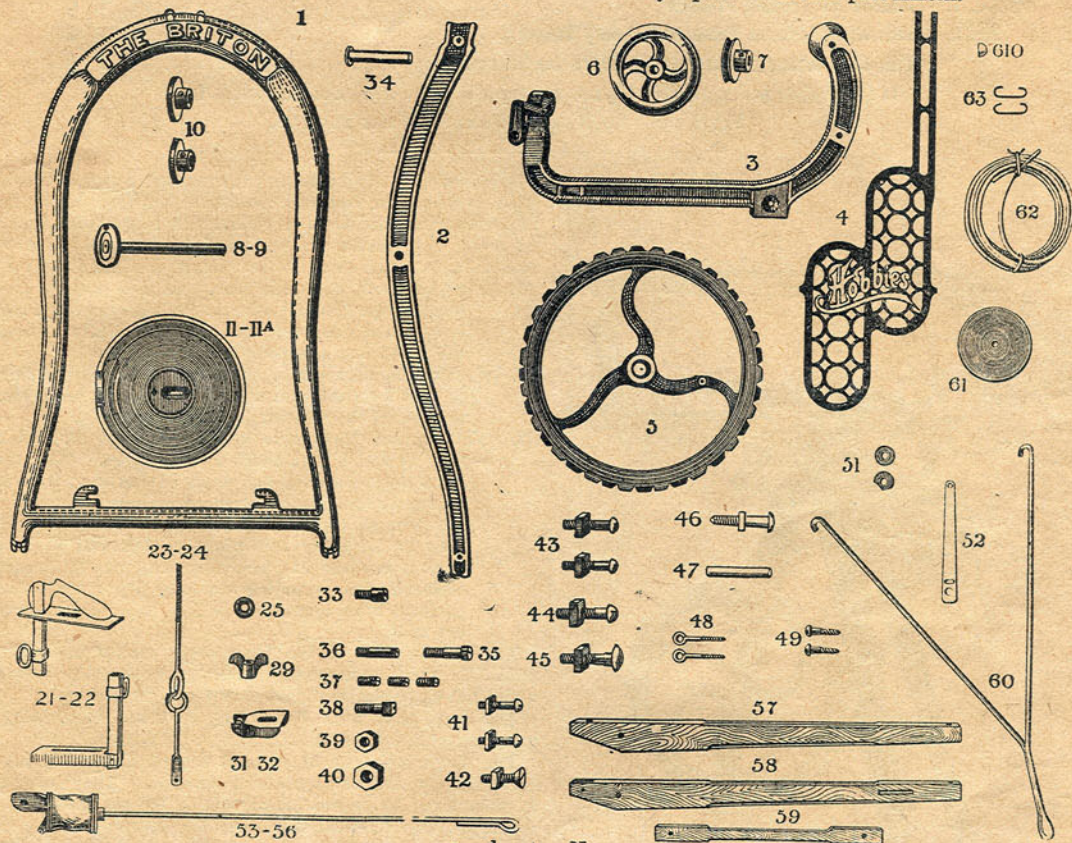

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# HOBBIES LTD. ARE THE ONLY MAKERS OF FRETSAWS IN BRITAIN.

## FITTINGS FOR THE "BRITON" TREADLE FRETSAW.

NOTE.—These parts are also suitable for the "Improved Roger" Treadle Fretsaw.

WE give below illustrations and prices of all the parts and fittings to be found in the "Briton" Machine. If a Machine meets with an accident, the owner can, therefore, without difficulty replace the broken part himself.

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# HOBBIES TREADLE FRETSAWS.

# THE "A1."

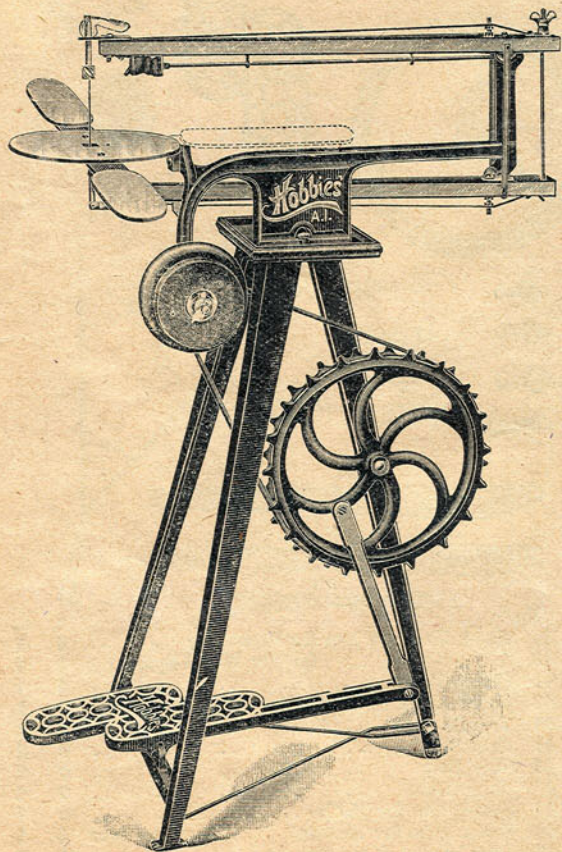

(Our own Design and Manufacture.)

PRICE—

No. 1.—Hobbies A1 Treadle Fretsaw .. .. .	£1 1 0
No. 2.—With Nickel-Plated Table and Emery Wheel .. .. .	1 3 6
With Side Wings for supporting Work (as illustrated) .. .. extra	0 2 6

If Reversible and moveable Clamps are supplied with new machine, extra 1s.

FOR PRICES BY WEEKLY PAYMENTS, SEE PAGE 29.

Hobbies A1. Machine has always been a prime favourite with Fretworkers, but this season we are introducing three improvements, which are of outstanding importance, and will be much appreciated by purchasers of this and our other machines, to which some of these improvements are fitted :

- I. The All-Steel Pulley is true, and has a deep groove which grips the belt effectively, allowing for a reduction of the diameter, and thus materially increasing the speed and sweet-cutting of the saw.
- II. A screw adjustment to the Truss rods has been fitted so that by turning a nut the Truss can be tightened to prevent the wooden arms from bending.
- III. New Patent Reversible and Removable Saw Clamps may be fitted for a small extra charge. With these, by simply changing the angle of the saw, frets may be cut in long boards without serious difficulty. As the jaws of the bottom clamp are removable, they may be instantly withdrawn to take out a piece of broken saw and fix a new blade, and may be as quickly replaced, thus avoiding stooping below the table to perform these operations in that dark and inconvenient spot.

The construction of the Framework makes the Machine unusually rigid, doing away with the unpleasant vibration which has characterised most cheap Treadle Machines.

The Arms take work 19 in. long by 2 in. thick, being an inch longer than those of the "Buston" Fretsaw.

The Arms work on MACHINED KNIFE EDGES, giving an exceptionally free and smooth motion. They are kept from bending by means of adjustable trusses shown in the accompanying illustration. There are also connecting links which prevent the arm flying off the knife edges. By a special process the Machining of the Main Bearings and Knife Edges are made absolutely parallel, thus ensuring remarkably accurate working of the Saw.

There is a convenient Tray for holding Saws and Tools. The Machine is either fitted with the Hobbies Patent Lever Clamps, or for 1s. extra with the new Patent Reversible Clamps referred to above. These will securely grip the finest Saw Blades, and they are so made that the Lever cannot fly back and loosen the tension of the Saw. The pulley wheel is of steel.

The end of Balance Wheel Spindle is arranged to hold a Drill, and there is also an improved Dust Blower.

A DRILL BIT, OIL CAN, SCREWDRIVER, SPANNER, ONE DOZEN SAWS, AND TWO DESIGNS ARE SENT WITH EACH MACHINE.

**WINGS.**—These Machines may be fitted with Radial Wings at each side of the Table, for supporting large pieces of work. These Wings may be swung round parallel with the arms when not required, in order to pack into same space as the Machine,

**WINGS:** Price per Pair, 2/6. Post free, 2/11

Each Machine is carefully tested before being despatched, and is sent in a crate in complete working order, and ready for immediate use.

Machines are sent by Rail from our Dereham Works at the Railway Company's risk. The Purchaser pays carriage on delivery, but no Machine should be taken in if in a damaged condition. In ordering, the name of the nearest Railway Station should be given.

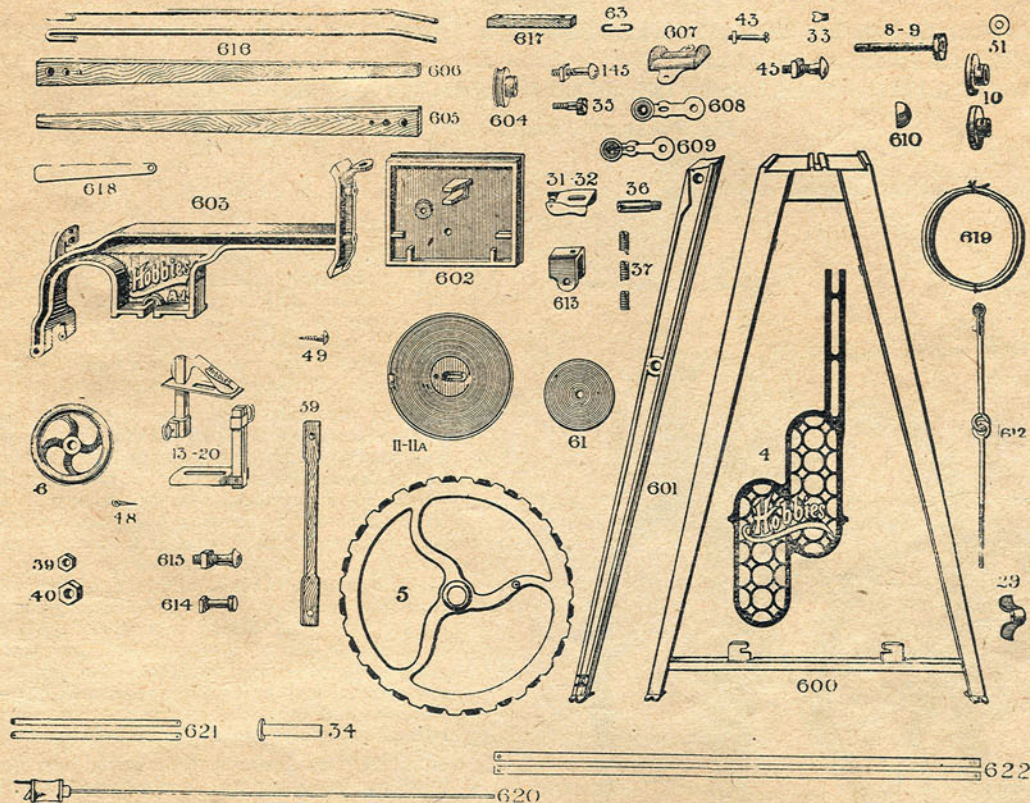

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

" 3.—With all Bright Parts Plated, including Table and Saw Frame, making a very handsome Machine ..	1 15 0

FOR PRICES BY WEEKLY PAYMENTS, SEE PAGE 29.

**T**HE Royal Hobbies Treadle Fretsaw which has recently been much improved, has many novel and very ingenious features for which we hold patents. The most important point is that the Machine has an absolutely vertical motion of the Saw, this being secured by means of a simple guide specially invented for the purpose.

Below the Slide there is a fine Spring which counter-balances the weight of the reciprocal parts and makes the UPWARD movement of the arm as free as the downward stroke. The Saw gives eight strokes to one revolution of the Driving Wheels. The Frame is not made of wood, as in most Machines but is of tubular steel, oval in section, and is at once light and rigid. The saw is held by the Hobbies Patent Clamps, and the tubular frame ensures a perfectly even tension throughout the stroke. The steel Frame is fixed to the Guide by a simple clamping arrangement, and can be easily adjusted in any direction. The Machine is made throughout by skilled workmen in our own Factory, and only the best and most carefully selected material is used in its construction.

An Oil Can, Spanner, Screwdriver, one dozen Saws, and two Designs are sent with each Machine.

We have now designed an effective blower which may be fitted to any of the Royal machines we have sent out. The screw on blower takes the place of the bolt which holds the top clamp bracket in place. In operation the bottom of blower comes in contact with the work on the downward stroke of machine, thus compressing the spring in the bellows and effectively blowing all dust from the immediate vicinity of the saw.

Price 9d. Post free 10d.

### SOME SPECIAL POINTS OF THE MACHINE.

Absolutely True and Vertical Stroke. Patent Vertical V Guide. Rigid Oval Tubular Steel Frame, Clear swing of 18 in. Extra Heavy Driving Wheel of improved pattern for Gripping Belt. Seven-inch Balance-Wheel. Hobbies Patent Lever Saw Clamps. 10½ inch Circular Tilting Table

Each Machine is carefully tested before being despatched, and is sent in a crate in complete working order, and ready for immediate use.

Machines are sent by Rail from our Dereham Works at the Railway Company's risk. The purchaser pays carriage on delivery, but no Machine should be taken in if in a damaged condition. In ordering, the name of the nearest Railway Station should be given.

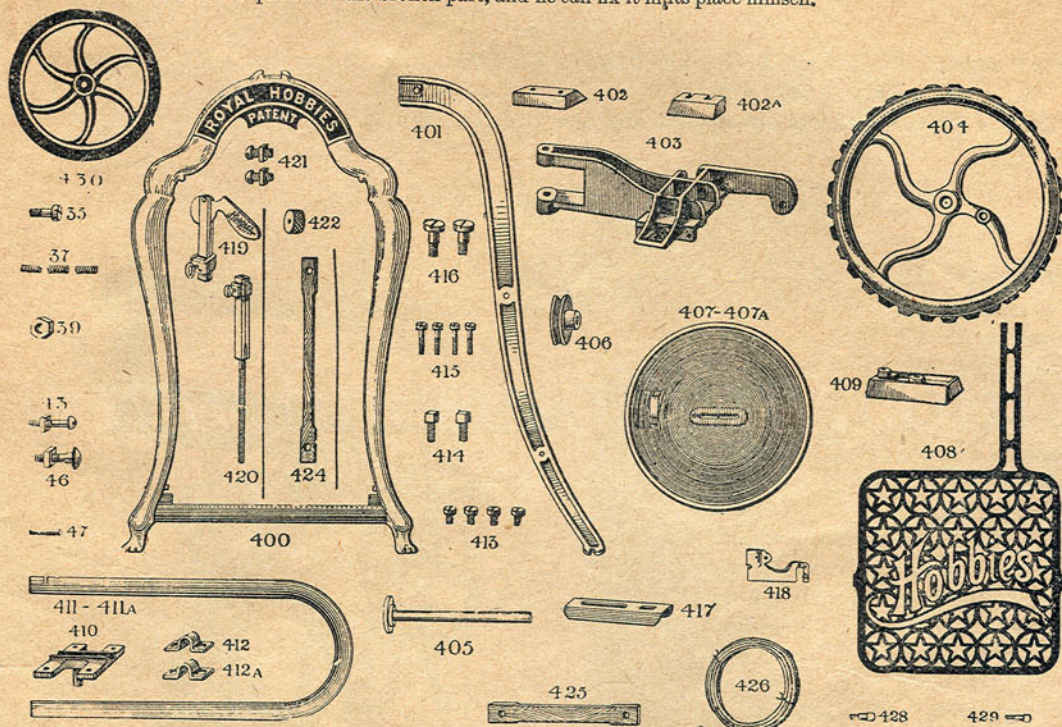

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

"Imperial" Fretsaw, complete, with Drilling Attachment (as illustrated) .. .. .	2	2	6
" " " without Drilling Attachment .. .. .	1	15	0

If the new Reversible Clamps are supplied with new machine, extra 1s.

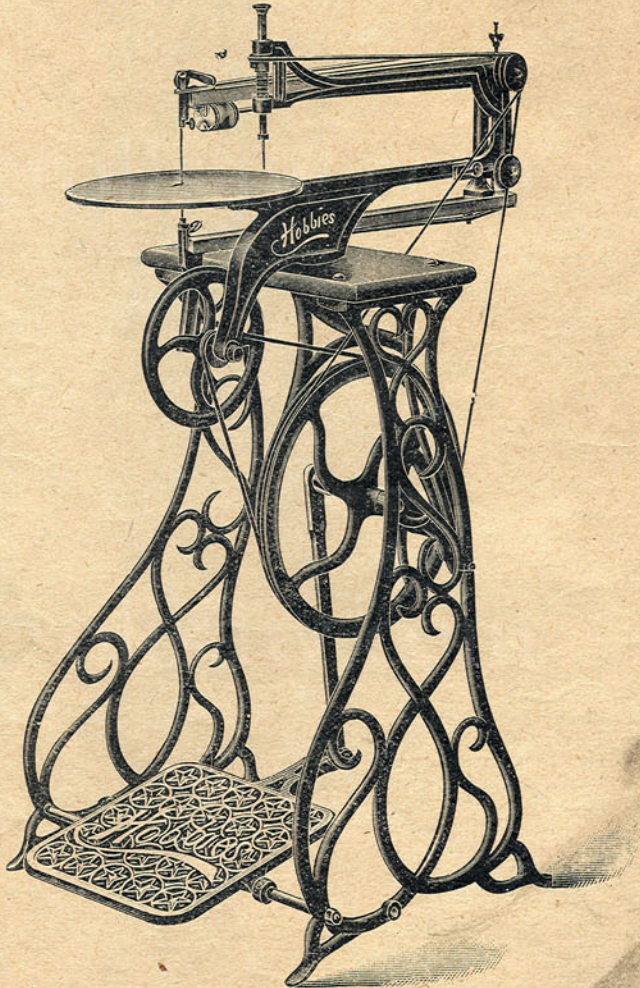

FOR PRICES BY WEEKLY PAYMENTS, SEE PAGE 27.

THE Hobbies "IMPERIAL" TREADLE FRETSAW is now one of the most complete and popular Treadle Machines. It is cheap, graceful in appearance, and accurate in working. The general principle of the Machine is sufficiently indicated by the illustration. The Arms, which are kept right by means of adjustable trusses, have a SWING OF 19 INCHES between the Saw and the Frame. They work on knife edges, and are fitted with connecting links, which prevent them from flying off. There is a superior TILTING TABLE with a diameter of 10½ inches. The Machine is also, as shown in the illustration, fitted with a very useful Metal Tray and

**DRILLING ATTACHMENT,**

which saves the worker much valuable time. The Saw has a practically vertical stroke, cutting rapidly and accurately, and it will be noticed that there is more room between the top clamp and the table than is the case with most machines. The "IMPERIAL" is fitted with the Hobbies Patent Clamps, or for an extra 1s., with the new Reversible Clamps, which will securely grip even the finest Saw, and the lever of which cannot possibly fly back when in position. An effective Dust Blower has recently been added.

An Oil Can, Spanner, Screwdriver, 6 Drill Points, 1 doz. Saws, and 6 Designs are sent with the Machine.

Each Machine is carefully tested before being despatched, and is sent in a crate in complete working order, and ready for immediate use.

Machines are sent by Rail from our Dereham Works at the Railway Company's risk. The purchaser pays carriage on delivery, but no Machine should be taken in if in a damaged condition. In ordering, the name of the nearest Railway Station should be given.

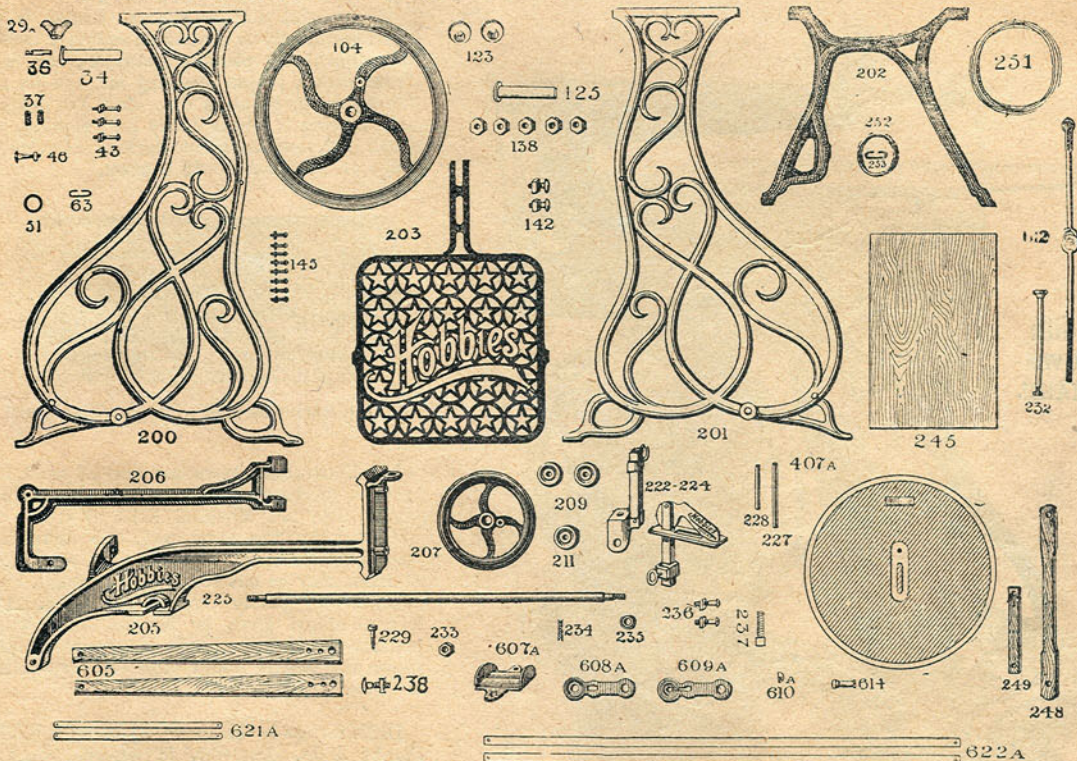

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# AN EFFICIENT MACHINE MEANS EFFICIENT WORK.

## FITTINGS FOR HOBBIES "IMPERIAL" FRETSAW.

WE keep in stock the whole of the various parts and fittings which make up the "Imperial" Fretsaw. The owner of a Machine who has the misfortune to break one of the parts has, therefore, only to write to us for a duplicate of it, and he can, without difficulty, repair the damage himself.

# HOBBIES "SUFFOLK" FRETSAW.

£4.

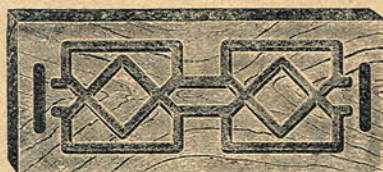

WITH DRILLING AND RECESSING ATTACHMENT.

DRILLING, RECESSING, OR CARVING ATTACHMENT.

This useful attachment, as shown in the illustration, may be used as an ordinary Drilling Attachment for piercing fretwork; or, when fitted with a proper recessing bit, can be used for grooving, grouting out, etc. For inlaying and carving it works easily and rapidly, and turns out very clean-cut work of even depth. Price of Attachment, 12/6 extra.

OUR  
OWN  
MAKE.

Showing work executed with the attachment.

The illustration shows the class of work that may be produced with the Recessing Attachment. The two Mortised holes at either end were cut by the same tool, the beautifully rounded ends of which make very neat work. Mortises may be cut completely through, or, if desired, only partly through the wood. This latter method gives by far the most workmanlike finish, and should always be adopted where the tenons would otherwise be exposed to view.

Drills for use in the above, 2½ in. long, having shanks ½ in. diameter, in assorted packets containing one each ⅜, ½, ⅝, ⅞ in., price 6d. per packet. Post free 7½d.

Four Recessing Tools, ½ in. diameter, 2/- per packet. Post free 2/2

## PRICES—

Hobbies "Suffolk" Fretsaw only .. ..	£4 0 0
Knee Clutch Gear and Countershaft, extra ..	0 15 0
Drilling, Recessing, or Carving Attachment, extra .. .. .	0 12 6

FOR PRICES BY WEEKLY PAYMENTS, SEE PAGE 29.

**T**HIS is the finest simple machine on the market; it has no complicated works. The Arms are counter-balanced by a spring, in consequence of which it runs as lightly as the smallest machine; these are pivoted on Screw Centres, and work up to 24 in., and will swing between the saw and back of frame. The Machine proper is carried by three rigid legs, which support a tray 17 in. by 28½ in.

The Table is 24 in. long by 12 in. wide. It can be tilted or moved backwards and forwards, and is beautifully polished and plated. The Fly Wheel is massive, 19 in. diameter by 1½ in. face, and weighs 24 lbs. The Crank Spindle, which is operated from the Fly Wheel by a ⅜ in. leather belt, is controlled by a heavy balance wheel, 7 in. diameter, which greatly assists the free running of the Machine. The Treadle is 21½ in. wide, and is very comfortable to work. All the moving parts are conveniently arranged so as to be easily reached.

**DRIVING BY POWER.**—The "Suffolk" Machine may be fitted with Knee Clutch Gear for Power Driving, exactly like the "Norfolk" Machine (see page 21). Price 7/6 extra.

All parts of this machine may be replaced at any time.

Each Machine is carefully tested before being despatched, and is sent in a crate in complete working order, and ready for immediate use.

An Oil Can, Spanner, Screwdriver, and Saw-blades are provided.

Machines are sent by rail from our Dereham Works at the Railway Company's risk.

The Purchaser pays carriage on delivery, but no Machine should be taken in if in a damaged condition. In ordering, the name of the nearest Railway Station should be given.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

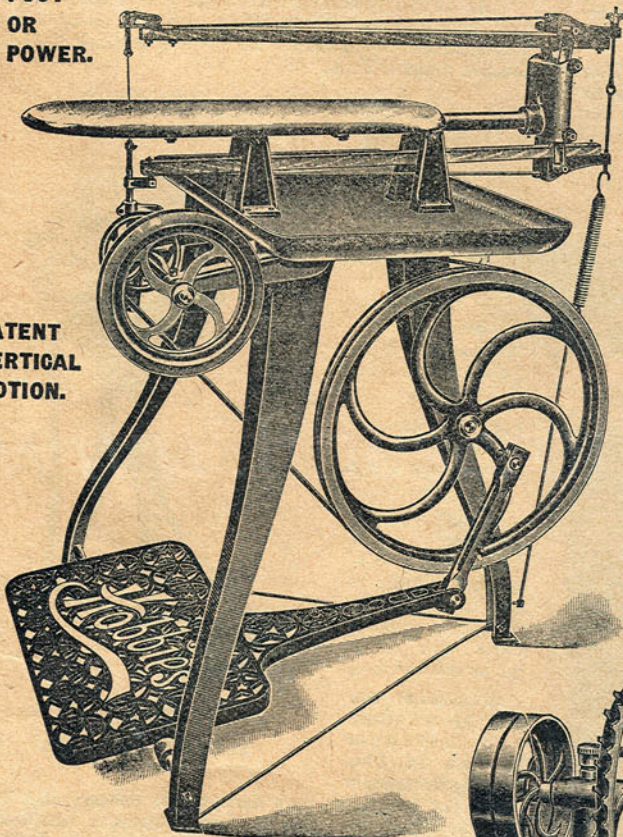

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# HOBBIES "NORFOLK" FRETSAW.

£5.

FOOT  
OR  
POWER.

PATENT  
VERTICAL  
MOTION.

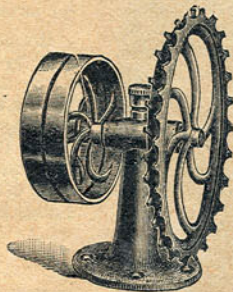

**T**HE HOBBIES "NORFOLK" FRETSAW, is, without exception, the finest and most effective Machine for Fretcutting on the Market, and it is now used in numerous workshops and by many amateurs who engage in all the advanced branches of Fretwork. The machine has been greatly improved. On the new season's Machines one or two slight improvements have been made. For the reciprocal parts a metal covering has been provided to protect the mechanism from the falling sawdust. This can be instantly removed for oiling by the turn of a thumbscrew. The following is a brief description of the Machine :—

**FRAME.**—The Fretsaw stands upon three strong and rigid Legs. The front Legs have a spread of 24 inches. The height to top of Work Tray is 30 inches, and to the Tilting Table 34 inches. The extreme height to top of Arm is 40 inches. With the exception of the Arms and Pitman, the Machine is made throughout of Iron and Steel. All the work is of the best, the principal parts

being machined and thoroughly well finished. The Main Spindle Bearings are adjustable, and are fitted with Lubricators. The general Ironwork is finished in enamel, but the large Tilting Table, the Clamps, Trusses and other bright parts are nickel-plated and highly polished.

**DRIVING BY POWER.**—Power is transmitted by a 3-inch V Pulley on the right-hand end of the Main Spindle. (The Treadle motion is transmitted by a similar pulley at the left-hand end.) A Pin-clutch Gear, controlled by the knee of the operator, is arranged between these Pulleys. When in the central position both Pulleys are free. By turning the knee slightly to the left the work may be started slowly by the Treadle; afterwards, by moving the knee to the right, the Treadle is released, and remains stationary, while the Power Pulley is brought into use, and a high speed thus obtained. When driving by power, a suitable speed is from 700 to 750 revolutions per minute. The Countershaft should run at from 170 to 190 revolutions.

**TREADLE MOVEMENT.**—The Treadle is 21½ inches wide and has powerful leverage. It has an adjustable Pitman. The heavy driving wheel is 19 inches in diameter. It has a 1½-inch face, with turned groove to take a ¾-inch round Belt. The power, which is transmitted by a 3-inch Pulley on the Main Spindle, is controlled by a heavy Balance Wheel 7 inches in diameter, turned on face and rims.

COUNTERSHAFT.  
7/6

**VERTICAL STROKE.**—The reciprocal motion is secured by a Crank Pin driving a Steel Block in a machined Slide which moves in adjustable guides. This secures an absolutely vertical stroke for the Lower Clamps. By our own Patent Compensating Movement behind the Arms a correspondingly vertical stroke is obtained for the Upper Clamps. This, with the advantage of balanced Wood Arms, is a specially fine feature of the "Norfolk" Fretsaw. The Compensating Movement is supported on adjustable centres on which the Arm castings swivel. The Saw may thus be readily adjusted in a side direction by slackening the Bolts at the far end of the Arm, the casting being clamped in its correct position after the Arm has been regulated.

**ARMS.**—The polished Arms are of tough, well-seasoned Beech, and have a swing of 25 inches—an advantage which every Fretworker will appreciate. Another important feature is that they are kept perfectly straight by means of adjustable Trusses, thus preventing any tendency to bend on account of the extra length of Arm. The top Arm is so constructed that it will swing upwards, clear of the Tilting Table, when adjusting the Saw-blade. The Arms are fitted with the Hobbies Patent Lever Clamps, which will hold the finest Saw-blades.

**TILTING TABLE.**—The Table is of extra size, being 24 inches long and 12 inches wide. It is constructed to slide backwards or forwards, and may be tilted to any angle for Inlaying. Being nickel-plated and highly

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# HOBBIES MACHINES ARE ALL MADE IN NORFOLK.

polished, it is very elegant in appearance, while its liberal proportions greatly facilitate the handling of large work.

**TOOL TRAY.**—Resting upon the frame is a large iron Tool Tray, size 28 inches by 16 inches. This has a  $1\frac{1}{2}$ -inch rolled edge, and will be found exceedingly useful for holding tools or work.

Parts may at any time be replaced.

## PRICES—

<b>PRICE COMPLETE, arranged for driving by power, with Countershaft .. ..</b>	<b>£5 15 0</b>
<b>PRICE, without Power Movement .. ..</b>	<b>£5 0 0</b>

FOR WEEKLY PAYMENTS, SEE PAGE 29.

## DRILLING, RECESSING, OR CARVING ATTACHMENT.

This useful Attachment consists of a Drill Arm, as shown on the "Suffolk" Machine (page 20), which may be used for Drilling holes in the usual way. In addition, it is fitted with adjustable gauge which regulates the length of the stroke and is used when Recessing or Carving to prevent the Tool cutting too deep. The hole in Chuck or Spindle is  $\frac{1}{2}$  in. diameter. **Price of Attachment, 12/6.**

When a Recessing attachment is required with a Norfolk Machine, the Machine has to be specially built. The Attachment cannot therefore be supplied separately.

Drills for the above Attachment may be had with  $\frac{1}{8}$  in. Shanks in assorted packets containing 1 each  $\frac{3}{32}$  in.,  $\frac{1}{4}$  in.,  $\frac{5}{16}$  in.,  $\frac{3}{8}$  in.; total length of Drill,  $2\frac{1}{2}$  in. **Price 6d.** per packet, post free **7 $\frac{1}{2}$ d.**

Recessing Tools for the above Attachment may be had with  $\frac{1}{2}$  in. Shanks, set of four, **2/-**; post free, **2/2**

## HOBBIES GRINDSTONE.

### OUR OWN MAKE.

Serviceable for grinding all classes of Edge tools, such as Plane Irons, Chisels, Knives, Carving Tools, &c.

The handsome Frame of this Grindstone is of heavy cast iron, and is finished in black enamel. The Stone, which is 14 inches in diameter and  $1\frac{1}{2}$  inches thick, is of the best Yorkshire grit.

The Stone may be turned either by treadle or by means of a hand crank, and there is an adjustable Rest for supporting the tools when being ground. The Trough is provided with a screw, by means of which the water may be withdrawn when the Grindstone is not in use.

Apart from being an indispensable Workshop Accessory, the HOBBIES Grindstone is specially adapted for household use, being useful for Table and other Knives, Scissors, Garden Tools, etc.

Price complete, **20/-** Carriage forward.

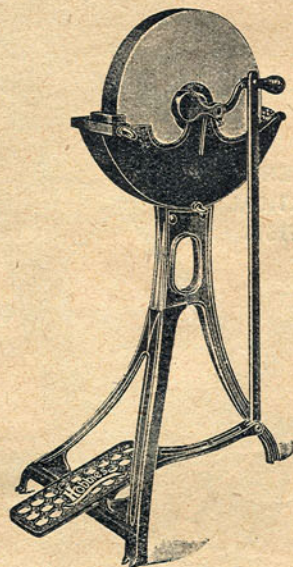

We can supply the Stone separate at a very low price. It is of the best Yorkshire grit, size 14 in. diameter by  $1\frac{1}{2}$  in. thick, and is bored ready to fix on spindle.

Price **2/6**  
Carriage by rail (payable on delivery).

FOR PRICES BY WEEKLY PAYMENTS, SEE PAGE 29.

Each Grindstone is carefully tested before being despatched, and is sent in a crate in complete working order, and ready for immediate use.

Grindstones are sent by rail from our Dereham Works at the Railway Company's risk. The Purchaser pays carriage on delivery, but no Machine should be taken in if in a damaged condition. In ordering, the name of the nearest Railway Station should be given.

Price 20/- Complete.

# HOBBIES CIRCULAR SAWS.

FOR GENERAL WORK  
AND  
GEOMETRICAL INLAY.

UNRIVALLED—ALL BRITISH MANUFACTURE.

**H**OBBIES small Treadle Circular Saw was especially designed by us at the urgent request of a number of Customers. It takes a 4 in. Saw, and is provided with a Sliding Table moving parallel with the Saw on accurately machined V slides. The Table is machine-graduated, and has an adjustable fence which can be set to any angle, thus enabling wood to be cut to any desired angle.

This Machine is therefore specially suited for Geo-

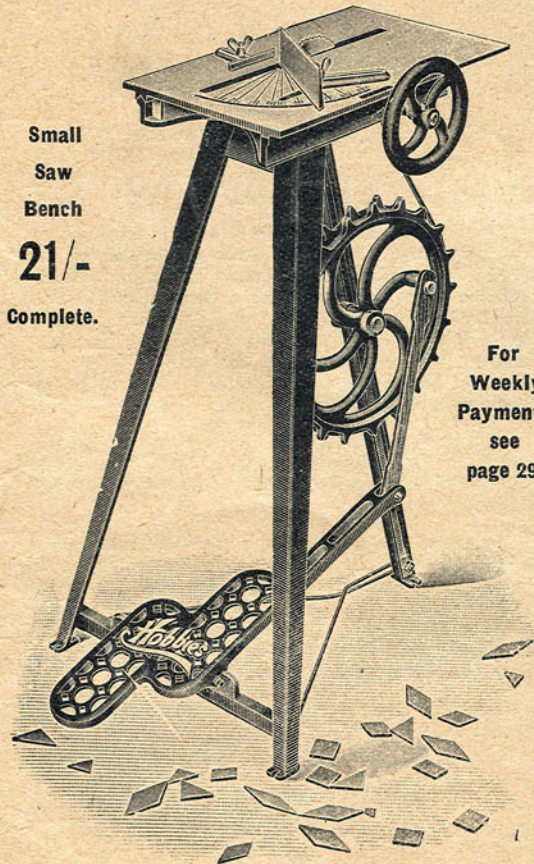

## THE LARGER SAW BENCH.

Hobbies Larger Treadle Circular Saw Bench as illustrated takes a 6 in. Saw driven by a heavy Fly Wheel: the Saw Spindle is operated by machine-cut gearing, and controlled by a  $7\frac{1}{2}$  in. Balance Wheel. It has a Sliding Table  $15\frac{1}{2}$  in. by  $19\frac{7}{8}$  in. The Table is machine-graduated, so that the Fence may be adjusted accurately to any angle. There is also an Adjustable Gauge for controlling the length of each piece cut off, and an independent Fence which moves in a Slide for cutting parallel work.

SAMPLE OF GEOMETRICAL INLAYING.

The Machine is massive in construction, elegant in appearance, and we have every confidence in recommending it to our customers. Besides Geometrical Inlay the machine is suitable for cutting wood up to 1 in. thick.

Small

Payments  
see  
page 29.

metrical inlaying, as by its use any number of Squares, Triangles, Rhombus or Rhomboids, may be cut identical in size and accurate in shape.

Most delightful patterns can thus be formed from different coloured varieties of wood as indicated by the illustration of a Geometrical Inlay pattern.

In this way small pieces of Fretwood which would otherwise be waste are put to good use.

Apart from its use for Geometrical Inlay or Wood Mosaic, this machine can be used for general cutting of wood up to  $\frac{1}{2}$  in. thick.

For Prices by Weekly Payments, see page 20.

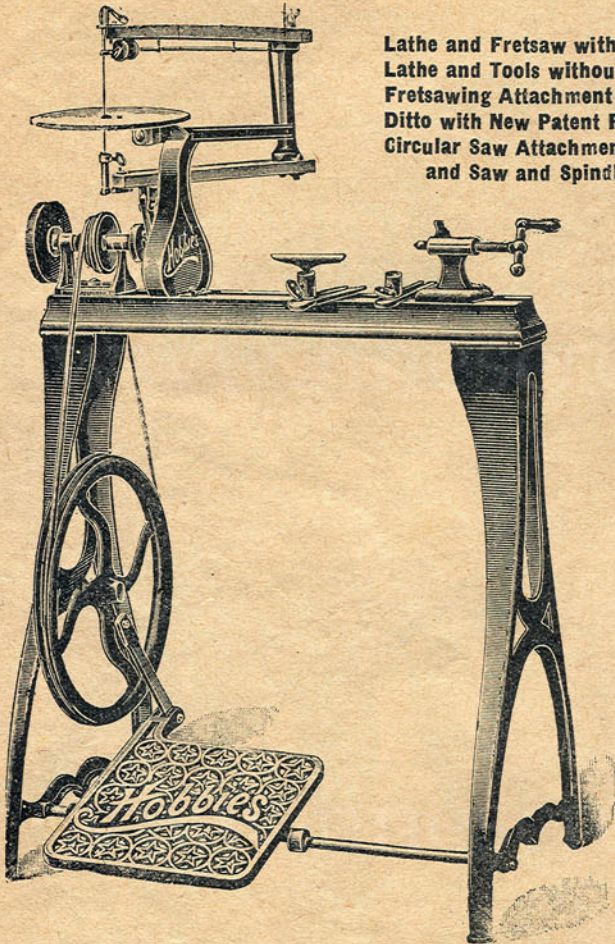

THIS "Companion" Machine forms a useful Amateur's Lathe and Fretsaw. The large Driving Wheel has two grooves of varying depths to give a change of speed.

The Lathe head is provided with a 2-inch Face Plate, a Spur Centre, and a Screw Centre for turning Cups. It has also a solid Emery Wheel and a Drill Spindle. The Tail Stock has a Screw Feed Centre. The Lathe is provided with two Rests, three Turning Tools, Wrench and Screwdriver; and with the Fretsawing Attachment, Designs, Saws, Drill Points, etc. Swing of Lathe, 5 inches. Length of Bed, 24 inches. Distance between Centres, 14 inches.

**Circular Saw Attachment.**—A Circular Saw Attachment, as illustrated below, with Nickel-plated and polished Table can be fitted to the "COMPANION" Lathe.

**Fretsaw Attachment.**—The Fretsawing Attachment is secured to the Lathe Bed by one bolt, and can be put on and taken off at pleasure. It is fitted with 19-inch arms, with adjustable Trusses to prevent bending, Dust Blower, Nickel-plated Tilting Table, and Hobbies Patent Lever Saw Clamps, or the new Patent Reversible Clamps for 1s. extra.

A List of Separate parts and fittings is given on page 25.

Machines are sent by rail from our Dereham Works at the Railway Company's risk.

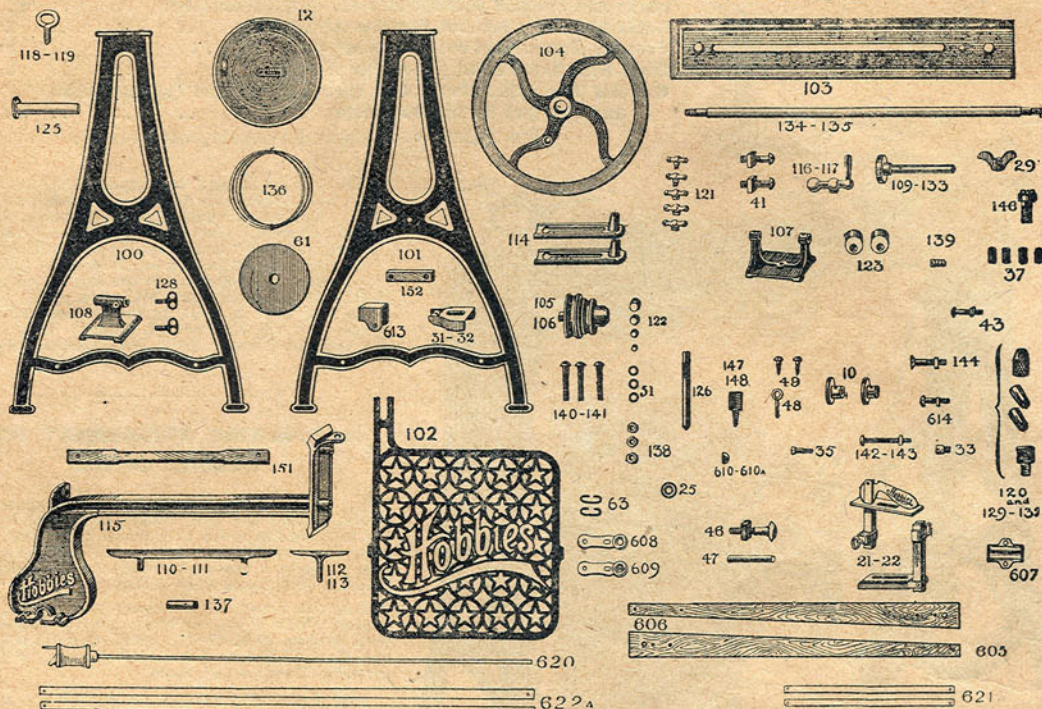

The Purchaser pays carriage on delivery, but no Machine should be taken in if in a damaged condition. In ordering, the name of the nearest Railway Station should be given.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# FITTINGS FOR "COMPANION" AND "HOBBIES" LATHES AND FRETSAWS.

ILLUSTRATIONS are given below of the various parts and fittings which make up the "Companion" and "Hobbies" Lathes and Fretsaws. All these are kept in Stock. The owner of a Machine who has the misfortune to break or lose one of the parts can therefore obtain a duplicate from us and repair the damage himself. It will be observed that the two Machines are of similar design and construction, but in the case of the more expensive one, the legs and bed are longer, and most of the smaller fittings are nickel-plated.

CIRCULAR SAW ATTACHMENT

Swing of Lathe, 5 in. Length of Bed, 30 in.

Distance between Centres, 20 in.

THIS handsome and very useful Lathe has recently been considerably improved. It is larger than the "Companion" Lathe, being 6 in. higher, while the distance between centres is 20 in. Otherwise it has all the features of the "Companion," but has the advantage of being very highly finished, all the principal parts being nickel-plated and polished. It has also a very Superior Drill Chuck for holding round Drills ( $\frac{1}{4}$  in.,  $\frac{3}{8}$  in., and  $\frac{1}{2}$  in.) for drilling Wood or Iron. At the left-hand end of Main Spindle is a hole for Fretwork drilling. There are also five superior Turning Tools with polished Rosewood Handles.

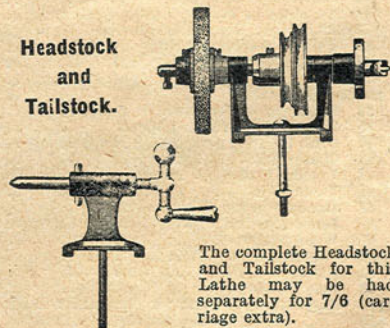

## FRETSAWING ATTACHMENT FOR HOBBIES LATHE.

We supply a Special Fretsawing Attachment for Hobbies Lathe, the chief features being that the crank pin in face-plate works in a slot in the bottom wooden arm, thus enabling us to keep the Table  $2\frac{1}{2}$  in. lower than formerly, a great convenience to Fretworkers, who naturally prefer to sit when cutting.

This Attachment has the usual 19 in. wooden arm as formerly, with adjustable Truss Rods to prevent them from bending, Dust Blower, Nickel-Plated Tilting Table and Hobbies Patent Lever Saw Clamps, or the new reversible Clamps for 1/- extra.

A list of separate parts and fittings is given on page 25.

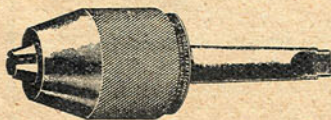

Headstock and Tailstock.

The complete Headstock and Tailstock for this Lathe may be had separately for 7/6 (carriage extra).

## SPECIAL CHUCKS SUITABLE FOR ANY LATHE.

### JAW CHUCK

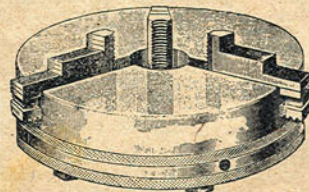

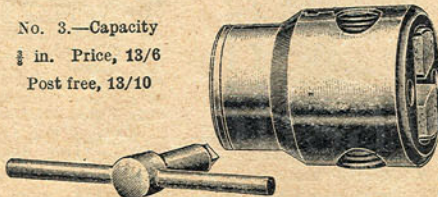

No. 1.—3-Jaw Chuck with  $1\frac{1}{4}$  in. parallel shank. Capacity 0 to  $\frac{1}{2}$  in. 4/6 Post free 4/9

No. 5.—Ditto, 4 in. diameter of hole  $\frac{3}{8}$  in., 25/6 Post free 26/-

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# HOBBIES GAP LATHE.

TAKES 18in. or 30in.  
BETWEEN CENTRES.

**T**HIS Lathe, the design of which is registered, is of handsome proportions, and is fitted throughout in the very best manner. It is finished in enamel, the bright working parts being nickel-plated and polished.

The Lathe has a Faceplate  $8\frac{1}{2}$  inches in diameter, working in a gap. From Bed to Centre is  $3\frac{1}{2}$  inches, while the length between Centres is 18 or 30 inches. The Headstock and Bearings are both adjustable, the thrust being taken on a Ball-bearing Centre. The screw of the Tailstock is actuated by a Balance Crank, and when adjusted is fixed by a Binding Screw. By means of an Eccentric Lever the Tailstock and Hand Rests are instantly secured to the Bed. Ready re-adjustment is easily obtained by means of the Lever Screw.

**Ball-bearings are fitted to the Thrust Screw and the Pitman.**

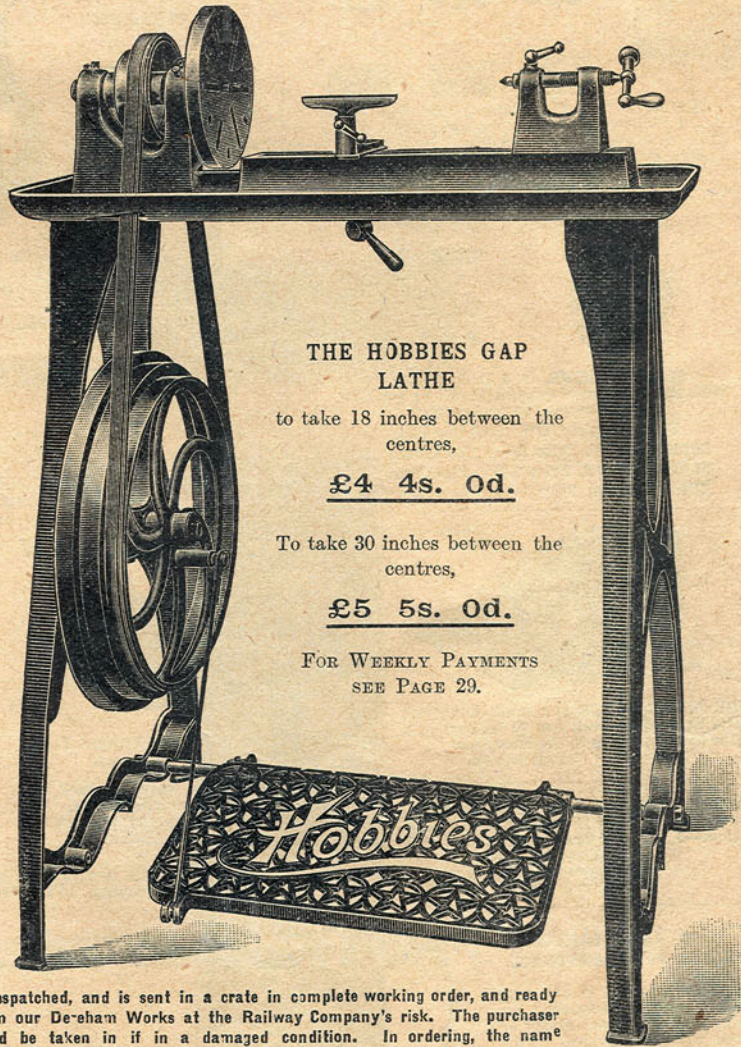

The Driving Wheel has three steps (17 in.,  $18\frac{1}{2}$  in., and 20 in.), which are turned and crowned on their faces to take a one-inch flat Belt. The Treadle is hinged at the back, and coupled to the Crank by a Ball-bearing Steel Connecting Rod.

The Bed with Headstock is cast in one piece with a convenient Tray, three feet long by one foot wide, for holding Tools.

With each Lathe are sent a Single Spur Centre for Wood-turning, Two Plain Centres, and a Carrier for Metal Work, Taper Cotter for withdrawing Centres, Spanner and Oil Can.

Height from floor to bed, 42 inches.  
Extreme height, 48 inches.  
Extreme width, 24 inches.

Each Lathe is carefully tested before being despatched, and is sent in a crate in complete working order, and ready for immediate use. Lathes are sent by Rail from our Dereham Works at the Railway Company's risk. The purchaser pays carriage on delivery, but no Lathe should be taken in if in a damaged condition. In ordering, the name of the nearest Railway Station should be given.

## THE HOBBIES GAP LATHE

to take 18 inches between the  
centres,

**£4 4s. Od.**

To take 30 inches between the  
centres,

**£5 5s. Od.**

FOR WEEKLY PAYMENTS  
SEE PAGE 29.

## HOBBIES SLIDE REST.

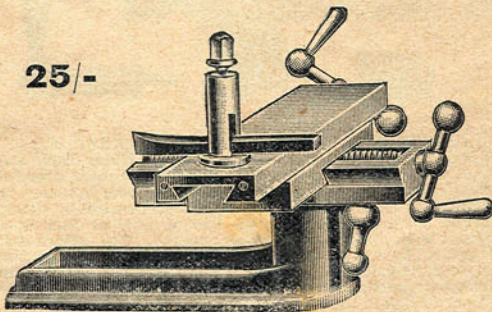

We supply (at an exceedingly moderate price) a very superior Slide Rest, as illustrated. This is made on the most approved principle. It can be swivelled to cut at any angle, and has accurately-made sliding screws, which are operated by balanced crank handles. The Stock size of this Slide Rest is made for Lathes having centres  $3\frac{1}{2}$  in. above the bed, but it can be supplied for higher or lower centres if specially ordered.

Price **£1 5 0**

**Metal Turning Tools**, for use with this Slide Rest, 6d. each.  
Post free 8d.

The Slide Rest is sent by Rail from our Dereham Works at the Railway Company's risk. The purchaser pays carriage on delivery.

25/-

**Orders for Goods by Post should be addressed to HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

Faceplate—Dogs in position.

Faceplate—Clamping Plates in position.

21/-

**THIS SUPERIOR FRETSAW ATTACHMENT** may be fitted to almost any Lathe. It has a 10 in. Tilting Table and Arms, with a clear swing of 24 in. This Attachment is intended for a Lathe having centres  $3\frac{1}{4}$  in. above the Bed, but may be conveniently fitted to any Lathe having higher centres by simply fixing a block of wood under the foot of the Cast Iron Arms to raise it the additional distance required. The Attachment is operated by a  $\frac{1}{2}$  in. Crank Pin, which should be screwed into the small faceplate of the Lathe  $\frac{1}{2}$  in. from the centre, thus giving a stroke of about  $1\frac{1}{2}$  in. to the Saw. The Pin is arranged to slide in the Slot in the lower wooden arm. Price £1 1 0

The Patent Reversible Clamps are supplied with this Machine at 1/- extra.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# GOODS BY WEEKLY INSTALMENTS.

EXCEPTIONAL  
TERMS.

**A**S in previous years, we are willing to supply to regular customers in England, Scotland, and Wales, Fretwork Goods—Machines, Tools, Wood, Fittings, Designs, etc., also Cameras—on the Weekly Payment System. In order to cover the cost of book-keeping, extra office staff and other expenses, it will, of course, be necessary for us to make a small addition to our usual cash prices. We therefore arrange to make a uniform addition of 10 per cent. to our cash prices, and to ask for a fixed weekly payment equal to one-tenth of the cash value of the goods bought. The following Table will show at a glance how these terms apply.

## WEEKLY PAYMENTS FOR MISCELLANEOUS GOODS.

For Goods value 20/- the Terms are :— 2/- with Order, and 10 Weekly Payments of 2/- each.

For Goods value 30/- the Terms are :— 3/- with Order, and 10 Weekly Payments of 3/- each.

For Goods value 40/- the Terms are :— 4/- with Order, and 10 Weekly Payments of 4/- each.

For Goods value 60/- the Terms are :— 6/- with Order, and 10 Weekly Payments of 6/- each.

For Goods value 100/- the Terms are :—10/- with Order, and 10 Weekly Payments of 10/- each.

On intermediate amounts a charge of 6d. on every 5/- (or part of 5/-) is made.

We cannot execute very small orders except for cash, and do not care to supply goods on the Easy Payment System of a lower value than One Pound, for the expense and trouble of dealing with small accounts are disproportionately great. It must, therefore, be understood that we cannot, under any circumstances, accept payment in smaller weekly sums than two shillings, and that when the cash value of the goods ordered is less than a Pound, we must still ask for the extra payment of 2/- which we charge on a full pound's worth of goods. For example, a purchaser of goods to the value of twelve shillings would have to send 2/- with Order, and six Weekly Instalments of 2/- each.

Intending purchasers may give particulars of the goods they require on a Form which can be had on application. We will then send them an AGREEMENT FORM to sign, and on the receipt of the Cash Deposit will despatch the goods ordered.

## WEEKLY PAYMENT TERMS FOR TREADLE FRETSAWS AND LATHES.

For Treadle Fretsaws and Lathes we have arranged a special scale of Terms for Payment by Weekly Instalments as follows :—

" YOUNG BRITON " FRETSAW :	..	2/6 with Order, and Six Weekly Payments of 2/- each.
HOBBIES " BRITON " FRETSAW, No. 1 :	..	2/6 with Order, and Seven Weekly Payments of 2/- each.
HOBBIES " BRITON " FRETSAW, No. 2 :	..	3/- with Order, and Eight Weekly Payments of 2/- each.
HOBBIES A. I. FRETSAW, No. 1 :	..	3/6 with Order, and Ten Weekly Payments of 2/- each.
HOBBIES A. I. FRETSAW, No. 2 :	..	3/6 with Order, and Nine Weekly Payments of 2/6 each.
ROYAL HOBBIES FRETSAW, No. 1 :	..	3/- with Order, and Ten Weekly Payments of 3/- each.
ROYAL HOBBIES FRETSAW, No. 2 :	..	3/6 with Order, and Nine Weekly Payments of 3/6 each.
ROYAL HOBBIES FRETSAW, No. 3 :	..	3/6 with Order, and Ten Weekly Payments of 3/6 each.

# SELECTED FRETWOODS.

**FINEST QUALITY.  
READY FOR USE.**

**W**HEN a Fretworker intends spending hours of patient labour over an elaborate piece of Fretwork, his first care should be to see that he secures wood which is quite suitable for the purpose. Owing almost entirely to the influence of Hobbies, Fretworkers have, during the past few years, multiplied to a surprising extent in every part of the country. One result of this has been that, in nearly every town, shopkeepers have endeavoured to meet the demand for Fretwood, and competition has led to the introduction of large quantities of wood of very inferior quality. Good wood can always be obtained, but it is necessary to pay a fair price for it. To use any but the best wood is simply to throw away the time and labour which have to be spent upon the work. We give here a descriptive list and prices of various suitable Fretwoods. The quality of these may be thoroughly depended upon, but if through any oversight a piece of wood is sent which does not satisfy a customer, we shall always be pleased to exchange it.

The Prices given below are per Square Foot, and we may remind some of our younger customers that a square foot of wood is a piece that contains 144 square inches, but is not necessarily 12 inches long and 12 inches wide. It may be 24 inches by 6 inches or 18 inches by 8 inches, etc., etc.

## WHITE MAPLE.

An exceedingly useful hard white wood, not quite so pure in colour as Holly but has the great advantage of having a surface which is much less readily soiled. It is easy to saw, and most valuable to Fretworkers.

	$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{3}{8}$	$\frac{1}{2}$ in. thick.	
7 to 8 in. wide ..	2½	3	3	3½	4	4½	Pence per Sq. Ft.
9 to 10 in. wide ..	3	3½	4	4½	5	5½	
11 to 12 in. wide ..	—	—	5	5½	6	6	

## WHITE SYCAMORE.

A beautiful white wood, similar to Holly, with a very fine silky figuring.

	$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{3}{8}$	$\frac{1}{2}$ in. thick.	
7 to 9 in. wide ..	4½	4½	5½	6½	7½	8½	Pence per Sq. Ft.
10 to 12 in. wide ..	5	5	6	7	8	9	
13 in. and over ..	—	5½	7	8	—	—	

## MYRTLE.

This wood takes a beautiful polish. It is hard and close-grained, but, not difficult to saw.

	$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{3}{8}$	in. thick.	
7 to 9 in. wide ..	3	4	4½	4½	5	5	Pence per Sq. Ft.
10 to 12 in. wide ..	4½	—	5	5	6	6	
13 to 14 in. wide ..	—	—	5½	6	6½	6½	

## WHITE HOLLY.

A beautiful silky white wood, hard and compact in grain, sometimes very delicately mottled. It forms an excellent substitute for Ivory.

	$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	in. thick.	
6 to 8 in. wide ..	7	7½	7½	8½	8½	Pence per Square Foot
9 to 10 in. wide ..	7	7½	8	9½	9½	
11 to 12 in. wide ..	8	8½	8½	10	10	
13 to 15 in. wide ..	8	8½	9	11	11	

## SILVER GREY SYCAMORE.

A cheap sound wood suitable for staining.

	$\frac{1}{16}$	$\frac{3}{16}$	$\frac{1}{4}$	in. thick.	
6 to 9 in. wide ..	2	2	2½	2½	Pence per Sq. Ft.
10 to 12 in. wide ..	2½	3	3½	3½	

## CANARY.

A yellow wood, not difficult to cut, chiefly suitable for large work. It is not recommended for small articles.

	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{3}{8}$	$\frac{1}{2}$	$\frac{3}{4}$	1 in. thick.	
7 to 9 in. wide ..	3	3½	—	—	—	—	Pence per Sq. Ft.
10 to 15 in. wide ..	3½	4	—	—	—	—	
16 in. and over ..	4½	4½	—	—	—	—	

## SATINWOOD.

A hard and close grained yellow wood, of rich colour and fragrant smell. Sometimes beautifully mottled.

	$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	in. thick.	
6 to 8 in. wide ..	5½	7	9	10	1	Pence per Sq. Ft.
9 to 10 in. wide ..	6½	9	11	1/-	1	

## LACEWOOD.

A densely mottled wood of a light reddish-yellow colour.

	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	in. thick.	
7 to 9 in. wide ..	—	4½	5½	5½	Pence per Sq. Ft.
10 to 12 wide ..	—	4½	5	6	
13 to 15 in. wide ..	—	5	5½	7	

## FIGURED OAK.

A close-grained hard wood, with a deep creamy tint and silvery figuring. It lends itself readily to many different methods of finishing.

	$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{3}{8}$	$\frac{1}{2}$	$\frac{3}{4}$	$\frac{7}{8}$	in. thick.	
7 to 9 in. wide	3	4	5	5½	—	—	—	—	—	Pence per Square Foot
10 to 12 in. wide	3½	4½	6	6	7½	9	1/-	1/1	1/2	
13 to 14 in. wide	4	4½	6	7	8	9½	1/1	1/1	2	
15 to 16 in. wide	4	5	6½	7½	8½	10	1/2	1/3	3	

## LIGHT OAK.

	$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{3}{8}$	$\frac{1}{2}$	$\frac{3}{4}$	$\frac{7}{8}$	in. thick.	
7 to 9 in. wide	3	3½	4	4½	—	—	—	—	—	Pence per Square Foot
10 to 12 in. wide	3	4	4½	5	5½	6	7	8½	—	
13 to 14 in. wide	—	—	4½	5½	6	6½	8	9½	—	
15 to 16 in. wide	—	—	5½	6	6½	7	9	10	—	

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# GOOD WOOD MEANS GOOD WORK.

## SATIN WALNUT.

This is the most useful and popular of all Fretwoods; it is soft brown in colour, richly and evenly grained, very easy to cut, and takes a splendid polish.

	$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{5}{16}$	$\frac{3}{8}$	$\frac{1}{2}$	$\frac{3}{4}$	1 in. thick.	
7 to 9 in. wide	2½	2½	2½	3½	4½	4½	5	6		Pence per Square Foot.
10 to 11 in. wide	3	3	3	4	5	5	6	7		
12 to 14 in. wide	—	3	3½	4½	5½	6	7	8		
15 to 17 in. wide	—	3½	4	5	6	—	8	9		
18 in. and over	—	—	5	6	—	—	—	—		

## DARK WALNUT.

Sometimes called Black or American Walnut. One of the most serviceable of all Fretwoods. It is of a dark brown colour, finely grained and often beautifully figured, and easy to saw.

	$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{5}{16}$	$\frac{3}{8}$	$\frac{1}{2}$	$\frac{3}{4}$	$\frac{7}{8}$	1 in. thick.	
7 to 9 in. wide	4½	—	6½	6½	7	—	—	—	—	Pence per Sq. Ft.	
10 to 12 in. wide	4½	5½	7	7½	8	8½	10	10			
13 to 14 in. wide	—	6	7½	8	8½	9	11	1/-			

## TASMANIAN WALNUT.

A rich brown wood with a fine straight grain, will take an excellent polish. Easy to saw and makes a beautiful contrast when used with white holly or other light woods.

	$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{5}{16}$	$\frac{3}{8}$	$\frac{1}{2}$	1 in. thick.	
7 to 9 in. wide ..	3	4	5	5½	—	—	—	Pence per Square Foot.	
10 to 12 in. wide..	3½	4½	6	6	7½	9			
13 to 14 in. wide..	4	4½	6	7	8	9½			
15 to 17 in. wide..	4	5	6½	7½	8½	10			

## RED MAHOGANY.

This well-known wood takes a beautiful polish. It is hard, but not difficult to saw.

	$\frac{1}{16}$	$\frac{1}{8}$	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{5}{16}$	$\frac{3}{8}$	$\frac{1}{2}$	$\frac{3}{4}$	1 in. thick.	
7 to 9 in. wide	4	4	4½	4½	5	5½	—	—	Pence per Sq. Ft.	
10 to 12 in. wide	4½	—	5	5	5½	6	7	8		
13 to 14 in. wide	—	—	5	5½	6	6½	7	9		
15 to 17 in. wide	—	—	5½	6	6½	7	9	11		
18 in. and over	—	—	6	6½	7½	8	10	1/-		

## BIRCH.

A close-grained light-brown tinted Wood, easy to saw.

	$\frac{1}{16}$	$\frac{3}{16}$	$\frac{1}{4}$	$\frac{5}{16}$	$\frac{3}{8}$	$\frac{1}{2}$	1 in. thick.	
7 to 9 in. wide ..	2½	3	3½	—	—	—	Pence per Sq. Ft.	
10 to 12 in. wide ..	3	3½	4	4½	4½			
13 to 15 in. wide ..	—	4	4½	5	5			

In ordering, please state if the Wood is to be sent by Rail or Parcel Post, in the former case giving particulars as to the Station, etc., and in the latter enclosing additional stamps for postage. The average weight of Fretwood is about  $\frac{3}{4}$  lb. per foot;  $\frac{1}{4}$  in. wood averages about 1 lb. per foot.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

## FRETWOOD CUT TO SPECIAL SIZES.

We cannot supply Wood cut to special sizes at the prices quoted in the foregoing tables.

WE always endeavour to meet our Customers wishes as to width of wood required, but where wood is ordered to be cut to a special length and width, **one-third extra** must be sent to cover labour and waste. For example, if a Customer ordered a piece of  $\frac{3}{16}$  inch Sycamore to be cut 16 inches long and 9 inches wide, this would contain one square foot, the list price being 6d. To this add one-third, or 2d., and the total cost would be 8d. Or the order might be for a piece of  $\frac{1}{4}$  inch Light Oak 24 inches long by 15 inches wide. This would contain 2½ square feet, which at 6d. per foot, would be 1/3. Add to this one-third, or 5d., and the total would be 1/8. This charge is absolutely necessary as, in addition to the extra time occupied in the execution of these special orders, there is inevitably a considerable waste of wood in cutting the required sizes.

## THREE PLY FRETWOODS.

Three-ply Wood, which is occasionally required for designs of a fragile character, consists of three thicknesses of stout Veneer (the grain of the middle board running **crossways**), all glued together under great pressure, so that when cut it has the appearance of solid wood. We can supply Three-ply Wood,  $\frac{3}{16}$  inches thick, in the following varieties:—

**Maple. Oak. Satin Walnut.** Price 6d. per Square Foot.

**Mahogany. Walnut.** 8d. per Square Foot.

These Fretwoods are supplied in Panels 36 inches long by 18 inches wide.

See Note below regarding Carriage and Postage.

## IVORINE AND BLACK XYLONITE, FOR OVERLAYING, Etc.

**Ivory Panels** for overlaying, size 12 inches by 6 inches, and about one-twenty-fifth inch thick, grained and polished to perfectly imitate Ivory. Price 1/4 per Panel, or 1/6 post free. (See also page 32).

**Black Xylonite** for overlaying in Panels, size 12 inches by 6 inches and about one-twenty-fifth inch thick, with polished surface to resemble Ebony. Price 1/4 per Panel, or 1/6 post free. (See also page 32).

# SPECIAL PARCELS OF FRETWOOD.

CARVING WOOD.  
JAPANESE VENEERS.

## PARCEL OF SELECTED OVERLAY WOODS.

Overlay work is now frequently introduced into Fretwork Designs. Even when no Overlay is indicated, the Fretworker may often introduce one with striking effect. Consequently, a small stock of assorted woods for these overlays should always be kept. To enable a Fretworker to do this, we can supply SIX SQUARE FEET of assorted Fretwoods, one-sixteenth inch thick. Price 1/6 per Parcel, or post free for 1/10

## SIX-FOOT LOTS OF FINE FRETWOOD.

For general use we can supply the following Parcels of fine Fretwood, each containing Six Square Feet of selected Boards of useful widths, planed on both sides, and ready for use. The Wood is three-sixteenths inch thick :-

	6 Square Feet.	Post Free.
Birch .. .. .	1/6	2/-
Maple .. .. .	1/9	2/3
Satin Walnut .. .. .	1/6	2/-
Canary .. .. .	1/9	2/3
Light Oak .. .. .	2/3	2/9
Mahogany .. .. .	2/6	3/-
Figured Oak .. .. .	3/-	3/6
Sycamore .. .. .	3/-	3/6
Myrtle .. .. .	2/6	3/-
Walnut .. .. .	3/6	4/-
Holly .. .. .	3/9	4/3
Tasmanian Walnut .. .. .	3/-	3/6

## NINE-FOOT LOTS OF ASSORTED WOOD.

Each Parcel contains 9 Square Feet of Wood, and includes not less than four varieties. All the Wood is planed on both sides and ready for immediate use. Price 2/6, or post free for 3/-

## WHITE MAPLE.

Parcel of Six Square Feet.

White Maple is the most serviceable of all White Woods, the grain being hard and the figuring even. We can supply a fine Parcel containing Six Square Feet,  $\frac{3}{16}$  in. thick, and about 7 in. wide. Price 1/3, or post free for 1/9

## SATIN WALNUT.

Parcel of Twelve Square Feet.

As a Special Line we have made up a parcel containing Twelve Square Feet of selected Satin Walnut perfect in quality, and  $\frac{1}{16}$  in. thick. The Boards range from 6 to 9 in. in width. Price 2/6, or post free for 3/3

## TINTED SYCAMORE.

We have a large quantity of Sycamore, which is tinged with a blue colour. This we can offer at a very low price. The wood is planed on both sides, and ready for immediate use. We have made up Parcels containing Six Square Feet of this wood, which we can supply as follows :-

6 Square Feet,  $\frac{3}{16}$  in. thick, 1/4, or 1/10 post free.  
This is a remarkably good wood for Staining.

## SPECIAL PARCELS.

We have frequently in preparing special orders, to cut comparatively short ends off boards of Fretwood. These pieces, while excellent in quality, are not large enough to send out with ordinary orders. We, therefore, make them up into Special Assorted Parcels for the benefit of young Fretworkers, and for others who have occasion to make up small articles. Each Parcel contains about Twelve Square Feet of Assorted Woods.

Price 2/-, or 2/8 carriage free.

## SMALL SAMPLES OF FRETWOOD.

Small Samples of twenty named varieties of Fretwood will be sent for 6d. or post free 7d.

## BRASS FOR OVERLAYING.

Polished Brass for Overlaying, in Plates, size 12 in. by 6 in. price 1/- per Plate, or 1/3 post free, or a Plate 6 in. square 6d. post free 7d. Two Plates 2/4 post free.

## SECTIONAL INLAY WOOD.

A Parcel containing 7 lbs. of small pieces of Assorted Wood can be supplied for 7d.; post free for 1/1

See Special Advt. of Saw for Sectional Cutting (page 23).

## PARCELS OF CARVING WOOD.

We have a stock of Parcels of Assorted Woods for Carving. Each Parcel contains a variety of different kinds of Wood of varying thickness. There is about 9 lbs. weight of Wood in each Parcel, and the price at which we are selling the wood is only about half the usual rates. These will be found useful by all Wood Carvers.

Price 3/- Post free 3/9

CUTTING THE VENEER WITH SCISSORS.

## HOBBIES JAPANESE VENEERS.

For Lining and Backing Fretwork of all descriptions.

Colours :- Green, Walnut, Pink, Heliotrope, Red, Yellow.

In Sheets measuring 30 in. by 20 in.

Price 3d. per sheet. Postage 2d. extra.

Parcels of 6 Sheets, colours as above, carefully packed.

Price 1/3, post free 1/6.

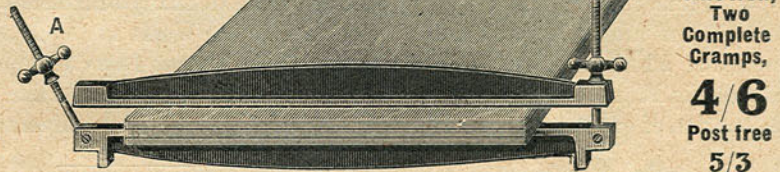

PHOTO OF JAP. VENEER.  
Sheets measure 30 by 20 in.

Order for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester Birmingham and Leeds, and of all Hobbies Authorised Agents.

# WARPED WOOD PREVENTERS.

FOR the benefit of Fretworkers and others who are in the habit of keeping a fairly large stock of wood, we have designed and are now manufacturing two new and ingenious contrivances for preserving wood from warping. The principle may be seen at once from the drawing. The wood is held, as shown by two pairs of Nickel-plated Cramps. These will hold wood up to 14 in. and 20 in. respectively in width, but are, of course, suitable for narrower wood. Any length may be used, while a number of boards, to an aggregate thickness of four inches, may be held. As the screws are double pitch, they are very easily manipulated, and as each one is hinged (as shown at A), the adjustment is exceedingly simple. The pairs of Cramps, which are strong and well finished, would make a handsome addition to the amateur's workshop.

14 in.  
Cast Iron,  
Two  
Complete  
Cramps,  
**4/6**  
Post free  
**5/3**

**Hobbies 20 in. Warped Wood Preventer** (all Steel), two complete Cramps, price 5/- Post free 5/9

This latter Tool is made from Steel nicely Plated and Polished, and has been designed to meet a growing demand for a Cramp that will take wider woods, at the same time keeping moderate in price. This Cramp is both simple and effective, and will take wood up to 20 in. wide.

For Fretworkers and  
Wood Carvers.

## HOBBIES BENCH CRAMP.

This Cramp is made of black Japanned Iron, and has Steel Screws. The arm is fitted with Swivel Plates, which enable the Cramp to hold the work at any angle. The upright bar passes through a hole in the Bench until the Swivel rests on the work. The action of screwing up locks the Bar in the hole. Great power can be exerted by the Steel Screw, which operates on the back of the Arm. When not in use, the Arm folds close to the shaft of the Cramp.

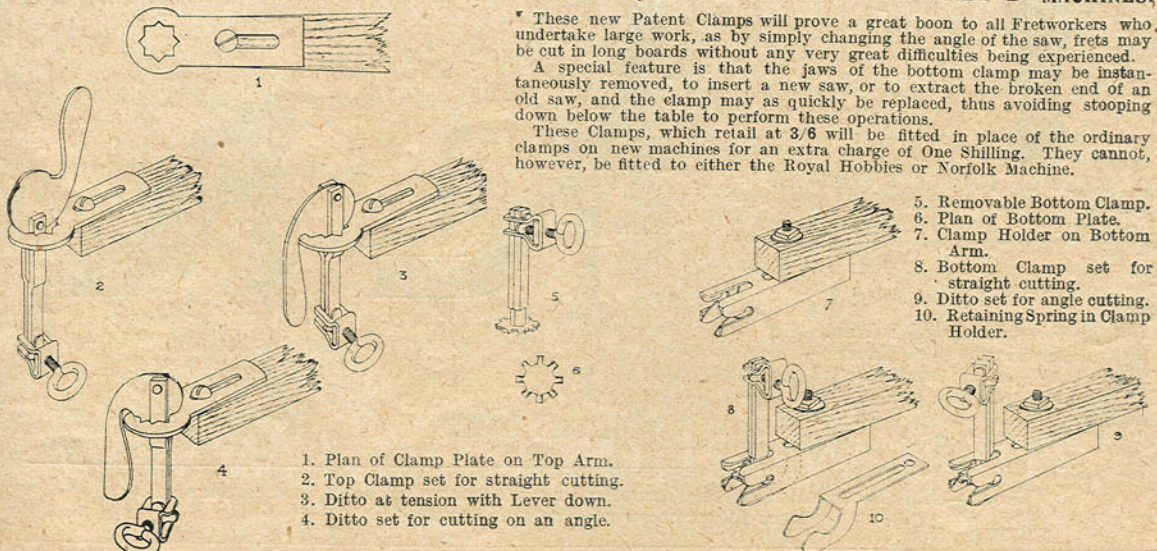

Price 3/- Post free 3/9

## HOBBIES NEW REVERSIBLE & REMOVABLE CLAMPS FOR FRET MACHINES,

These new Patent Clamps will prove a great boon to all Fretworkers who undertake large work, as by simply changing the angle of the saw, frets may be cut in long boards without any very great difficulties being experienced.

A special feature is that the jaws of the bottom clamp may be instantaneously removed, to insert a new saw, or to extract the broken end of an old saw, and the clamp may as quickly be replaced, thus avoiding stooping down below the table to perform these operations.

These Clamps, which retail at 3/6 will be fitted in place of the ordinary clamps on new machines for an extra charge of One Shilling. They cannot, however, be fitted to either the Royal Hobbies or Norfolk Machine.

1. Plan of Clamp Plate on Top Arm.
2. Top Clamp set for straight cutting.
3. Ditto at tension with Lever down.
4. Ditto set for cutting on an angle.

5. Removable Bottom Clamp.
6. Plan of Bottom Plate.
7. Clamp Holder on Bottom Arm.
8. Bottom Clamp set for straight cutting.
9. Ditto set for angle cutting.
10. Retaining Spring in Clamp Holder.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, DEREHAM, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

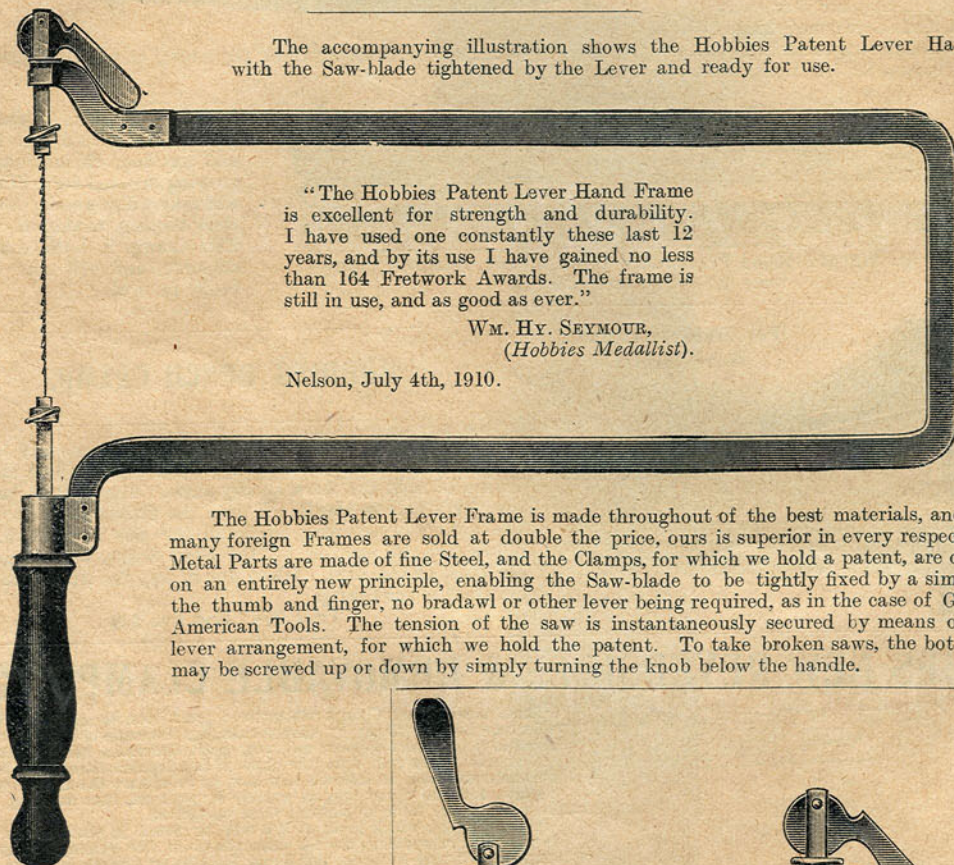

# PATENT LEVER FRETSAW FRAME.

**HOBBIES OWN  
DESIGN & MAKE.**

## THE STANDARD TOOL FOR HAND-SAWING.

**A**S Fretworkers know, we are the only makers of Steel Fretwork Frames in Great Britain, all other Frames in the Market being imported from Germany or America. The whole of the Frames sold by us are made throughout at our Engineering Works at Dereham. The very best quality Steel is used, and all the Frames are fitted with Hobbies Patent Lever Clamps. The whole of the Metal parts of Hobbies Frames, including Screws and other small fittings, are of fine quality Steel. Below, we give an illustration of our Patent Lever Hand Frame, which we strongly recommend as suitable for all classes of work.

The accompanying illustration shows the Hobbies Patent Lever Hand Frame with the Saw-blade tightened by the Lever and ready for use.

"The Hobbies Patent Lever Hand Frame is excellent for strength and durability. I have used one constantly these last 12 years, and by its use I have gained no less than 164 Fretwork Awards. The frame is still in use, and as good as ever."

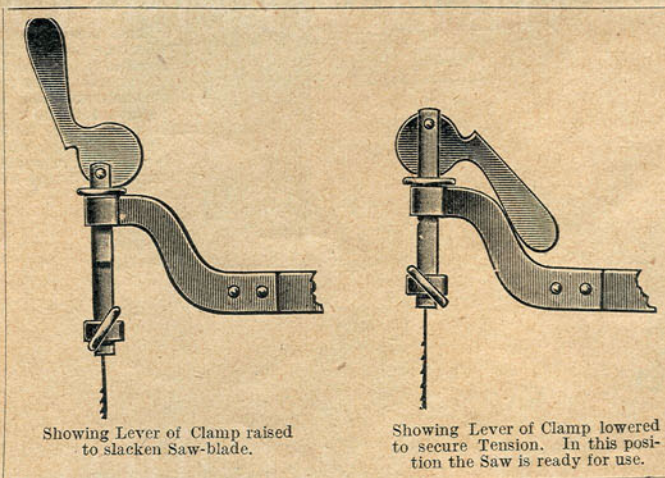

WM. HY. SEYMOUR,  
(Hobbies Medallist).

Nelson, July 4th, 1910.

The Hobbies Patent Lever Frame is made throughout of the best materials, and although many foreign Frames are sold at double the price, ours is superior in every respect. All the Metal Parts are made of fine Steel, and the Clamps, for which we hold a patent, are constructed on an entirely new principle, enabling the Saw-blade to be tightly fixed by a simple turn of the thumb and finger, no bradawl or other lever being required, as in the case of German and American Tools. The tension of the saw is instantaneously secured by means of a simple lever arrangement, for which we hold the patent. To take broken saws, the bottom Clamp may be screwed up or down by simply turning the knob below the handle.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

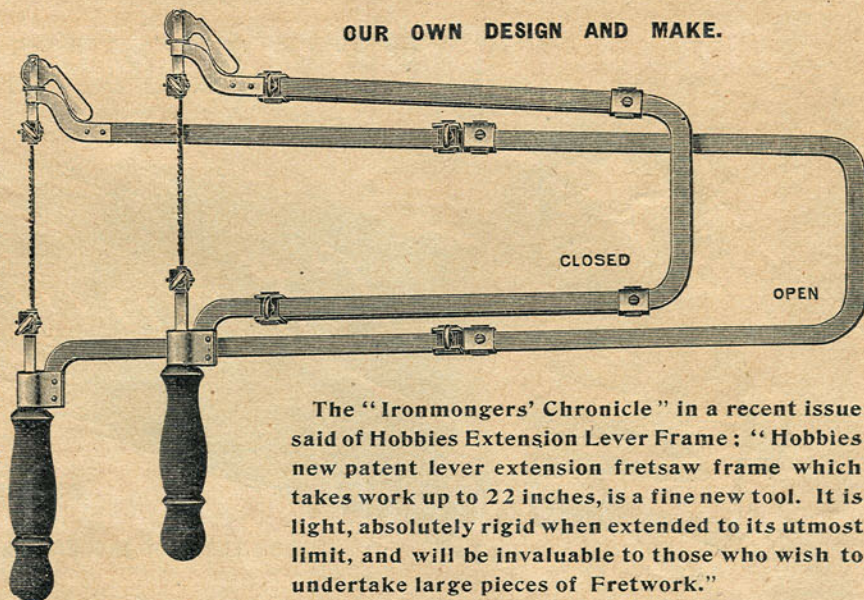

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# HOBBIES EXTENSION LEVER FRAME.

22 INCHES  
WHEN OPEN.

WE have frequently been asked to make a Telescopic or Extension Frame that would take large work. In 1910 we did so for the first time, and it proved a great success. The difficulties to be overcome were two: the Frame is required to be strong and light, but must also be quite rigid. We have at last secured both these desirable features. By a neat clamping arrangement the Frame may be rigidly fixed at any required length from 12 in. up to 22 in.

OUR OWN DESIGN AND MAKE.

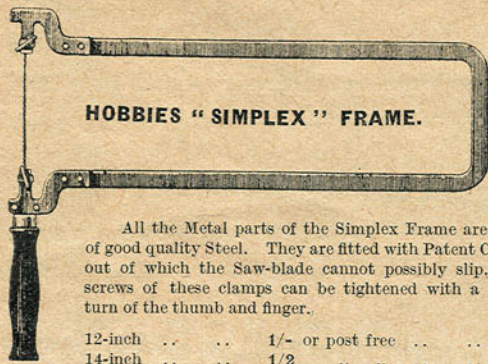

PRICE

4/-

Post free, 4/4.

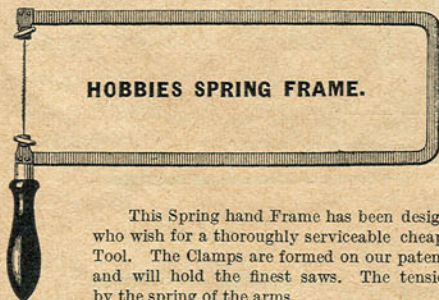

The "Ironmongers' Chronicle" in a recent issue said of Hobbies Extension Lever Frame; "Hobbies new patent lever extension fretsaw frame which takes work up to 22 inches, is a fine new tool. It is light, absolutely rigid when extended to its utmost limit, and will be invaluable to those who wish to undertake large pieces of Fretwork."

HOBBIES "SIMPLEX" FRAME.

All the Metal parts of the Simplex Frame are made of good quality Steel. They are fitted with Patent Clamps out of which the Saw-blade cannot possibly slip. The screws of these clamps can be tightened with a single turn of the thumb and finger.

12-inch .. ..	1/- or post free .. ..	1/3

## HOBBIES BOYS' HAND FRAME.

10-inch .. ..	5d. or post free .. ..	8d.
12-inch .. ..	6d. .. ..	9d.

The Clamps of this Frame are fitted with Bolts and Wing Nuts. These can be replaced, price 2d. per Bolt and Wing Nut.

BOYS FRAME WITH BLOWER IN POSITION

## DUST BLOWER FOR HAND FRAMES.

These handy little Automatic Bellows may be fitted to any Hand Frame by simply pressing the spring clip on to the frame. The illustration above shows the position in which it should be fixed.

At every stroke of the saw the blower is compressed by striking the wood that is being cut, causing a blast of air to issue from the small hole in bottom of blower, facing the saw. This effectively removes all dust from the pattern lines in the immediate vicinity of the saw, adding greatly to the ease and comfort with which good work is produced. Price 6d., post free 7d.

Orders for Goods by Post should be addressed to HOBBIES LIMITED, Dereham, Norfolk.

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# HOBBIES FRETSAW BLADES

## DEFY COMPETITION.

*Let 'em all come!*

The Teeth of  
Hobbies Saw Blades are sharper  
than those of the British Bulldog and as strong.  
Foreign saws cannot stand against them.

*I*N these days of Foreign Rivalry it is something to assert, without fear of contradiction, that our Fretsaws defy all Competition. Quite unsolicited testimonials are frequently received from every quarter of the globe, upholding our assertion, and giving us absolutely convincing proof of the accuracy of our description—that they are unsurpassed for

### **DURABILITY, SHARPNESS, and STRAIGHT CUTTING.**

During the past years so enormous has been the output, owing to their extraordinary popularity, that we have had to spend large sums on the extension of our Plant in order that we may experience no difficulty in supplying the progressive demand.

Although the cost of manufacture has increased, we have decided to still keep the price of our Original Fretsaw at **Half-a-Crown** per gross, which brings them within the reach of all, being the Cheapest Fretsaw on sale.

We have, however, placed a still better saw on the market, which we have called Hobbies "Special Fretsaw," for particulars of which please see page 38.

## **STRAIGHT CUTTING, SHARP AND STRONG.**

### **THE HOBBIES SAW.**

These Saws are made in Nine Sizes as follows:—000, 00, 0, 1, 2, 3, 4, 5, 6, and are sold everywhere at 3d. per dozen, or 2/6 per gross. Postage 1d. extra.

Hobbies Metal-cutting Saw. All sizes, price 4d. per doz. or 3/6 per gross. Postage 1d. extra.

**Hobbies Fretsaw Blades are the only ones made in Great Britain.**

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

TEACHER: "How do you spell 'Fretsaw Blade'?"  
 AMBITIOUS YOUTH: "H—O—B—B—I—E—S M—A—D—E!"

### Some Unsolicited Testimonials.

"The lasting properties the sharpness—the perpetual sharpness—the true cutting of 'HOBBIES' Saws cannot be improved upon. It considerably surprises me that there are any foreign fretsaws at all in this country.

A. J. NORRIS,  
 Chichester.

"For reliability and sharpness, durability and cheapness, I have not yet seen the Saw that could hold a candle to 'HOBBIES.' It is nothing for me to cut out one of your large designs or quite a lot of small ones without changing the saw."

WALTER FARR,  
 Wakefield.

"I cannot find a better saw than 'HOBBIES.' I have used other makes, but have had to come back to 'HOBBIES,' as they cut so straight and clean, and do not pinch,

and leave a good smooth edge. I find from experience they are much more durable than other saws I have tried, keeping an excellent cutting edge which makes them a pleasure to use."

W. B. HOLLINGDALE,  
 Poynings.

"'HOBBIES' Saws cut 'straighter, cleaner, smoother, easier, and last longer than foreign saws. They will do double work of better quality in less time, and are better than any on the market.'"

JOHN BUTTERFIELD,  
 Keighley.

"From my own experience, I can truthfully say that I would use a gross of foreign saws, and have less work done, than if I had used one dozen of 'HOBBIES' Saw Blades."

D. J. CARTER,  
 Brynmynyn.

# HOBBIES SPECIAL FRETSAWS.

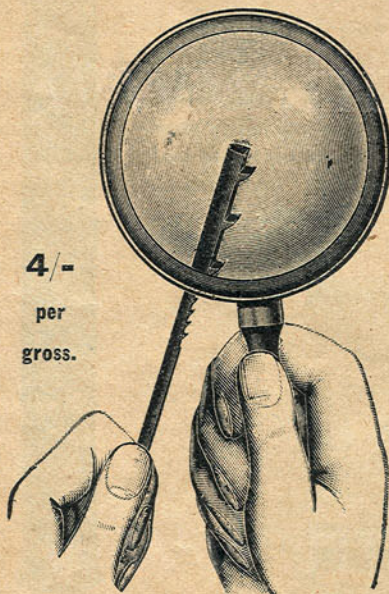

WITH  
GROUND BACKS.

**H**OBBIES LIMITED are nothing if not up-to-date. Our original Fretsaws were described as "Perfect," but we have succeeded in manufacturing a new Saw, which has been tried and tested by the most eminent and expert Fretcutters in Great Britain, who describe it as the "Acme of Perfection." Every Fretworker who has done work for Exhibition will appreciate this splendid improvement to a Saw that has already been acknowledged to have no equal.

We have invented an ingenious machine that grinds the backs of our Special Saw Blades, leaving the back beautifully smooth and round, thus facilitating turning and producing finer work than ever. See our numerous Testimonials, or, better still, try the saws yourself; they are worth a guinea a gross, but we sell them at 4/- per gross. Post free 4/1. 4½d. per doz. Post free 5½d.

## PRAISED BY THEIR USERS.

The following unsolicited testimonials will speak for themselves—and the Saws!

4/-  
per  
gross.

Showing Section of Special Ground  
Back Saw

"Some time ago you sent me a sample of your new round-backed saws for trial, and asked me to send you my opinion of same. Well, I tried them and found them all that a good saw should be, fast, clean, and smooth-cutting, but before sending you an opinion of them, I preferred to get some through the usual channels. I did so and found them as good as the sample. I have tested them on wood, brass, copper, and aluminium, also I use one of your A1 Machines, and since using the above combination I have gained the following awards:—

Silver Medal, Special and Diploma, London.

Bronze Medal, Lincoln.

Silver Medal, Special and V.H.C. Nelson.

First, Third, and V.H.C. and Special Medal for most points in fret classes at Edinburgh last year."

E. J. Moore, Glenfield.

"The 'HOBBIES' Special Fretsaw Blades I pronounce the 'Acme of Perfection' and in my opinion as an expert Fretcutter I consider them absolutely the finest Blade on the Market. I have this season sawn nearly 2,000 articles in Fretwork with a Royal Machine and 'HOBBIES' Special Saws. Were it not for this high-class Machine, aided with these perfect saws, it would have been impossible.

You are probably aware that I am the General Secretary of the Bazaar Supply Co., the only organisation which undertakes the disposal of Amateurs' finished work. Under the circumstances, I think you will agree that I am in a position to give an opinion.

Regarding the quality of the work turned out by our organisation, and whenever my own work has been placed against professional Fret-cutters, the sawing edges have been proved cleaner and more accurate.

I acclaim the Special Sawblades as an improvement on any Blade yet discovered."

J. T. Makinson, Birkenhead.

THE HOBBIES SPECIAL FRETSAW (Reproduced from a photograph).

ONE GROSS OF HOBBIES SPECIAL FRETSAW BLADES.

"I have just finished cutting Design 21 Special (Cottage Overmantel), in ¾ inch oak, only using 2 No. 1 Special Saws, and the first of those had a good deal of use before starting on that design. I think that is a good test for any Saw."

Albert J. Smith, Iver.

"My opinion of Hobbies Special Fretsaws is: I find it impossible to turn out work up to the standard I set myself to attain with any make of saws other than 'HOBBIES.' I have learnt this from experience, having tried every other make of Fretsaws I could obtain."

L. R. Beard, Leyton.

**SPECIAL GROUND BACK SAWS.** Price 4½d. doz. 4/- per gross

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

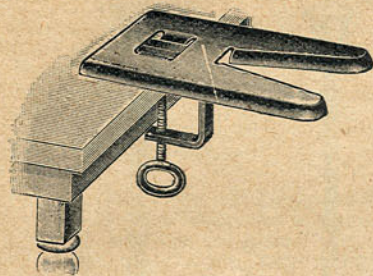

# PATENT FRETCUTTING TABLES.

**HOBBIES  
OWN MAKE.**

**W**OOD cutting Boards are no longer used by experienced Fretcutters, as they lead to numerous broken Saws. The Saw cuts into the wood of the table before the worker is conscious of same. As soon as the work is moved the saw becomes locked in the cut and snaps.

Hobbies Tables are made of softer metal than the Saws, and do not injure the same, although the worker is instantly conscious of the fact so soon as the Saw touches the metal; thus better work is secured and longer life gained for the Saws

## PRESSED STEEL CUTTING TABLE.

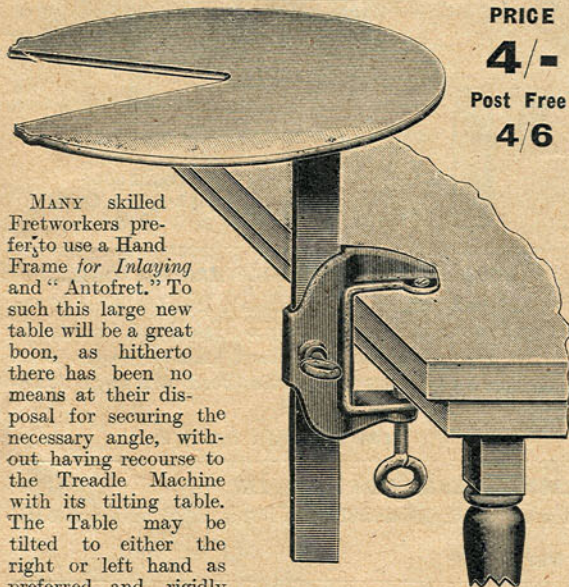

THIS is unquestionably the cheapest and most serviceable Cutting Table on the market for beginners. The table is of pressed steel, nickel-plated and polished, and is provided with a strong Iron Cramp. It is in

every way superior to the old-fashioned wood cutting boards, and we strongly recommend it to those who are taking up Fretwork for the first time.

Price 6d. Post free 9d.

## PATENT "TILTING" CUTTING TABLE FOR INLAYING AND "ANTOFRET."

MANY skilled Fretworkers prefer to use a Hand Frame for Inlaying and "Antofret." To such this large new table will be a great boon, as hitherto there has been no means at their disposal for securing the necessary angle, without having recourse to the Treadle Machine with its tilting table. The Table may be tilted to either the right or left hand as preferred and rigidly fixed at the desired angle. The Table, 10½ in. diameter, is built with a very rigid Cramp provided with lugs and two screw-holes for fixing permanently to the bench. The vertical Slide is of machined Steel, 1 in. by ¾ in, thick. The Table has a rise and fall of 6 inches, it is machine ground, plated and polished, and is fitted with notch in which to rest the top end of hand frame whilst inserting a new Saw.

10½ in. Table, Nickel-Plated and Polished, 4/-  
Post free 4/6

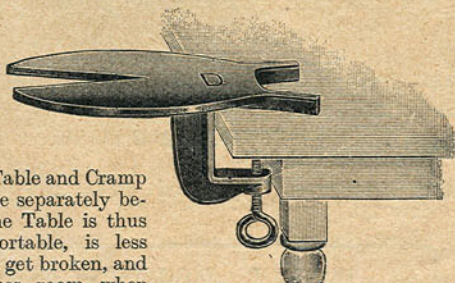

PRICE

## FAVOURITE CUTTING TABLE (A).

THE Table and Cramp are made separately because the Table is thus more portable, is less likely to get broken, and takes less room when not in use. The Cramp and Cutting Table can, however

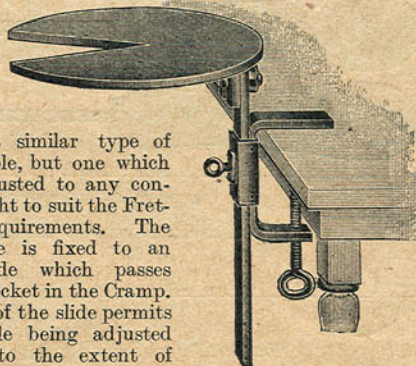

be instantly locked together by means of a simple but ingenious Socket, and when fixed to a Bench or ordinary Table is absolutely rigid and cannot possibly become displaced. The Hobbies Patent Metal Table, which is made in two qualities, as described below, will be found absolutely indispensable by all Fretworkers who use Hand Fretsaw Frames.

PRICES.

No. 1. Dull Nickelled 1/- Post Free 1/4

No. 2. Nickel-Plated and Polished 1/6 Post Free 1/10

## ADJUSTABLE CUTTING TABLE (B).

THIS is a similar type of Cutting Table, but one which may be adjusted to any convenient height to suit the Fretworker's requirements. The Metal Table is fixed to an upright slide which passes through a socket in the Cramp. The length of the slide permits of the Table being adjusted in height to the extent of 5 inches.

# FRETWORK AND METAL DRILLS.

ALL HOBBIES  
MANUFACTURE.

**T**HESSE Tools have been re-designed, and are a marked improvement on previous patterns. The moving handle is constructed on an entirely new principle, and in the base of the two larger sizes has a Patent ratchet nut, which allows the Drill to continuously revolve in the one direction, the momentum being maintained by the ball Fly-weights during the upward stroke of the hand.

## PRICES :

- Boys' Drill**, with Two Bits, 6d. Post free 7d.  
**Simplex Drill**, with 4 Bits, 1/- Post free 1/1  
**Patent Continuous Rapid-Action Drill**, with 4 Bits, 1/6 Post free 1/8

These Drill Points will also fit the Norfolk and Suffolk Drilling Attachments.

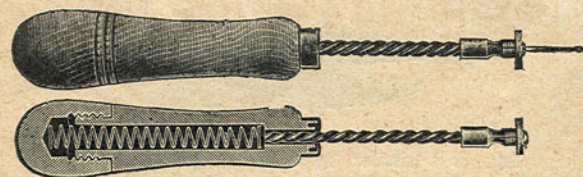

Boys' Drill, 6d.

Simplex Drill, 1/-

Continuous Rapid-Action Drill, 1/6

Continuous High-Speed Drill, 2/6

### HOBBIES PATENT SINGLE-HANDED DRILL.

This very effective Tool meets a long-felt want of the Fretworker; it is operated by a single hand, leaving the other free to hold the work down. A hole can be drilled through an ordinary piece of Fretwood by a single downward stroke.

Price 1/3 Post free 1/5

### HOBBIES PATENT RATCHET ARCHIMEDEAN SCREWDRIVER.

The Screwdriver works on exactly the same principle as the above Single-handed Drill, but is fitted with a ratchet release.

Price 1/6 Post free 1/8

### STEEL STRAIGHT EDGES FOR FRETWORK.

Expert Fretworkers say this is the most useful novelty brought out for some time. **Try it!** You can cut perfectly straight lines with a fretsaw very rapidly. Place the Straight Edge to the line on your pattern, press home the needle points, they will prevent the rule from moving, run the saw along the Tool, and a beautiful straight line is cut without damage to either saw or Straight Edge.

Supplied in Three Sizes.

4 in.—Price 6d. Post Free 7d.

8 in.— „ 9d. „ „ 10d.

# SAW CASE. SAND-PAPER BLOCK. FRET GLUE & PASTE.

## THREE-COMPARTMENT FRETSAW CASE . . .

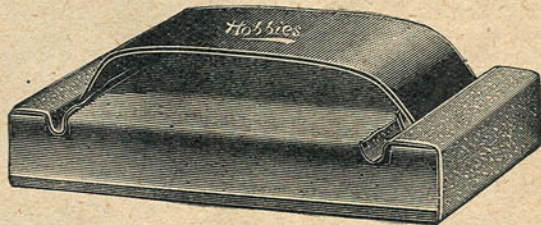

Invaluable to workers who use more than one size of blade.  
Price 6d., post free 7d.

## HOBBIES PATENT SANDPAPER AND EMERY BLOCKS.

Indispensable to Fretworkers. Our own make.

As pieces of Fretwork are very liable to get broken under the operation of sandpapering, we have designed the simple but effective Block here illustrated. The Block is made of soft wood, and the glasspaper held in position by means of a spring Steel Handle. By the use of this Block for sand and glass papering the most fragile pieces of Fretwork may be safely cleaned.

**FOR METAL**—What the Sandpaper Block is to the Fretworker the **EMERY BLOCK** is to the Metalworker. All those who have ever attempted to secure the finest polish on metal, will realise what a vast assistance it is to have the emery cloth, held rigid and perfectly flat. Try one!!

Prices—No. 1. 3-in. SANDPAPERING BLOCK 3d. Post free 4d. No. 2. 5-in. SANDPAPERING BLOCK 6d. Post free 7½d.

Prices—No. 1. 3-in. EMERY BLOCK 3d. Post free 4d. No. 2. 5-in EMERY BLOCK 6d. Post free 7½d.

## STRIPS OF GLASSPAPER FOR REFILLING THE BLOCK.

No. 1. (for 3-in. block), 1d.  
per dozen Strips of Assorted  
Grades

No. 2. (for 5-in. blocks), 3d.  
per dozen Strips of Assorted  
Grades

Postage  
1d. extra.

Re-fill Strips of Emery Paper—No. 1 (for 3-in. blocks), 1½d. per dozen Assorted Strips.  
No. 2 (for 5-in. blocks), 3d. Postage 1d. extra.

## LIQUID FRETWORK GLUE.

The Best Adhesive for Fretwork. Always Ready for Use. The Glue is equally useful as a cement for China, Earthenware, Leather, etc., etc.

Instructions are sent with each Tube.  
Small Tubes (size as illustrated) 1½d. each, or 2½d. post free. Four Tubes for 7d. post free.  
Large Tubes, 6d. each or 7d. post free.

## CONCENTRATED FRETWORK PASTE.

We have specially prepared for the use of Fretworkers a strong and highly concentrated Paste. Before being used the paste requires to be diluted with a large quantity of water. We recommend adding to 1 part of Paste from 2 to 4 parts of water, according to the purpose for which it is required.

NOTE:—It is non-poisonous; dries quickly, and is transparent; will not grow mouldy; is of uniform consistency, free from lumps, and in every way better and cheaper than Gum or Flour Paste.

Price, with Brush, 4½d. Postage, 2½d. extra.

## GLASS PAPER AND TRANSFER PAPER.

**Glass Paper.**—For Cleaning up Fretwork, 6d. per dozen sheets. Postage 2d.

**Transfer Carbon Paper.**—For copying Designs, Black, Red or Blue 3d. per sheet. Postage 1d.

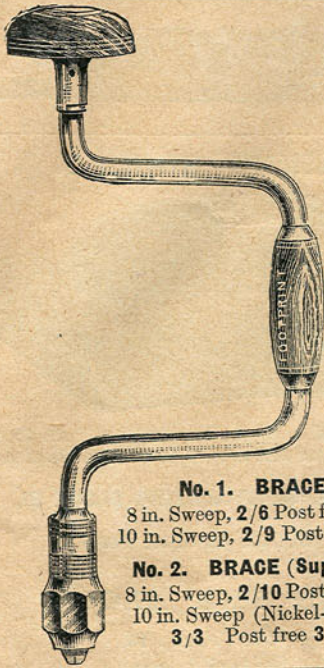

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# SAWS: JEWELLER'S, KEYHOLE, ETC.

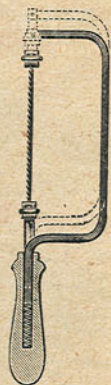

HOBBIES MAKE.

**W**E illustrate here a Saw frame intended to be to the Jeweller or light Metal Worker what the Hack-Saw is to the Engineer.

The Saw Clamps are of Hobbies well-known Patent Spring Open Pattern, in which the Saw is clamped between two flat steel plates embraced by a Shackle, and tightened by a hardened Steel Screw. These Screws and Shackles have recently been much improved and are practically indestructible; this improvement has also been patented.

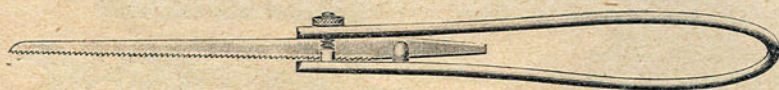

The Tension is maintained on the Saw by a powerful Spring concealed in the Handle, which thrusts the whole frame with top Clamp outwards; the bottom Clamp, in which the other end of the Saw is clamped, is rigidly fixed to the Handle.

The new frame itself is of a light and elegant pattern, is heavily nickel-plated and polished, and is fitted with a Black Enamelled Handle.

## STEEL HANDLED KEYHOLE SAW AND SCREWDRIVER.

This unbreakable handle is of novel construction, and serves as a complete guard for the saw blade when not in use. A slot is provided at the inner end of handle through which the saw projects when used as a screwdriver.

Price 1/- Post free 1/1

## HOBBIES IRON-HANDLE KEYHOLE SAW

This elegant Tool has a Nickel-plated and Polished Handle of extra thickness, and is very comfortable to hold, the special grip secures the blade rigidly at any length required by the nature of the work; the blades are well finished and carefully set.

Price 9d. each. Post free 10½d.

## HOBBIES ALL STEEL PANTOGRAPH.

# 1/6

**T**HIS splendid and most useful Scientific Instrument works beautifully. Anyone of average intelligence can make enlargements of all kinds of Drawings by means of it.

We have designed it especially for Customers who wish to enlarge Designs for Fretwork, Stencilling, Repousse, or other similar work, for which purpose it is specially adapted although Portraits or Pictures may easily be enlarged.

To adjust the Instrument, grasp the projecting ends of a clip with the finger and thumb until the two sides become parallel, when the pencil or rods may be slid into the working position; as soon as the clip is released it grips the part rigidly. To enlarge a drawing twice the size of the original, the figure 2 must appear exactly in the centre of the four clips. To enlarge to three times the original size the figure 3 must appear in the centre of the four clips, and so on up to enlargements to eight times the original dimensions. Turn the Instrument over to adjust the two bottom clips.

**HOBBIES OWN MAKE.**

## ANGLE SQUARE.

For Setting the Saw of Treadle Fret Machines.

This simple Tool should always be used when setting the Table of any Treadle Fret Machine. Having seen that, the Saw works truly up and down without side motion, place the Angle Square immediately behind the Saw, then adjust the Table until it is square with the Saw or at the desired angle. As this Tool rests on two feet at equal distances from the Saw its accuracy is not affected by the slightly curved table. Useful in "Antofret."

Price **6d.** Post free, **7½d.**

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

## FOLDING WOOD WORKER'S BENCH.

HOBBIES OWN  
MANUFACTURE.

FOR Amateur Woodworkers we have designed and are now manufacturing a **Strong Serviceable Bench**, the legs of which can be folded underneath for convenience of transit, or to economise space when not in use. When fixed it is perfectly rigid, and by simply drawing out the pin at the end of straining rod the braces and rod can be removed and the legs folded underneath.

The Benches are made of seasoned deal, with  $1\frac{1}{4}$  in. tops, 1 in. sides, legs 2 by  $2\frac{1}{2}$  in., with receptacle at end for holding tools. They are fitted with stop, strong 2 in. bench screw, and hardwood clamp.

Large size, 3 in. between Jaws, 1/6 Post free 1/10

Wood Carvers and Fretworkers who have frequently to handle very delicate work, require a Parallel Cramp. The pressure is evenly distributed over a large surface, and the most delicate work may thus be held without fear. For small and fine Carving or Fretwork sandpapering, such Cramps are exceptionally useful.

The Hobbies Parallel Cramps are made in dull-nickelled Iron, with polished edges, etc. The adjustment is rapidly secured by holding the central screw (A) in the left hand and turning the whole Cramp round by using the end screw (B) as a handle.

## HOBBIES "A SERIES" CRAMPS.

# MITRE-SHOOTING & BEVELLING TABLES.

HOBBIES  
OWN.

## HOBBIES IMPROVED MITRE-SHOOTING TABLE.

18 inches by 5 inches.

**T**HIS improved metal Shooting Table has a carefully machined surface. The Table is machined graduated to the following angles, 15, 30, 45, 60, 75 and 90, giving a much wider range than the previous pattern.

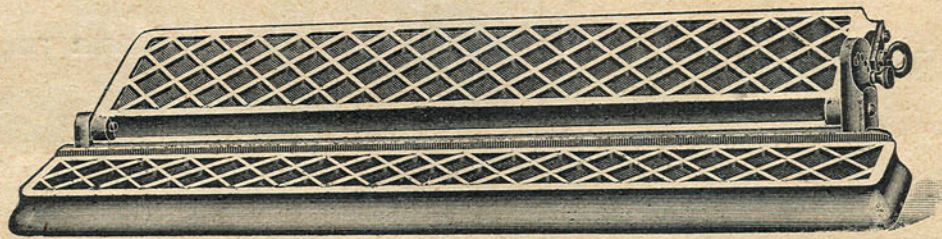

The Fence is provided with two clamping Screws, ensuring absolute rigidity of the Fence when fixed, which may of course be adjusted to any intermediate angle if required.

Price 5/6 Post free 6/3

## HOBBIES METAL SHOOTING AND BEVELLING TABLE.

Size 18 inches.

This Tool, while generally similar in design and construction to the above, is for Beveling Work. The adjustable Tilt- ing Plate is hinged at both ends, and is regulated by a Quadrant at the right hand, as shown. The

Quadrant is provided with a pin, which drops into holes at the following angles:—15, 30, 45, 60, 75 and 90 degrees. It is also supplied with a Clamping Plate and Screw, by means of which any intermediate angle may be secured.

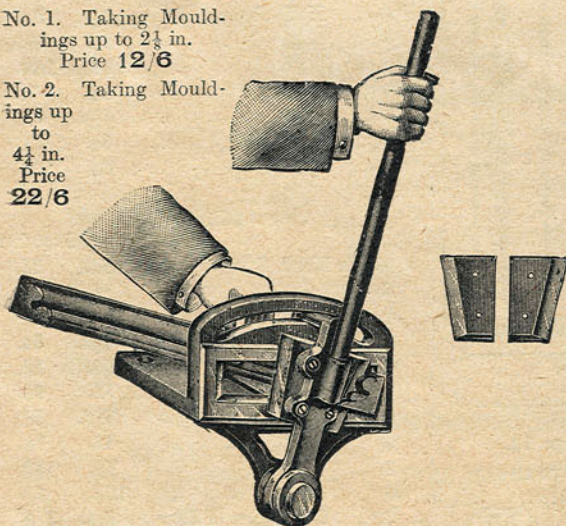

The Shooting Table has a machined surface, and all the prominent parts are nickel-plated and polished.

Price 5/- Post free 5/9

## MITRE TRIMMER.

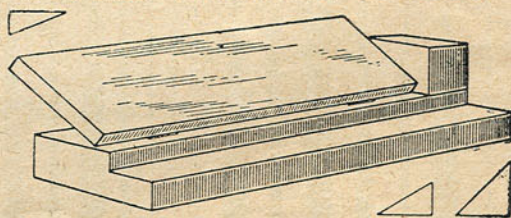

No. 1. Taking Mould- ings up to 2½ in.  
Price 12/6

No. 2. Taking Mould- ings up to 4½ in.  
Price 22/6

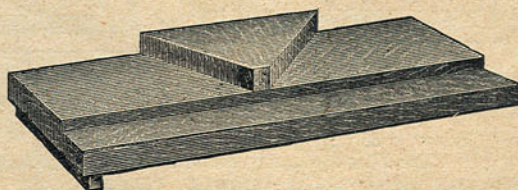

These Mitre Trimmers are sent Carriage Forward.

## WOODEN SHOOTING BOARDS.

FRET CUTTER'S SHOOTING BOARD,  
WITH ANGLE BLOCKS.

Price 2/- Post free 2/4

VERY SUPERIOR MITRE SHOOTING BOARD.

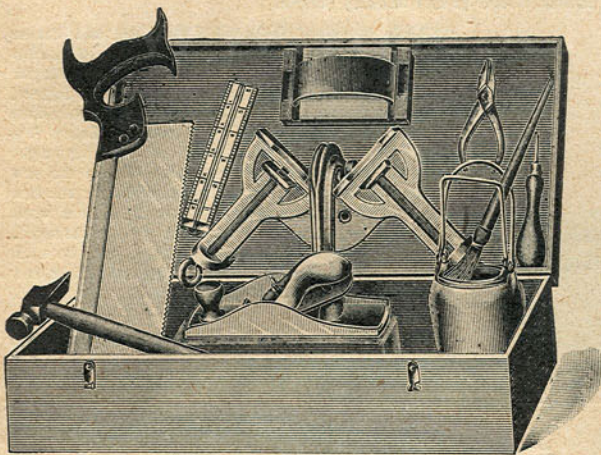

Size 18½ in. by 6 in.

Price 2/6 Post free 2/11

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# HOBBIES CELEBRATED PICTURE FRAMING TOOLS.

## PICTURE FRAME OUTFIT, NO. 1.

Price 7/6 Post free 8/3

Containing Hobbies Half-Crown Metal Guide Mitre Block; with Right and Left Angle Guides and Centre Guide. Hobbies No. 10 Special Plane, Hobbies 9 in. Tenon Saw, Hobbies No. 1 Corner Cramp, Hobbies 5 inch Sandpapering Block, Bradawl, Pair of Pliers and Nails. The whole packed in a large Wood Box.

## PICTURE FRAME OUTFIT, No. 2.

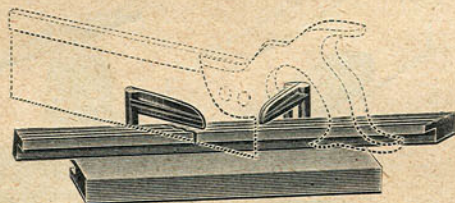

(AS ILLUSTRATED).

Price 12/6. By Rail, Carriage Forward.

Containing Hobbies Patent Combination Mitre Cutting Tool and Corner Cramp, Hobbies 12 in. Tenon Saw, Hobbies No. 10 Special Plane, Hobbies Glue Kettle with Glue and Brush, Exeter-head Hammer, Two Foot Folding Boxwood Rule, Hobbies 5 inch Sandpapering Block, Pair of Pliers, Bradawl and Nails. The whole packed in a large Wood Box.

## METAL GUIDE MITRE BLOCKS.

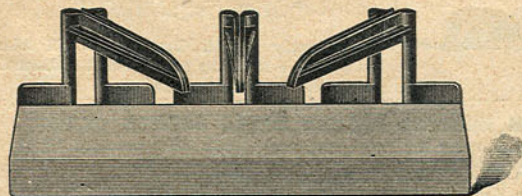

THESE Tools, which are intended for use in conjunction with a mitre shooting board or table, will be found to cut a more correct angle than the old-fashioned wood blocks frequently used, the saw cuts in the latter being too wide to accurately guide the saw.

Price 1/- Post free 1/4

## HOBBIES HALF-CROWN METAL GUIDE MITRE BLOCK.

Size 12 in. by 2 3/4 in., taking work 1 3/4 in. high, with Right and Left Angle Guides, and also Centre Guide for square cutting.

Price 2/6 Post free 2/10

## HOBBIES CORNER CRAMPS.

The Hobbies Corner Cramps are made of dull-nickelled Iron, fitted with Steel Screws, and accurately machined on three faces. They are thoroughly reliable Tools, which will prove of the greatest use for all kinds of Mitreing work, and Amateur Picture Frame Makers will find them simply invaluable.

Price 1/-  
Post free 1/4

No. 1. In dull-nickelled Iron, with Steel Screws, taking work up to 2 1/2 inches.

Amateurs will find this the only cheap Cramp on the market with an ABSOLUTELY TRUE ANGLE.

No. 2. An entirely new and powerful Corner Cramp. The Tool is of very superior make and finish, and will take work up to 4 inches.

Price 2/- Post free 2/5

## HOBBIES PATENT No. 1 MITRE CUTTING TOOL AND CRAMP.

For Cutting Mouldings and Mitreing Corners.

**T**HIS Combined Mitre Cutting Block and Corner Cramp will hold mouldings up to 4½ inches width. To the back of, the Cramp is hinged a central Saw Guide, adjusted to an angle of 45 degrees. It may be thrown right back, and will take a moulding of any height—limited only by the size of Tenon Saw used. The Guide is 7 inches long, and as it hinges right down on to the work, there is no possibility of the saw running to either side. Its length provides for the saw being guided the full length of the work, while a wood bed below prevents the teeth from getting damaged. When the Guide is thrown back, the Tool may be used as an ordinary corner Cramp for glueing and nailing, and by means of two counter-sunk holes it may be screwed to a bench.

Length Gauge, adjustable for making any size frame up to 2 ft. 6 in. square, for use in connection with the above Cramp. Price 9d., or 1/- post free.

## CRAMP PLATES FOR HOLLOW BACKED MOULDINGS.

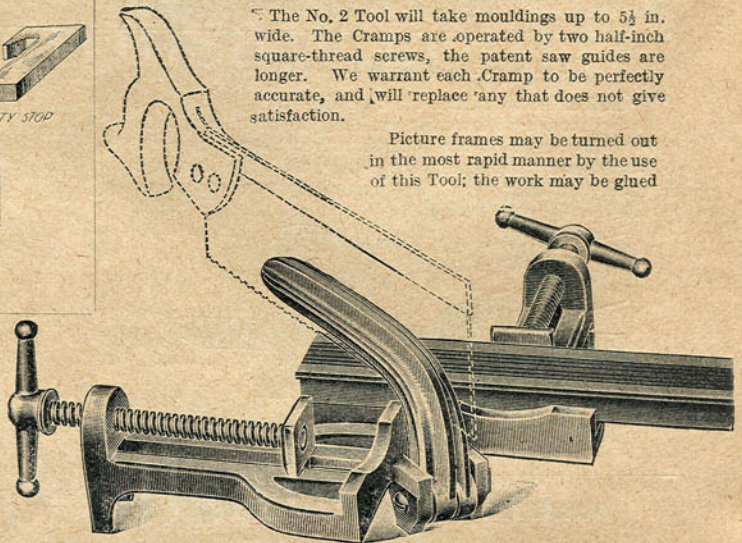

For cramping Spoon or hollow-backed moulding we provide iron plates to slip over the slides as per sketch.

## No. 2. MITRE-CUTTING TOOL & CRAMP

The No. 2 Tool will take mouldings up to 5½ in. wide. The Cramps are operated by two half-inch square-thread screws, the patent saw guides are longer. We warrant each Cramp to be perfectly accurate, and will replace any that does not give satisfaction.

Picture frames may be turned out in the most rapid manner by the use of this Tool; the work may be glued

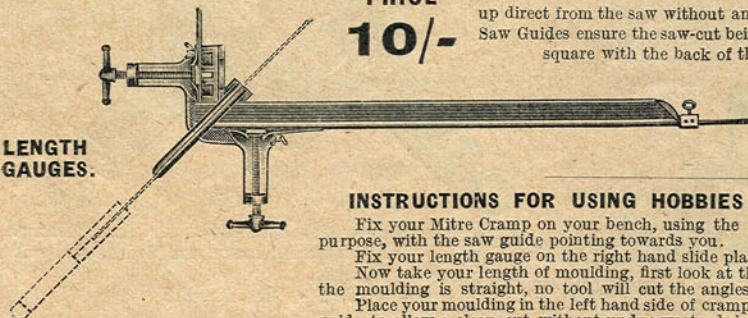

up direct from the saw without any shooting or pairing of the Mitres, as the patent Saw Guides ensure the saw-cut being exactly to the angle of 45 degrees, and perfectly square with the back of the moulding. Price 10/- Post free 10/9.

"Most Useful Tools."

We supply Length Gauges that will take work up to 4 feet long for the small additional charge of 1/- Carriage forward.

## LENGTH GAUGES.

## No. 2 PRICE 10/-

## INSTRUCTIONS FOR USING HOBBIES PATENT MITRE CORNER CRAMP.

Fix your Mitre Cramp on your bench, using the two countersunk screw holes provided for that purpose, with the saw guide pointing towards you.

Fix your length gauge on the right hand slide plate and screw it tightly.

Now take your length of moulding, first look at the rebate and see that this is straight, for unless the moulding is straight, no tool will cut the angles at either end to an inclusive 90 degrees.

Place your moulding in the left hand side of cramp with just sufficient wood projecting under the saw guide to allow a clean cut without undue waste, bring the saw guide down close to the work, then insert the saw, from the front end of the guide, keeping the teeth below the metal in order not to damage their set.

Now adjust length gauge for the long side of frame to be made.

Remove the Moulding from left hand cramp, place the point of fresh cut angle in the gauge and press it to the right in order to take up any side play; put your left thumb on the moulding and left forefinger under the cramp, raising the sliding plate to its maximum height whilst tightening the screw with the right hand; this will ensure the moulding being cramped flat on the bed of cramp.

Now insert your Saw again and cut off your first length. Repeat the process thus far and you will have two identical pieces for the two long sides of your frame.

Now adjust your length gauge for the short sides of your frame, and repeat the above directions twice, producing two more identical pieces. The corners may now be glued, cramped and nailed, without fear of the last corner being out.

The glueing and nailing may all be done in the same cramp, but as the glue quickly sets, and must not be disturbed until dry, it is very desirable to glue and cramp all four corners at once. We strongly recommend the Four-Corner Chain Cramp for this purpose; it is by far the cheapest and most effective cramp on the market; and it will give satisfaction.

Orders for Goods by Post should be addressed to HOBBIES LIMITED, Dereham, Norfolk.

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham, and Leeds, and of all Hobbies Authorised Agents.

# HOBBIES PICTURE FRAMING TOOLS—CONTINUED.

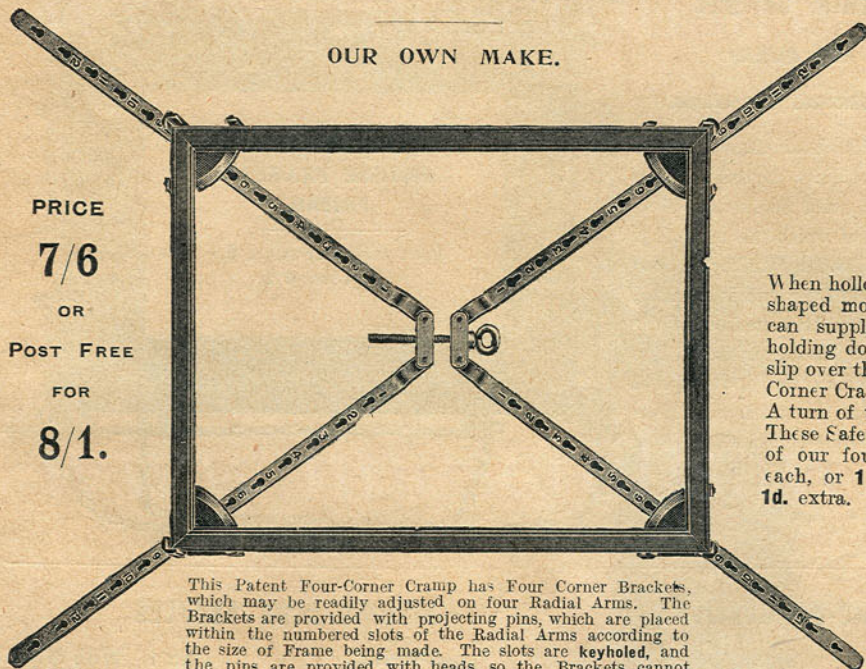

## HOBBIES PATENT FOUR-CORNER PICTURE-FRAME CRAMP.

OUR OWN MAKE.

SAFETY STOPS  
for use with  
HOLLOW-BACK  
MOULDINGS.

When hollow-back or other elaborately shaped mouldings are being treated, we can supply special Safety Stops for holding down the work. These simply slip over the central pillars of the Four Corner Cramps and rest on the Moulding. A turn of the screw secures them firmly. These Safety Stops are suitable for either of our four corner Cramps. Price 3d. each, or 1/- per set of four. Postage 1d. extra.

This Patent Four-Corner Cramp has Four Corner Brackets, which may be readily adjusted on four Radial Arms. The Brackets are provided with projecting pins, which are placed within the numbered slots of the Radial Arms according to the size of Frame being made. The slots are keyholed, and the pins are provided with heads so the Brackets cannot spring out of position when the screw is tightened. The Central Screw which operates the Cramp is double-pitched, which makes it very rapid in its action, as all four brackets are brought together simultaneously. This Cramp will take any size and shape of Frame from 7 in. by 5 in. to 38 in. by 26 in. For all gluing and nailing work it is simply indispensable. Price 7/6 Post free 8/1

# HOBBIES PICTURE FRAMING TOOLS—CONTINUED.

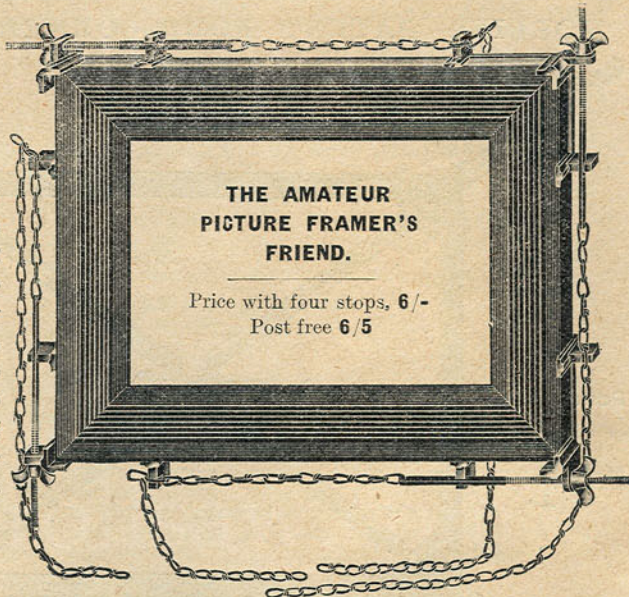

## FOUR-CORNER CHAIN CRAMP.

VERY EFFECTIVE AND CHEAP.

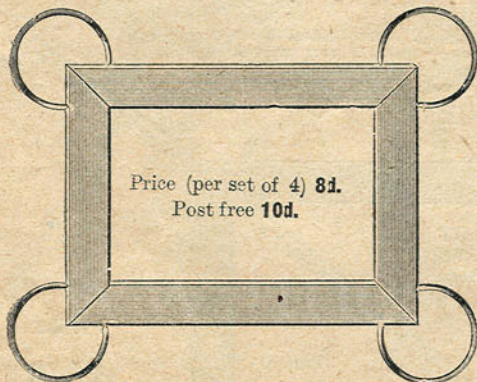

We can thoroughly recommend this Cramp.

The Tool is provided with Four Metal Corner Brackets, which hold the mouldings securely. Each Bracket has a Stretcher Rod (with Screw and Wing Nut) and a Chain, by means of which the mouldings are brought together. The advantage of having four separate Chains instead of one long one is obvious, as the necessary pressure may be exercised at the particular mitre where it is most required. The Cramps will take any intermediate size and shape of Frame up to 33 in. by 27 in. Complete with four stops for holding down mouldings. Price 6/- Post free 6/5

Price without stops 5 - Post free 5 5

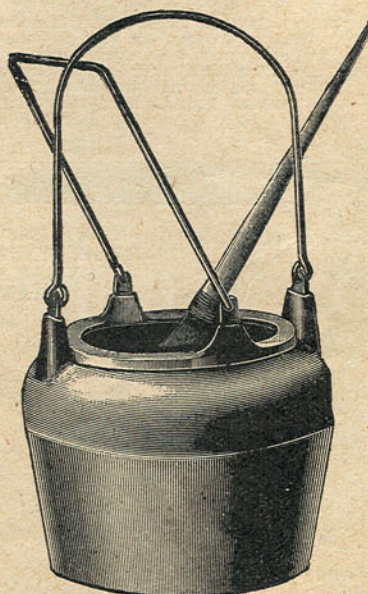

## G-SPRING GLUEING-UP CLAMPS.

These handy and inexpensive little tools have been used by our Workmen in our own Factory for many years. They are made from Steel Wire, and are nickel-plated and beautifully polished. After a corner of a picture has been glued up, a point of one of these Clamps is pressed into the side of the moulding about an inch from the corner. The Clamp is sprung open a little, and the second point inserted in the end a similar distance from the same corner. When all four mitres have been fixed, the frame may be set on one side with the Clamps in position until the glue is dry, when they may be removed.

Price (per set of 4) 8d. Post free 10d.

## HOBBIES GLUE KETTLES.

### No. 1.—With Brush.

These extremely useful Glue Kettles are made by a special process in our Work-shops. The Lugs to which the Handles are fixed are made of Steel, and cannot therefore be broken off. The Handles are so contrived that they will support each other, and they can be fixed so that neither will get unduly heated when the Kettle is on the fire. The Glue Kettles are supplied with a dull Nickel Finish.

No. 1. Price 1/-  
Post free 1/4

### No. 2.—Half-pint Glue Kettle.

A larger Glue Kettle similar to the above is supplied; this Kettle is 5½ inches in external diameter, and 4 inches high.

No. 2. Price 1/6 Post free 2/-

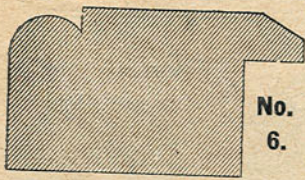

## GROUND GLUE FOR FRETWORK AND GENERAL USE.

Price 8d. per pound. Postage 4d. extra.

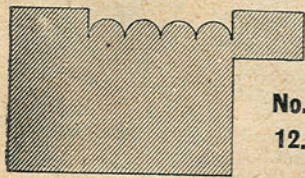

Orders for Goods by Post should be addressed to HOBBIES LIMITED, Dereham, Norfolk.

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

## HOBBIES BELT PIERCING MACHINE.

(BY ROYAL LETTERS PATENT.)

**Price**

**15s.**

The waste of time occasioned by the breakage of belts is often a serious item to users of Belt-driven Machinery, and it is almost impossible to estimate the loss sustained by the manufacturer with this constantly recurring source of trouble.

The only cheap and effective machine that will reduce this to a minimum is

### HOBBIES PATENT BELT PIERCING MACHINE.

The Special Advantages of this handy little machine are :-

**Its Portability**—It only weighs 9 lbs., and can therefore be used on the spot.

**Its Effectiveness**—With the aid of Hobbies Double Hook Belt Fasteners, the joint is made quite flexible and runs as smoothly as an endless belt.

**Its Simplicity**.—It may be operated by a lad and the repair can be completed in three or four minutes.

Hobbies Double Hook Fasteners.

Price of Machine only, 15/- Price of the Double Hook Belt Fasteners, 2/- per packet of 500.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

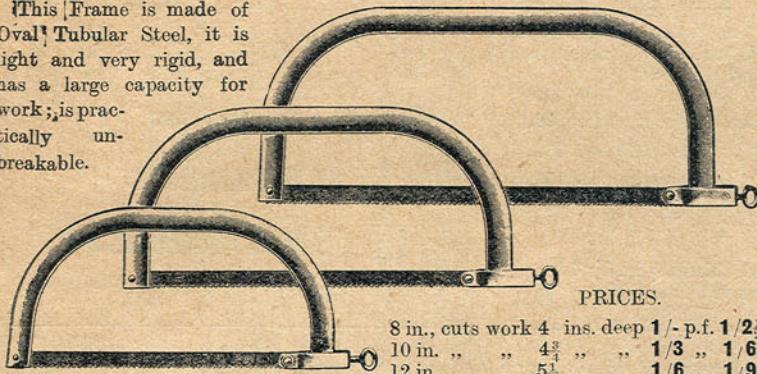

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# HACKSAW FRAMES & BLADES.

HOBBIES OWN MAKE  
WITH  
TUBULAR FRAMES.

## ALL STEEL TUBULAR FRAME.

This Frame is made of Oval Tubular Steel, it is light and very rigid, and has a large capacity for work; is practically unbreakable.

### PRICES.

8 in., cuts work 4 ins. deep	1/- p.f.	1/2
10 in. .. ..	4 <sup>3</sup> / <sub>4</sub> .. ..	1/3 .. 1/6
12 in. .. ..	5 <sup>1</sup> / <sub>8</sub> .. ..	1/6 .. 1/9

## HOBBIES 6 in. ADJUSTABLE HACKSAW FRAME.

This Frame is made from polished steel and fitted with a well-shaped handle. The Adjustment for tightening or releasing the Saw is novel, and may be quickly operated. No Workshop should be considered completely equipped without a Saw for cutting metal.

Price 1/- or post free 1/2

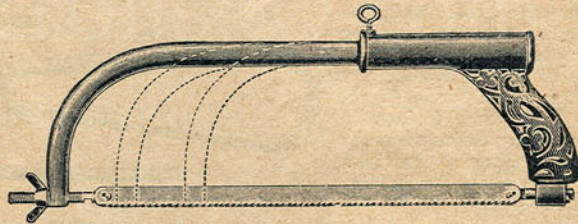

## ADJUSTABLE HACKSAW FRAME.

This Hacksaw has an all Metal Handle, with Adjustable Tubular Steel Frame, and Adjustable Cramps by which the Saw may be set at right angles to the Frame when required.

It is a distinctly novel Tool, strong, rigid, and beautifully finished. The Tubular Frame forms a receptacle in which reserve Saw Blades may be carried.

Takes Saws 8 in. to 12 in.

PRICE: Nickel-plated and Polished 3/- Post free 3/3

HOBBIES HACKSAW BLADES are as good as Hobbies famous Fretsaws.

## CALIPERS AND DIVIDERS.

These Tools are made from Steel throughout, are well finished, and have carefully hardened and tempered points.

They will be found very convenient to use, the adjustment is positive and may be easily and quickly made.

Price 1/- each. Post free 1/11

## HOBBIES BAR COMPASSES OR TRAMMELS.

The Bar and Points of this useful tool are made from Steel, Nickel Plated and Polished.

The points are carefully hardened and tempered, and may be used for marking on metal, for which purpose the Caliper points will be found particularly useful. An ordinary black lead pencil is provided to take the place of one of the points when drawing, and a Pen with both screw and instantaneous adjustment is provided for inking in drawings. Price 6/6. Post free 6/9.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# ENGINEER'S TOOLS, COLD CHISELS, STOCKS, & DIES.

## HOBBIES COLD CHISELS.

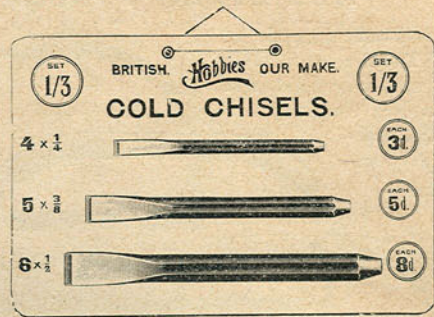

These Chisels are made from a specially selected quality of cast steel, forged under a power hammer, in our own Workshop, and carefully hardened and tempered.

## HOBBIES IMPROVED STOCK AND DIE OUTFITS.

This useful article consists of a Steel Stock, the handles forming a spring for opening the dies, which are of hardened steel, and which will cut screws  $\frac{1}{8}$  inch,  $\frac{3}{16}$  inch, and  $\frac{1}{4}$  inch in diameter. Adjustment by Thumb Screw. Provision is also made for holding Taps.

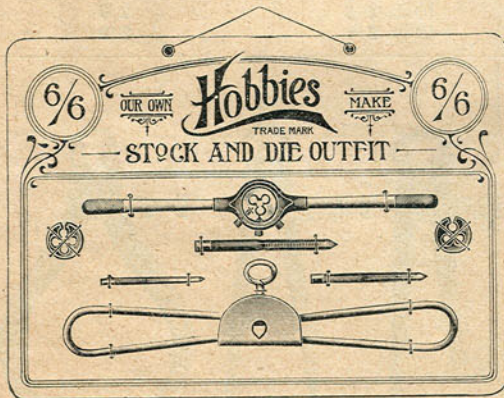

Price, in Neat Metal Case, with Three Taps and Three Pairs of Dies ( $\frac{1}{8}$  in.,  $\frac{3}{16}$  in., and  $\frac{1}{4}$  in.), 2/9 Post free 3/-

## 6/6 STOCK AND DIE OUTFIT.

This Outfit supplies the demand for a good Button Die Set at a reasonable price.

The Die Holder and Tap Wrench are made from Mild Steel, Nickel Plated and Polished. The adjustment of the Dies may be secured by manipulating the three screws, tightening the centre screw opens the Die, if the two outer screws have been loosened. To close the Die slacken the centre screw and tighten the two outer screws. The Dies and Taps are made from a special quality of Cast Steel and are carefully hardened and tempered.

Price 6/6, post free 6/9.

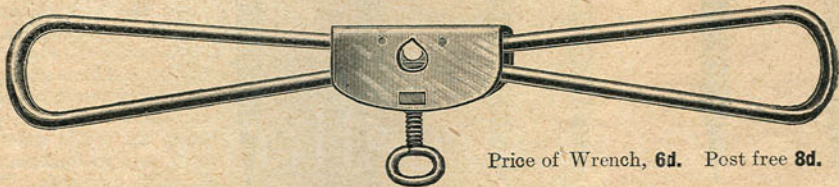

## TAPS FOR HOBBIES PATENT SPRING STOCKS.

Sizes:  $\frac{1}{8}$  inch,  $\frac{3}{16}$  inch, and  $\frac{1}{4}$  inch.

These Taps are made of the finest Steel, carefully hardened, and accurately machined. They are fluted by the best Modern Machinery, and the ends squared to take a Tap Wrench. Price 6d. each. Post free 7d.

## TAP WRENCH.

This Tap Wrench is of Steel, with spring handles, similar to the above patent stock, and is arranged to hold any size of Tap and Reamer, from  $\frac{1}{8}$  inch to  $\frac{1}{4}$  inch diameter.

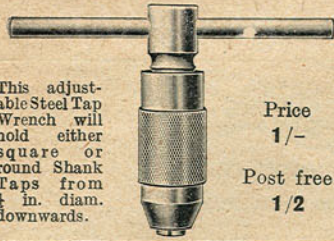

Price of Wrench, 6d. Post free 8d.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# SOLDERING OUTFITS & IRONS.

HOBBIES OWN  
MANUFACTURE.

## HOBBIES OUTFITS.

These Soldering Outfits will enable any person who follows the instructions which are enclosed to execute the frequent little repairs for which a Tinsmith has ordinarily to be called in.

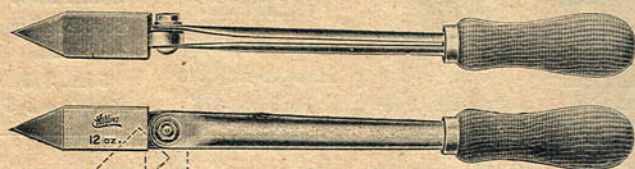

OUTFIT No. 1 includes:—A Soldering Iron with a properly tinned 2 oz. Copper Bit, Solder, Sal Ammoniac, Resin and instructions.

Price 1/- or post free for 1/3

OUTFIT No. 2 (as illustrated at side), includes:—Hobbies Special Soldering Iron with 3 oz. Copper Bit, 6 Bars of Solder, Pair of Pliers, Sal Ammoniac, Resin and instructions, in serviceable Metal Box. Price 2/- or post free for 2/5

Extra Bars of specially prepared Solder, 5 in. long, may be had price 1d. each (postage 1d. extra); or 1/- per dozen Bars, post free.

## HOBBIES ADJUSTABLE SOLDERING IRONS.

These Irons are made in four sizes, and have heads that may be set at any angle. The wooden handles are large, affording a good grip, very necessary when handling a heavy bit.

The Holder is made in two sections of thin steel so shaped as to afford ample strength with the minimum of weight. The circulation of air through the slots provided on either side, effectually prevents the holder from becoming too hot,

This Accessory is invaluable for making-up and for general Sheet-metal Shaping Work. One arm is tapered for taking loose heads as illustrated. All three Arms may thus be used as required for various shaping.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

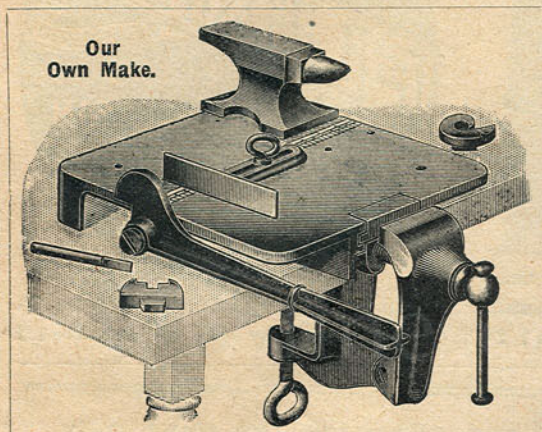

# BENT IRON WORK OUTFITS.

SOME UNIQUE  
APPLIANCES.

## HOBBIES PATENT COMBINATION TOOL AND TABLE.

**T**HIS remarkably ingenious Table combines in itself practically all the Tools required for Bent Iron Work. It includes a useful Metal Table, Shear and Length Gauge for cutting the Iron, Vice, Anvil, Die and Punch for forming Collar Bands, and Metal Bending Block for forming Curves and Scrolls. Everyone who does Bent Iron Work will find this Combined Tool simply invaluable. It simplifies the work, and greatly economises both time and labour.

The Hobbies Combination Tool and Table is made of Dull Nickelled Iron with a Nickel-plated and Polished Table. The **Shear** is strong and easily worked, and does not hurt the hand like the ordinary Shears, which are generally used. The **Gauge**, which is Six inches long, divided into eighths of an inch, is fitted with a slide, which enables it to be set to any length. It is specially useful when a number of pieces of the same length have to be cut. The **Vice**, which has 1½ inch jaws, is a combination Vice and a Clamp for fixing the Iron Table to a bench.

The **Iron Table** may, by means of the Clamp supplied, be firmly fixed to a Dining Room or Drawing Room Table without the least risk of damaging the wood. All the Tools are adjustable, and several of them can, if desired, be fastened to the table at the same time.

The Anvil is the Hobbies Shilling Bench Anvil. The **Die** and **Punch** provide a quick and easy means of forming the Collar Bands.

The **Bending Block** is of special service when many similar curves have to be made. By means of the Gauge and Shear

numerous strips of Ribbon Iron may be cut off to the exact length, and all turned to a uniform Curve on the Block.

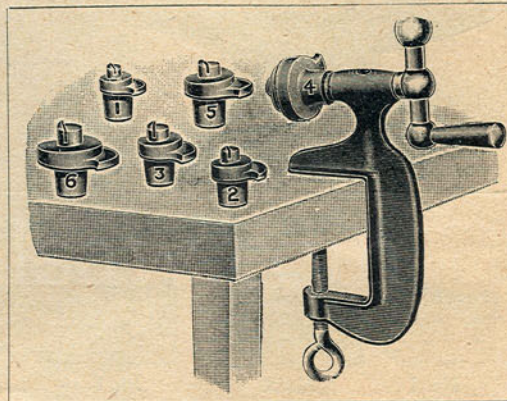

Price 3/6 Post free 3/11; or with Anvil and Collar Band Die 5/- Post free 5/5

## HOBBIES SCROLL BENDER.

Our Own Make.

For those Amateurs who find a delight in beautiful Scroll Work (known as Bent Iron) we have contrived a Tool which should relieve them of much monotony. This is a Scroll Bending device, with interchangeable Scroll Blocks. Clamped on to a Bench or Table the Flat Wire or Ribbon Iron is inserted in a slot, then by simply turning the Handle, conical Scrolls of various sizes may be formed, which only require flattening by a pressure of the thumb.

Price 2/6 Post free 2/10

**HAND BLOW LAMP,** with Rubber Tube and Mouthpiece. This Hand Lamp, which has been specially designed for Repoussé Workers, stands on its own base when being filled, and permits of both hands being left free when at work. It is used for softening the copper sheet by annealing, for melting cement, and for detaching the work when completed.

Price 2/6 Post free 2/11

**HAND LAMP.**

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# JIG-SAW PUZZLES & OUTFITS.

**HOBBIES  
SPECIAL.**

Specimen of Set No. 1.

ANY careful Fretworker can make a Jig-Saw Puzzle, but the class of sections desired vary so much, that most of our customers prefer to cut their own, and make the Puzzle easy or difficult, to suit the taste of the friend who is to become the ultimate owner.

The amateur's difficulties are first to find suitable pictures to cut, and secondly to secure a box that the puzzle will fit when assembled together.

To meet these difficulties, Hobbies Ltd. are now supplying all these necessities.

Strong Flat Boxes, with wood and pictures to fit, ready for cutting:

Example of a Finished Puzzle.

## ARTISTIC COLOURED PICTURES FOR PUZZLES.

1. Heads of Beautiful Women, 10 in. by 8 in., **2d.**
2. Panel Pictures of Dutch Peasants, 13½ in. by 6 in., **2d.**
3. Landscape and Rural Life, 12 in. by 10 in., **4d.**
4. Hunting Scene, 13½ in. by 8½ in., **3d.**

These pictures have been selected with much care, and are brilliant in colouring, and exactly the style of illustration required for the purpose of Puzzle-making.

Specimen of Set No. 2.

# CLOISONNE PAINTING OUTFITS.

A CHARMING  
HOBBY.

**C**LOISONNE is a Hobby which may be indulged in by all. It is capable of securing to the worker really beautiful and artistic results. It consists of picking out a pattern already on the Cloisonne ware, with rich colours, giving striking effects. Cloisonne as a Hobby is not spoilt by being overdone; and those taking it up know that they are working at a Hobby which will be fresh to most of their friends. The Enamel Colours we supply for Cloisonne Painting are of the finest quality, and when dry they give a surface which, in point of brilliance and effect, can only be surpassed by genuine Enamel Work.

# HOBBIES POKERWORK OUTFITS.

A FASCINATING HOBBY.

**I**N the [Poker] Work Outfits we supply, the Platinum Points can be kept evenly heated, the work produced being in consequence of a far higher standard than was before possible.

## No. 1 OUTFIT.

11/3

Post free

11/7

THIS Outfit includes all that is necessary for a beginner, and the tools and materials are of very good quality. The Outfit is contained in a serviceable Box, covered with black leatherette, and the accessories supplied are: Nickelled Spirit Lamp, Glass Bottle with Stopper, Connection Cork, Black Rubber Bellows, with Tubing, Cork Handle, and Platinum Point, in Neat Nickelled Case. Instructions are also sent.

## No. 2 OUTFIT.

Price

16/6

Post free

16/10

THE No. 2 Outfit has been prepared for those who wish to go in for the more advanced stages of Poker Work. The Outfit includes very superior Black Rubber Bellows with Tubing to match in Metal Box, Connection Cork, Handsome Nickelled Spirit Lamp, Stopped Glass Bottle, Co. Handle, Superior Platinum Point in Nickelled Case, Instructions, etc. The whole is contained in a strong Cloth-covered Wood Box, with Fall Front and Clasp.

## No. 3 OUTFIT.

THIS is altogether a very Superior Outfit, suitable for those who desire to undertake the finest work.

All the materials are of the best quality, and the Outfit is supplied with a No. 1 Platinum Point.

With this Outfit the Benzoline, which is required to keep the Platinum Point red-hot, is utilised also for heating the Point at first, thereby dispensing with the

Spirit Lamp. The flame is blue and perfectly smokeless. By turning the Vulcanite Disc to certain marks, the Benzoline Gas supplies the Lamp, or it may be directed by a little turn into the heated Point, keeping this red-hot. By another little turn all escape from the bottle is shut off, and this can now be safely packed away.

Price 21/- Post free 21/4

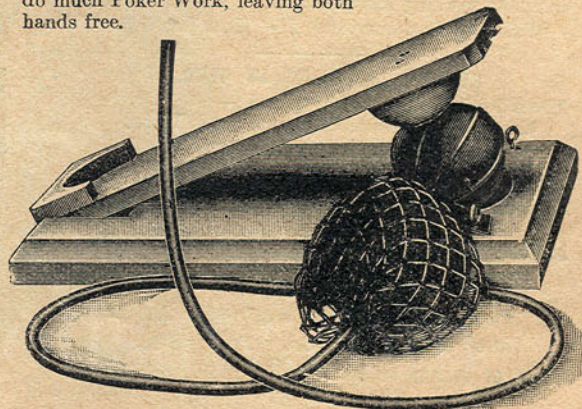

## HAND RUBBER BELLOWES.

Black, with extra Tubing. Price 2/3 each.  
Post free 2/5

## FOOT BELLOWES.

Improved pattern, as illustrated. Price 6/6 complete.  
Post free 6/10

Recent improvements have been made in these Bellows, and they will now be found a useful help to those who do much Poker Work, leaving both hands free.

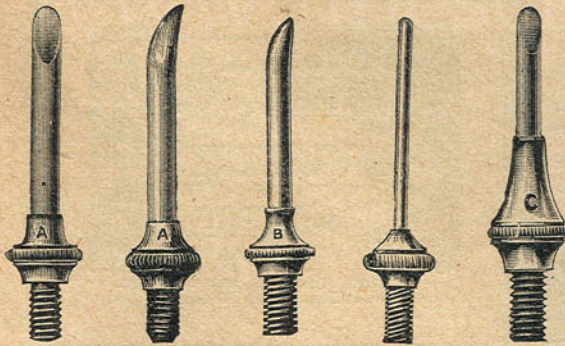

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham, and Leeds, and of all Hobbies Authorised Agents.

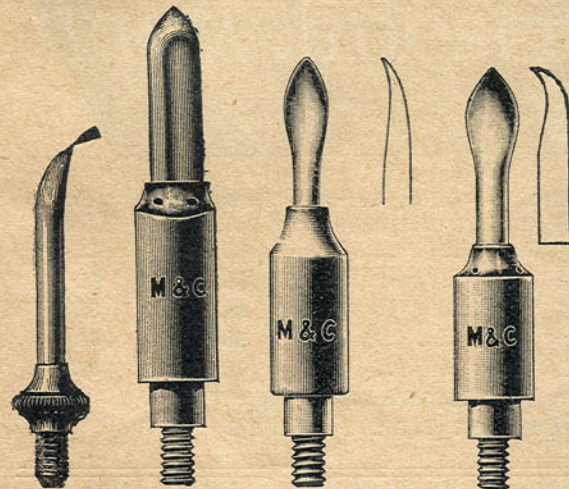

# POKERWORK—The Art of Burning Designs on to Wood by means of a red hot point.

## PLATINUM POKER POINTS.

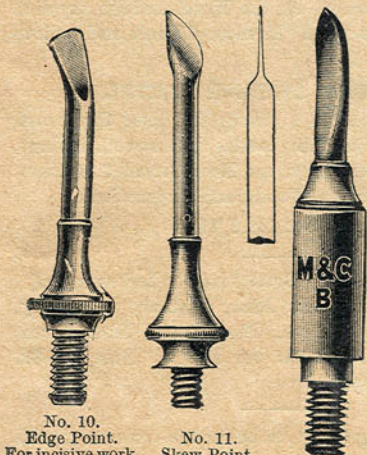

Illustrated full size. Will all fit the same handle.

No. 1. Flat. Best quality. 9/3  
 No. 2. Horn shape. Best quality. 9/3  
 No. 3. Horn shape. Small. 7/-  
 No. 4. Extra fine. 8/6  
 No. 5. Flat. 5/-

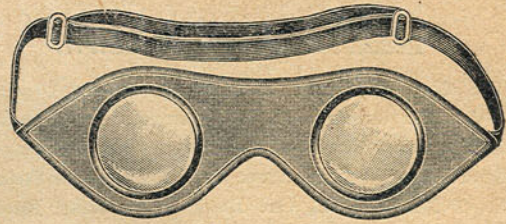

\*No. 6. Shading. 9/3  
 No. 7. Knife Point. 19/6  
 No. 8. Modelling, Small. 13/6  
 No. 9. Modelling, Large. 19/6

No. 10. Edge Point. For incisive work and burning out backgrounds. 11/-  
 No. 11. Skew Point. For outlining in relief. 11/-  
 No. 12. Bent Knife. 15/6

\*The Shading Point (No. 6) is so constructed that it blows hot Benzoline Gas upon the work, and produces light or dark shades according to the slow or rapid pressure of the Bellows. The Point should not touch the wood.

## POKER WORK SPECTACLES.

Made of Plain Glass, and to fit closely over the eyes, so as to protect them from the smoke of the pokered material.  
 Price (black leather), 6d. Post free 7d.  
 Ditto (Selvvt Velveteen), 1/- Post free 1/1

STEEL WIRE BRUSH. (9 inch), 7d. each. p. f. 81.

## CORK HANDLES.

No. 1.—With Regulating Tap.

By turning the Tap the Benzoline can be regulated to admit of the point being kept at a constant dull heat which is useful for shading and fine work. In using it the Bellows only require to be pressed at intervals.

Price 1/- each.  
 Post free 1/1

No. 2.—Cork Handle with Patent smoke diffuser.

Price 1/- each.  
 Post free 1/1

## CONNECTION CORKS.

No. 1.

Price 6d. each.  
 Post free 7d.

No. 2.

## STEEL WIRE SCRAPER.

For brushing off burnt wood, 1/-  
 Post free 1/1

## SPIRIT LAMP.

(Nickel Plated.)

To fit the Hobbies Poker Work Outfits.

Price 9d. each.  
 Post free 10d. each.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

# MARQUETERIE AND INLAY STAINING OUTFITS.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

(Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.)

# POLISH, GLAZE, VARNISH, STAINS.

# HOBBIES SPECIAL.

## LIGHTNING POLISH OUTFIT.

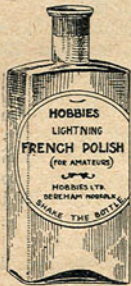

To amateurs who experience great difficulty in polishing we have no hesitation in recommending our Lightning Wood Polish. This is a preparation in many ways like the ordinary French Polish, but which is much easier to

manipulate. Very little practice is required to obtain good results, and the ultimate finish is in no way inferior to the professional medium which tries the patience of so many earnest amateurs.

**A Complete Outfit**, which includes a bottle of the specially prepared Polish, Oil, Spirit, Sand Paper, Polishing Rubber, etc., with full instructions, in a Strong Red Case, may be had for 1/6, or post free for 1/9

## SUPERIOR FRETWORK POLISH.

Suitable also for General Purposes. This polish is specially prepared for the use of amateurs, and is now used by them in large quantities.

**Hobbies Lightning Polish,**  
Per 6 oz. Bottle 7d.  
Postage 2d. extra.

## SPECIAL POLISH.

### Small Size.

# HOBBIES STEAM ENGINES.

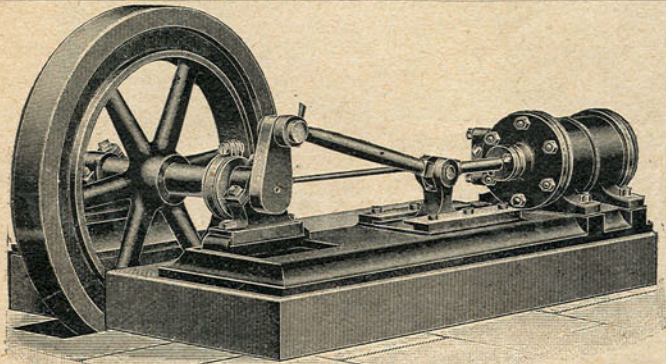

## COMPLETE SETS OF PARTS.

### HORIZONTAL ENGINE. CLASS A.

**T**HIS Engine is made on the Bottom Slide (or Slipper) Design. **Each Set of Castings is complete in 22 parts**, the bearings being on the bush principle, and it having been arranged to take the least possible amount of fitting up, it will be found extremely easy for any amateur to make a strong, simple and serviceable Engine from a set of these Castings.

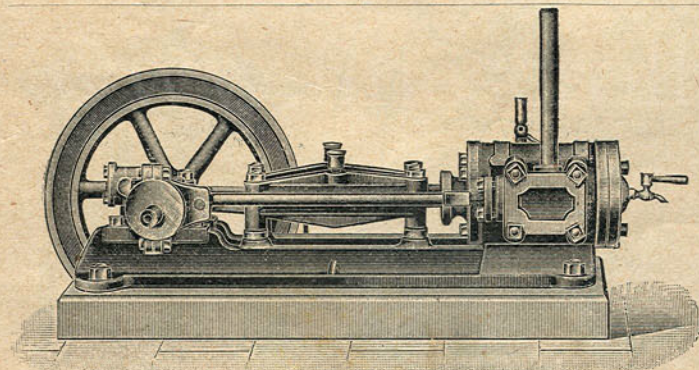

### HORIZONTAL ENGINE. CLASS A.

No.	Bore of Cylinder.	Length of Stroke.	Price of Castings.	Price of Castings for Double Engine.
1	1½-in.	2-in.	5/6	10/6
2	2¼-in.	3½-in.	11/-	21/-

### HORIZONTAL ENGINE. CLASS B.

No.	Bore of Cylinder.	Length of Stroke.	Price of Castings.	Price of Castings for Double Engine.
1	1½-in.	2-in.	6/6	12/-
2	2¼-in.	3½-in.	12/6	24/-
3	2½-in.	4-in.	19/-	36/-
4	3-in.	5-in.	30/-	56/-

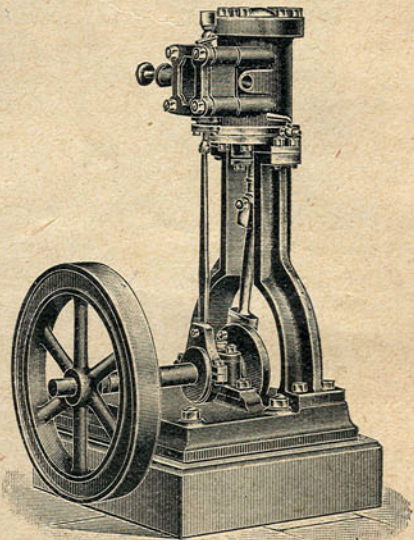

The above Engine has been newly designed, is very substantially made, comprising many improvements, the result of experience. It is of the Side Slide or Parallel Guide Bar principle. **The set of Castings is complete in 29 parts.** The bed-plate is self-contained, and to those wishing to make a really ornamental Engine, this will be found the cheapest in the market.

### VERTICAL ENGINE. CLASS C.

This Engine is designed on what is known as the Inverted or Cylinder Overhead Type, and requires but very little ground space to stand on. The fly wheel and all weight being on the bottom, it may be run at a very high speed, with perfect freedom from vibration, and is the most compact form of Engine made. Very suitable for driving Dynamos, or anything requiring high speed. **Each Set of Castings comprises 27 parts**, and is made in three sizes.

### LAUNCH ENGINE. CLASS D.

This Engine has been designed to meet a long-felt want. The simplicity of construction, and extreme compactness, permit of this Engine being placed where steam power has hitherto been inapplicable, and will be found to meet every requirement it is intended for. **Each Set of Castings is complete in 30 parts** (including reversing gear), and will give every satisfaction.

### VERTICAL ENGINE. CLASS C.

No.	Bore of Cylinder.	Length of Stroke.	Price of Castings.	Price of Castings for Double Engine.	Feed Pump Castings.
1	1½-in.	2-in.	6/-	11/6	—
2	2¼-in.	3½-in.	12/6	24/-	2/-
3	3-in.	4-in.	28/-	52/-	3/6

### LAUNCH ENGINE. CLASS D.

No.	Bore of Cylinder.	Length of Stroke.	Price of Castings.	Price of Castings for Double Engine.	Feed Pump Castings.
1	1½-in.	2-in.	6/6	12/-	—
2	2¼-in.	3½-in.	13/-	25/-	2/-

# SCOUTS' SUNDRIES.

HOBBIES OWN  
MANUFACTURE.

## COMBINED SCOUTS' POLE AND SAW.

Showing the Saw Open and Closed.

**T**HIS Pole, which was designed to meet a long-felt need among Scouts, has been approved by Headquarters, and is supplied in two lengths: 5 ft. and 5 ft. 6 in., of strong selected ash, with feet and inches accurately marked on each.

The Saw, which is manufactured of best quality steel, lies securely in a bed grooved in the pole, and is brought into position for sawing by giving the pole a smart tap on the ground, the pole being held at the slope with the groove on the under side. This causes the saw to spring out of the groove and by moving the tension lever to an upright position in the groove the saw is secured perfectly taut and rigid.

The Saw is hinged at one end in the pole and at the other end to sliding steel support links which are hinged at the other end to the pole also. The tension lever is hinged to both saw and support in the centre, and by drawing the lever forward the saw is brought into position.

The Saw is closed by folding the lever on to the back of the saw, which will then, with slight pressure, easily slip into the groove.

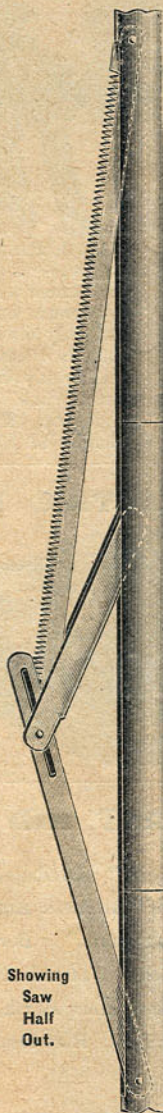

### PRICES.

Concealed (as illustrated) .. ..	2/6
Official, 5 ft. Pole .. ..	2/8
,, 5 ft. 6 in. Pole .. ..	2/9

In the "Official" type the saw can be removed from the pole and slung from the belt.

A "DOUBLE  
EVENT"  
NOVELTY.

## HOBBIES SCOUTS' TRACKING IRONS.

No Straps required

The operation of fixing the Iron to the Heel is quickly and easily accomplished. There are four thumb-screws with pointed ends which, after the Iron has been placed on the heel, are screwed into the leather and hold the Iron firmly.

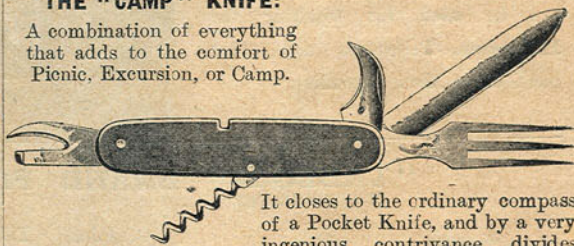

Price 1/6 per pair.  
Postage 4d.

## HOBBIES "STEELISED" COMBINED SCOUT'S AXE AND HAMMER.

This is an improvement on existing patterns, being constructed on Hobbies well-known principle which makes the head and handle practically one piece. The Blade of the Axe is "Steelized" by Hobbies Patent Process and has excellent cutting qualities. The Open Handle enables it to be slung from the Belt when marching. Price 1/- Post free 1/4

## THE "CAMP" KNIFE.

A combination of everything that adds to the comfort of Picnic, Excursion, or Camp.

It closes to the ordinary compass of a Pocket Knife, and by a very ingenious contrivance divides into two sections, allowing separate use of Knife and Fork. Contains Knife, Fork, Tin Opener, Corkscrew, and Hook. Indispensable to Boy Scouts. Price 1/- Post free 1/1

## OFFICIAL PATTERN SCOUTS' KNIVES.

Stag Handle with Ring for attaching to Belt, Special Tool for Splicing Ropes, Sheffield Steel Blade, very strong and fully warranted. Price 1/- Post free 1/1

Orders for Goods by Post should be addressed to HOBBIES LIMITED, Dereham, Norfolk.

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

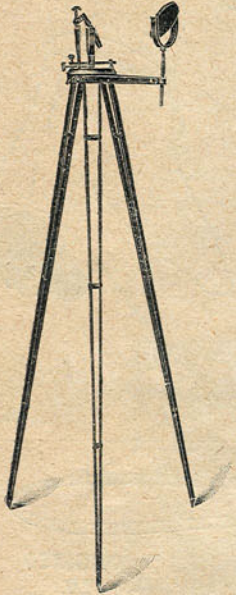

## SCOUTS' SUNDRIES.

## HOBBIES HELIOGRAPH.

### HOBBIES HELIOGRAPH.

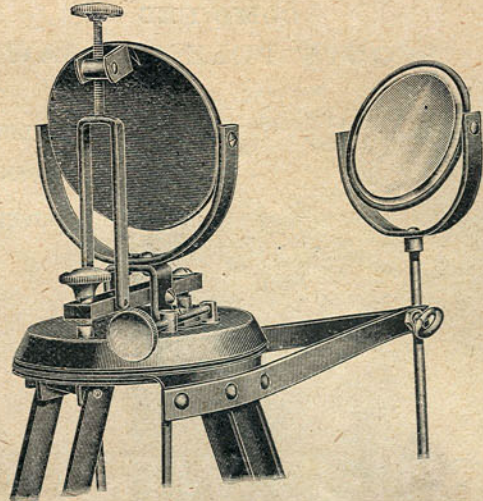

PRICE 21/- COMPLETE.

WITH the placing of this Heliograph on the Market, the art of signalling by sun reflection is brought within the reach of every Scout Troop. The price of this instrument is only one-fifth that of any other Heliograph. It is thoroughly efficient and reliable, and all Scouts should call the attention of the masters of their respective troops to its low price.

Hobbies Heliograph is packed in a well-made wooden carrying case with leather handle, and is easily portable. The Tripod can be slung over the back or carried in the hand when marching.

### ENLARGED DETAIL OF TOP.

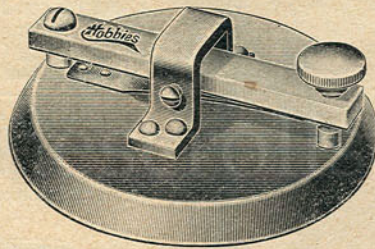

W. J. BELDERSON, Scoutmaster, 1st Terrington Troop, writes:—"I consider the Heliograph a wonderfully good instrument which is likely to prove not only interesting to my Scouts, but most useful for really good work. I shall certainly show it to any other Scoutmasters with whom I come in contact."

A handy little booklet has been prepared giving full instructions for Heliographing, including the Morse Alphabet. The price of this is One Penny, but to Scouts sending 1d. Stamp for postage we will send one FREE.

### HOBBIES PRACTICE KEY.

Specially designed by Hobbies Expert for use in connection with Scouts' Signalling Detachments. It can be used for teaching the Heliograph, Telegraph, and other methods of Morse signalling.

"SCOUTMASTER" says:—"It is the best Morse key I have seen for some time, and is better than some I have seen at three or four times the price."

Price 1/6 each. Post free 1/8

### "TABLOID" BRAND FIRST AID FOR SCOUTS.

(TRADE MARK)

No. 709. The Ideal Outfit, for use in case of accident in field or camp.

Contains "Tabloid" Bandages and Dressings, "Vaporole" Aromatic Ammonia for use as "Smelling Salts," "Borofax," Carron Oil (solidified), Jaconet Plaster, Protective Skin, Camel Hair Brush, Pins, etc. In Rex Red or Royal Blue Enamelled Metal Cases, 5/-

Belt or Cycle Attachment (as illustrated) 6d. extra.

### THE OUTFIT CLOSED.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

**HOBBIES STEELISED PLOUGHSHARES.**

**BY ROYAL LETTERS PATENT.**

After long and expensive experiments we have discovered a process which we have termed "Steelised," by means of which we have been enabled to place upon the market a Ploughshare, which for cutting quality and durability is hard to beat.

We can supply types and shapes to fit almost any standard make of Plough. They have been exhaustively and thoroughly tested under every possible condition by agricultural experts.

**Here are a Few Extracts from their Reports :**

**Congratulations.**

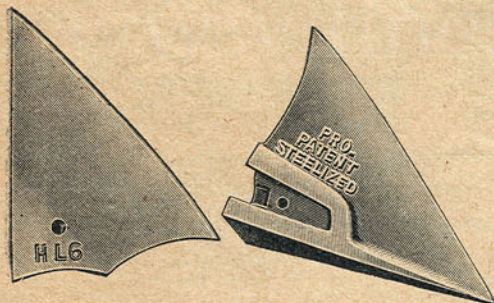

Albert Warner, Esq., Beeston, writes :—

Allow me to congratulate you on the success of your patent "Steelised" Ploughshares. The No. 42 Share supplied me has done noble work. It has worn fully twice, if not three times, as long as those I have previously used.

**Will-wipe everything else out.**

Wm. A. Bush, Esq., Cawston, writes :—

I may say that I sell a great many ordinary Shares, but it looks as if your production will wipe everything else out in a short time.

One Share Ploughs 26 Acres.

W. Knight, Esq., Wintringham Hall, St. Neots, writes :—

I have this day forwarded a Share for your inspection. It has ploughed 26 acres. The trial was made on whole ground, and I consider it did very well indeed.

**Compliments on "Durability."**

Geo. D. Sculpher, Esq., Hall Farm, Hardingham, writes :—

I am writing to compliment you on the Shares you sent me. I have been using them beside other makes, and consider that for wear, durability and cheapness, they are unsurpassed.

**Orders for Goods by Post should be addressed to HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham, and Leeds, and of all Hobbies Authorised Agents.

# FITTINGS FOR HOBBIES DESIGNS.

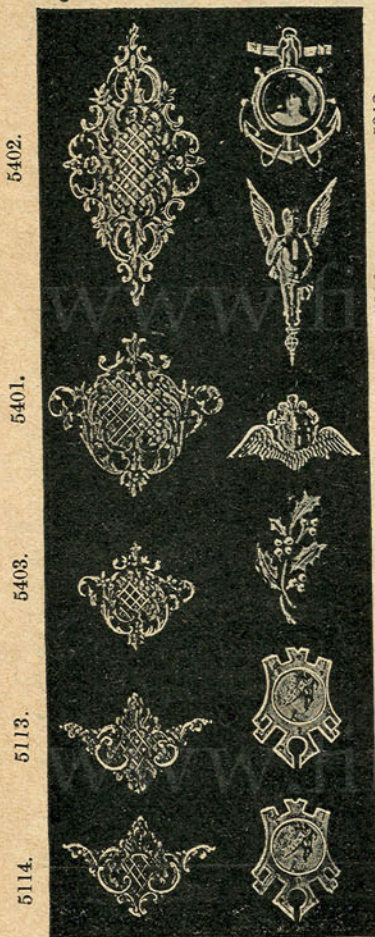

# METAL ORNAMENTS.

THE ILLUSTRATIONS ARE REPRODUCED ABOUT ONE-THIRD FULL SIZE.

FOR many of the **Hobbies Copyright Patterns** we have had specially designed and manufactured exceedingly handsome Gilt, Silvered, and Coloured Metal Overlay Ornaments, which enrich the effect, and add greatly to the beauty and value of finished Fretwork articles. These Ornaments are made in the finest sheet metal, and are stamped from costly dies. They are thus beautifully modelled, and, although light in weight, they have a rich, solid appearance when mounted in position.

# PLASTICINE, JAP VASES, ETC.

## THE "BUILDER"

Is the newest Box, and will prove one of the most popular—it embodies a new idea.

It makes model building a real and satisfying Art, because it is true to nature, and proceeds upon the principles of sound construction; the model when finished is practically permanent.

The Box is complete in itself with all accessories, including the brick maker.

Price 5/- Post free 5/6

## COMPLETE OUTFITS FOR HOME MODELLING.

PLASTICINE in 5 Beautiful Colours—Clean to Use, Safe to Handle—Ever Plastic without Water.

**The Designer Box**, for Art Amateurs. Price 3/- Post free 3/4

**Complete Modeller**, the Popular Box. Price 2/6 Post free 2/10

**Child's Delight** (5 Colours), or **Universal** (1 Colour). Price 1/- Post free 1/3

The New **Gem Sample Box**, in any Colour. Price 3d. Post free 4d. Also the

**LITTLE HOUSEKEEPER Box**. A delightful Box for the Youngsters on a wet day. Ask for particulars. Price 2/-

FULL INSTRUCTIONS IN EVERY BOX.

## USEFUL & ATTRACTIVE ORNAMENTS FOR FRETWORK BRACKETS, Etc.

Japanese Awaji Vases, about 2½ ins. high, and in assorted Shapes and Tints.

Three for 6d. assorted shapes; post free 8d., or 1/9 per dozen; post free 2/-

(Boxes of 30, native packed, may be had for 4/6; or post free for 5/-).

The above are sent assorted.

We have a very fine collection of China Vases, Jugs, Jars, Bottles, etc., of graceful and characteristic forms, and eminently suitable for Fretwork Brackets and Cabinets. These are miniature reproductions of Antique, Oriental and

Modern Ornaments, and are beautifully modelled in china. In size these dainty articles vary from ¾ inch to 2½ inches. They are without exception the neatest ornaments of this class, and at Bazaars or Sales of Work the Set of Eighteen would readily bring in more than double the amount paid for them.

Price 1/6 per Set; or post free 1/8 per Set.

## LARGE COPPER OVERLAYS.

**BRASS CANDLESTICK TOP.**

Price 1/- Post free 1/2

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

OFFICES :

TEMPLE HOUSE,  
TEMPLE AVENUE, E.C.

### How the Society is Constituted.

There are four ranks of Members, (A.) Associate, (B.) Full Member, (C.) Fellow, (D.) Instructor. The ranks of "Associate" and "Member" are obtained by any who apply, after passing successfully the fretwork test for either of the ranks named. The elementary or "Associate" test is a small panel  $5\frac{1}{2}$  inches square. The satisfactory cutting of this entitles to the rank of Associate. The fretwork test for full Membership is much more advanced, and consists of a panel  $10\frac{3}{4}$  inches long by  $6\frac{1}{2}$  inches wide. This panel provides a difficult piece of work, it having been designed in the Celtic style. The successful cutting of this entitles to full membership.

### How to Become an Enrolled Member.

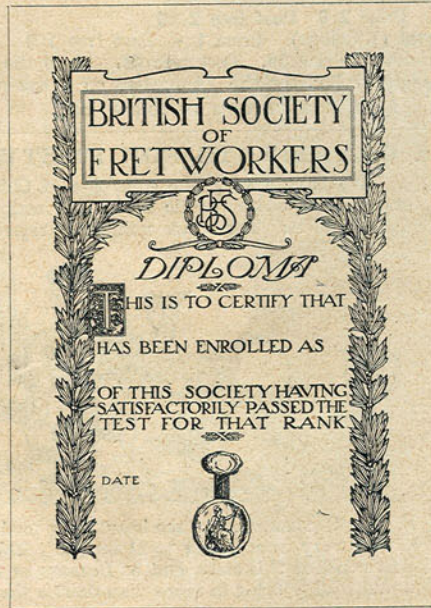

In order to become a Member of the Society, either as an Associate or full Member, the first thing to be done is to make application to the Registrar, at Temple House, requesting him to forward the necessary papers, the test sheet, and the special entry label. It will be necessary to send a postal order for 6d. with the application to cover cost of posting, test sheets, etc.

### The Test Sheet.

As soon as the entry label and test sheet are received by the would-be member, the next thing to do is to procure suitable fretwood, probably White Holly or Sycamore would be as suitable as any, and then proceed with the cutting in the most painstaking manner possible. We may mention that Messrs. Hobbies Limited will supply specially selected Sycamore panels for the purpose, price 5d. for the two, post free 8d.

### The Examination.

When the panel has been cut, the special entry label will be tied on to the work. It will then be carefully packed and forwarded to one of the examining judges of the Society, according to the forwarding label which each applicant will receive. This is not the same as the entry label which has to be fixed to the panel. When received, each test panel will be examined critically by the judge, and if it passes his criticism the Registrar will be notified of the fact and he will then advise the applicant of his appointment, requesting him to send his annual subscription of 6d. or 1s., as the case may be. When that is received, the Registrar will forward the small certificate. The enrolled members or Associates will only be allowed to use the letters M.B.S.F. or A.B.S.F. provided their annual subscription has been paid.

THE DIPLOMA—15 in. by 10 in.

### The Large Diplomas.

Although the small certificates certify the rank of the member either Associate or full Member, the majority of those joining the Society will desire to become possessed of one of the large diplomas of which we print a miniature. The diploma is on Cartridge paper, in black ink. It measures 15 ins. by 10 ins. These diplomas will be obtainable after the small certificate previously referred to has been taken out, on either of two conditions, (a) that the newly-appointed Associate or Member shall induce another friend or acquaintance to join the Society, when the large diploma will be issued without any charge;

or (b) upon a special payment of 6d. to cover cost of postage, packing, &c.

### The B.S.F. Badge.

A Badge—or to be more accurate, a pin—has been designed and made for the use of members and associates. The design on the face is here shown, but it does not give an adequate idea of the excellent appearance of the actual article. This emblem is made of stout white metal. It may be worn in the button-hole or tie, and the price is 6d., post free.

# HOBBIES

WORLD RENOWNED

## FRETWORK DESIGNS.

### SPECIAL DESIGN No. 59.

1/- p.f. 1/1

THIS superb design is the last word in the art of Fretcutting. There is nothing complicated about the work involved, and any fretworker of average ability will be able to make this Cabinet with ease.

It is not so large as the Chippendale Cabinet, and the cost of wood and fittings is much smaller. When finished, the Cabinet, which is true Louis XVI. style, will be worth several pounds.

### FRETWOOD AND FITTINGS.

**Wood.**—Large parcel of superior Mahogany throughout, including back and shelf.

25/- carriage forward.

**Moulding.**—16 pieces of Astragal Moulding and one piece of Pediment Moulding.

2/6 p. f. 2/9

**Glass.**—Four extra stout plate glass panes for doors and sides.

(5818) 2/6 p. f. 3/-

**Gilt Brass Louis XVI. Ornaments.**—Six Drops, one Swag, one Escutcheon, and six Rosettes.

2/6 p. f. 2/8

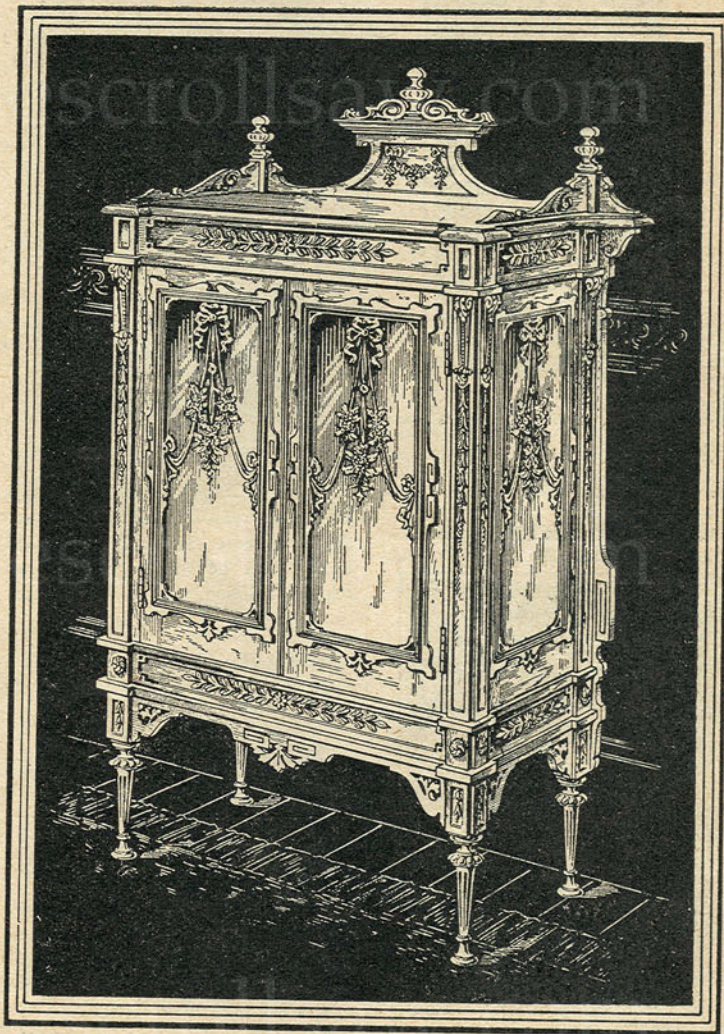

**Hinges.**—Two Pairs, 2½ in. brass.

6d. p. f. 7d.

**Special Metal Feet.**—Four.

4/- p. f. 4/11

### LOUIS XVI. GLASS CABINET.

Size 3 ft. 11 in. high, 31 in. wide, and 13 in. deep.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

No. 36, SPECIAL HANDSOME BOOKCASE,

Design, 1/-

The Finest Fretwork Bookcase, 45½ inches high by 36 in. wide. Design printed on Two Large Sheets, one 40 in. by 30 in. and one 40 in. by 15 in. No Tracing is required. Height of Shelves, 8½ in., 9½ in., and 10½ in.

PARCELS OF FRETWOOD.

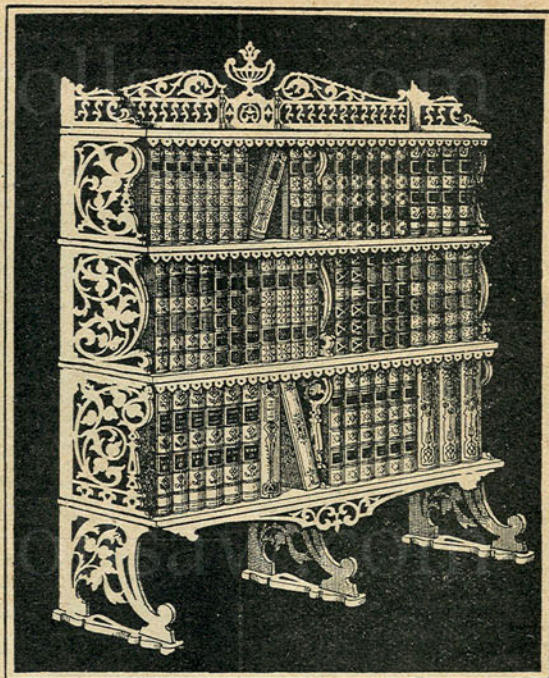

As sound and well-seasoned Wood of half-inch thickness is required for this handsome Bookcase, we have specially prepared the following parcels, which we can confidently recommend:—

1. **Satin Walnut.** Parcels of fine Satin Walnut, half-inch thick, specially cut to size in suitable boards, so that the worker does not suffer from waste in cutting, together with three Steel Support Bars for strengthening the Bookcase, may be had complete for 10/9 per Parcel.

2. **Figured Oak.**—Or similar Parcels of very superior Finely-Figured Oak, half-inch thick, specially cut to size, together with three Steel Support Bars for strengthening the Bookcase, may be had complete for 16/6 per Parcel. This Oak is not the ordinary Light Oak, but is a particularly rare and highly-figured variety, specially suitable for articles of furniture such as this Fretwork Bookcase.

**Steel Support Bars.**—The three Steel Support Bars referred to above have been specially manufactured for this Bookcase. They are 38½ in. long, ½ in. wide, and ½ in. thick. They are provided with countersunk holes, by which means they may easily be screwed to the back of the article.

These Parcels of Wood and Supports, being too heavy for Parcels Post, are sent by Rail, the carriage being paid on delivery by receiver. In ordering, the name of the nearest Railway Station must be given.

**"CHERUB" TOILET CASKET SERIES.**  
[609, 611 and 613.  
Designs 3d. each.

613. Jewel Casket. 611. Handkerchiefs.

609. Glove Casket.

Repoussé "Cherub" Panels for Lids. We have had specially manufactured for these Designs handsome Matt Gilt Repoussé Metal Panels, beautifully modelled in relief, with decorative Cherub Heads. The backs of the Panels are protected by stout cards, which are modelled in relief from the same costly Dies, and which, consequently, prevent the Repoussé Panels from being injured by any pressure. No finer ornaments for Fretwork Caskets have ever been introduced.

**PRICES:—**

No. 5325. "Cherub" Glove Panel, size 7½ in. by 3½ in., 1/-, or 1/1 post free.  
No. 5326. "Cherub" Handkerchief Panel, size 4½ in. by 4½ in., 8d., or 9d. post free.  
No. 5327. "Cherub" Jewel or Trinket Panels, size 4 in. by 1½ in., each 4d., or 9d. per pair post free.  
**Fretwood.**—Parcels of superior Sycamore or Dark Mahogany may be had as follows:—  
For Glove Casket, ⅞ in. Sycamore, 1/4, or 1/8 post free; or ½ in. Dark Mahogany, 1/-, or 1/4 post free.  
For Handkerchief Casket, ⅞ in. Sycamore, 1/8, or 2/- post free; or ½ in. Dark Mahogany, 1/3, or 1/7 post free.  
For both Jewel and Trinket Caskets (including Wood for Drawer), ½ in. Sycamore, 1/-, or 1/4 post free; or ½ in. Dark Mahogany, 1/-, or 1/4 post free.

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

**475. GRAND PATRIOTIC MOTTO BRACKET.**

"RIGHT IS MIGHT." Size 15½ in. by 15½ in.

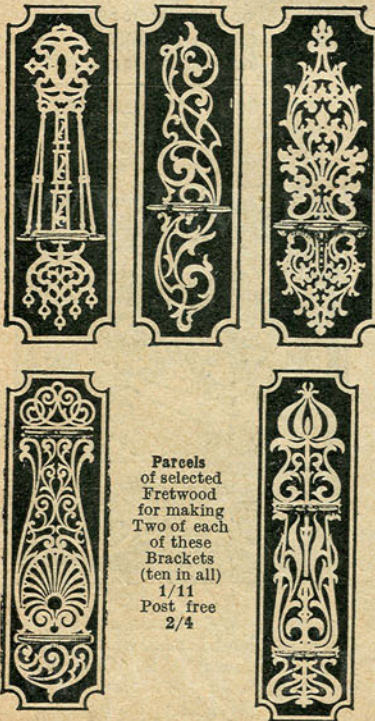

Parcel of Mahogany, 1/3 Post free 1/7

**Patriotic Emblems.**—For this patriotic Design we can supply sets of six suitable and very fine Gilt Metal Emblems as follows:—(1) Royal Arms Medallion (No 5209), size 3½ in. by 2¼ in., in Gilt Metal Border, and with richly modelled and Coloured Royal Coat of Arms. (2) Handsome Gilt Metal Oval Border (No. 5355), size 7½ in. by 5 in., to surround the Royal Arms. (3) Imperial Crown (No. 5205), richly modelled and coloured. (4) Three Flag Groups (No. 5206), each with coloured Royal Ensign and Union Jack. Price 2/- per set, or 2/2 post free.

**434. FIVE PARLOUR BRACKETS.**

Size 12 in. by 3 in.

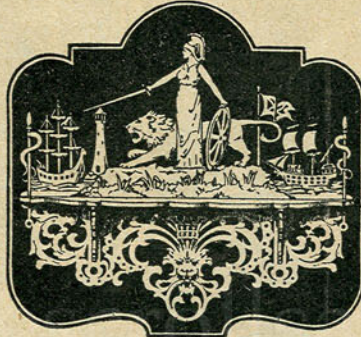

Parcels of selected Fretwood for making Two of each of these Brackets (ten in all) 1/11 Post free 2/4

**No. 26 SPECIAL.**

**"RULE BRITANNIA" WALL BRACKET.**

Size 19 in. by 16½ in. Double Design, 6d.

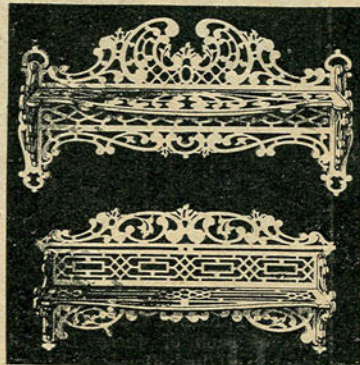

Post free 7d.

This pattern, which we can safely leave to speak for itself, is full of life and patriotic sentiment. All necessary directions for cutting, fixing, etc., are given on the design, and no Fretworker should find any difficulty in building up a handsome Bracket.

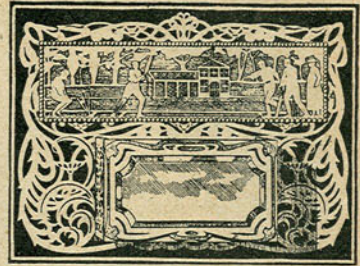

**Fretwood.**—As wood 19 in. wide is required for this Bracket, we have made special arrangements to procure boards of extra width and of the finest quality. The wood is ¼ in. thick, and is supplied in its natural width, and is not jointed. We can supply ¼ in. Brown Walnut for making the complete Bracket, with ⅜ in. Maple for the overlay pieces. Price 2/6 or 3/- per parcel post free.

**729. TWO WALL BRACKETS.**

Parcel of Dark Walnut, sufficient for both Brackets 1/4, post free 1/8

**No. 7 SPECIAL.  
LARGE CORNER BRACKET.**

Price 6d. Post free 7d.

Size 48 in. by 15 in.

As all the Diagrams are shown in full, no tracing is required.

Amongst modern Fretwork patterns it would be difficult to find one more suitable for paying purposes than this Corner Bracket, which is in every way adapted to the requirements of the economical worker who desires to see the best possible results from the least possible cost and with a minimum of labour.

The scroll-work is bold but at the same time graceful, and although a few straight lines and geometric curves are necessary to give stability of appearance to the Bracket, there is throughout a pleasing absence of severity. No part of the cutting offers any exceptional difficulty, and not even the youngest novice need shrink from attempting to cut the Bracket. Clear instructions for fixing together are printed on the sheets.

**Fretwood.**—Parcel of Selected Satin Walnut for making the Corner Bracket 4/6 Post free 5/1

**771. JAPANESE CORNER BRACKET.**

Size 18 in. by 7 in. by 7 in.

## CHIPPENDALE CABINET DESIGN No. 47 SPECIAL.

Price 1/- Post free 1/1

THIS CABINET MEASURES 3 FT. 6 IN. HIGH, 4 FT. WIDE, AND 1 FT. 1 IN. DEEP.

Our Illustration is from a Photograph of the Chippendale Cabinet made by Mr. A. H. Carter, of Swindon. Mr. Carter considers the design one of the finest Hobbies Limited have ever produced; he is a fretworker of eight years' standing. The Cabinet has been valued at £7 10s., and the cost, including the polishing, was 55/- It was cut entirely with HOBBIES Saws, using a HOBBIES Lever Hand Frame.

**Fretwood.**—We supply a parcel of selected  $\frac{1}{4}$  in. and  $\frac{3}{8}$  in. MAHOGANY with Overlays of suitable thickness, and including wood for back and shelf, for 35/-, or Parcel of Satin Walnut, 30/-

**Accessories.**—The six Feet, plated and polished, to support Cabinet, will be supplied for 1/2 each, or 7/-] the 'set. These Feet are also supplied Plain Cast, ready for painting, at 8d. each, or 4/- the set of Six. Two pairs of 2 $\frac{1}{2}$  in. Brass Butt Hinges, with Screws, 10d. (No. 6) Brass Lever Lock, with Key, 1/- Drop Handle, Plated and Polished (5334), 6d. Two (No. 2) Bolts for doors of Cabinet, 6d. One pair  $\frac{1}{8}$  Sheet Glass Panels, 1/6 per pair, post free 2/-

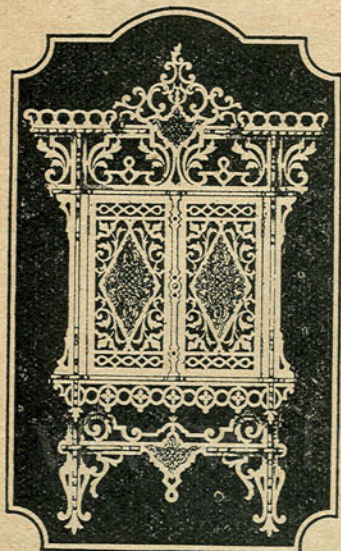

**NOTE.**—The Wood and Fittings for CHIPPENDALE CABINET, being too heavy for Parcel Post, they will be securely packed and sent by rail from DEREHAM, the carriage being paid on delivery by Receiver. In ordering, the name of the nearest railway station (in addition to full name and address) should always be given.

No. 19 SPECIAL. INDIAN WALL CABINET.

Price 6d. Post free 7d.

Size 30 in. by 13 $\frac{1}{2}$  in.

This Design is for a handsome Hanging Wall Cabinet, with Double-door Cupboard. The style of ornament adopted for the article is Indian, and the beautiful arrangement of Domes on the upper part of the Cabinet forms a very fine feature. The sides are fretted, and the whole article, when completed, forms a handsome and useful piece of Furniture, which, by its elegant proportions and rich work, must command general admiration.

Fretwood.—Parcels of selected Satin Walnut, White Maple and Satinwood for making this Cabinet may be had for 3/6; or post free for 4/2

Mirrors.—Superior Bevelled-edge Mirrors (No. 5728), size 9 $\frac{3}{4}$  in. by 3 in., specially made for this Indian Wall Cabinet, may be had for 2/6 per pair; or post free for 2/9 per pair.

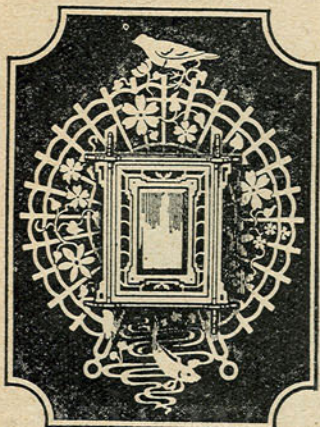

Hinges.—Two pairs of Brass Hinges, with Brass Knob (5341), may be had for 5d.; or post free for 6d. per set.

Orders for Goods by Post should be addressed to HOBBIES LIMITED, Dereham, Norfolk.

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents,

340. JAPANESE MIRROR CABINET.

Mirror, Bevelled-edge (5718), 7d. Post free 8d. Hinges, 1d. Parcel Satin Walnut and Whitewood, 11d. Post free 1/4.

No. 30 SPECIAL. KNIFE, FORK, AND SPOON CABINET.

(Design 6d. p.f. 7d.)

Size 23½ in. by 12 in.

Fretwood.—Parcels of selected Satin Walnut and White Holly, 2/3, or p.f. 2/9 Mirror, Bevelled-edge (5719), 7d. p.f. 8d.

Handle.—Gilt and Coloured Metal Handle (5304), 7d. p.f. 8d.

No. 16 SPECIAL.

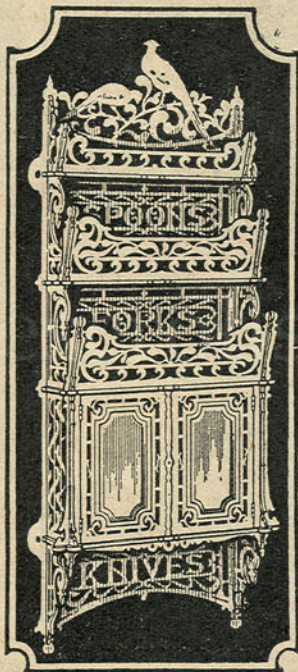

KNIFE, FORK, AND SPOON CABINET.

Price 6d. Post free 7d.

Fretwood.—Parcels of specially selected Fretwood of the thickness recommended may be had as follows:—Satin Walnut for the Back, Shelves, and Sides, with Whitewood for the Doors, Posts, Fronts, Rail, and Overlay Borders, may be had for 4/-, or post free for 4/10 per Parcel. NOTE.—In the above parcels the Wood for Back is sent in one piece.

Mirrors (No. 5727).—Two Bevelled-edge Mirrors, with curved corners, may be had for 1/2 each. A pair may be had post free for 2/6. Hinges, brass, price 2d. for four.

Two Flat Steel Bars (as recommended), 36 in. long by ½ in. wide, by ½ in. thick, may be had for 1/- per pair, or post free for 1/4 (Postage need not be added when supports are ordered with Wood Parcel.)

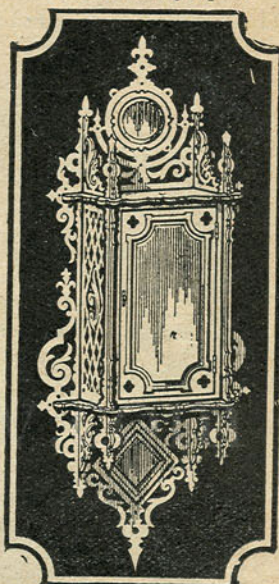

Size 36 in. by 14 in.

This Design fulfils almost every requirement that the ordinary Fretworker desires. It is useful; it is handsome; it may be cut with a Hand Frame or a Treadle Fretsaw; it presents no difficulties to the worker; and, lastly, it is less costly to construct than many articles half its size.

174. WALL CABINET.

Size 19 in. by 8½ in.

Set of Three Bevelled-edge Mirrors, including Circular (5704), Square (5707) and Oblong (5727), 1/8 the set Post free 1/10

Orders for Goods by Post should be addressed to HOBBIES LIMITED, Dereham, Norfolk.

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

**No. 6 SPECIAL DRAWING ROOM CABINET.**

Price **One Shilling.**

Full instructions for cutting and fixing are given with the Design.

Size 5 ft. 3 in. by 3 ft.

**T**HIS Magnificent Cabinet, cut in some dark wood, and carefully French-polished, forms a most elegant article of Fretwork furniture. Probably no design has ever received so much care in planning, and, alike in graceful proportions and detail ornament, it is as perfect a pattern as any issued. It contains a double-door cupboard, numerous shelves for china or other ornaments, while provision is made for four small mirrors. The doors are fitted with sunk fretted panels, in the centre of which are small mirrors encircled by light overlay borders, and as each panel is surrounded by an overlay which takes the place of a moulding, the doors will have an exceptionally handsome appearance. This portion forms the special feature of the Cabinet; but in all parts, from the arched recess below to the convex mirror at the top, the detail is exceptionally fine.

**Mirrors.**—Sets of Four Mirrors for the above, including two Bevelled-edge Mirrors for Doors, one Circular Convex Mirror for top, and one long Bevelled-edge Mirror, 5/9 per set. Post free 6/3

**Fretwood.**—Parcel of Satin Walnut, with Myrtle and Whitewood for Door Panels and Overlays, 17/6 carriage forward.

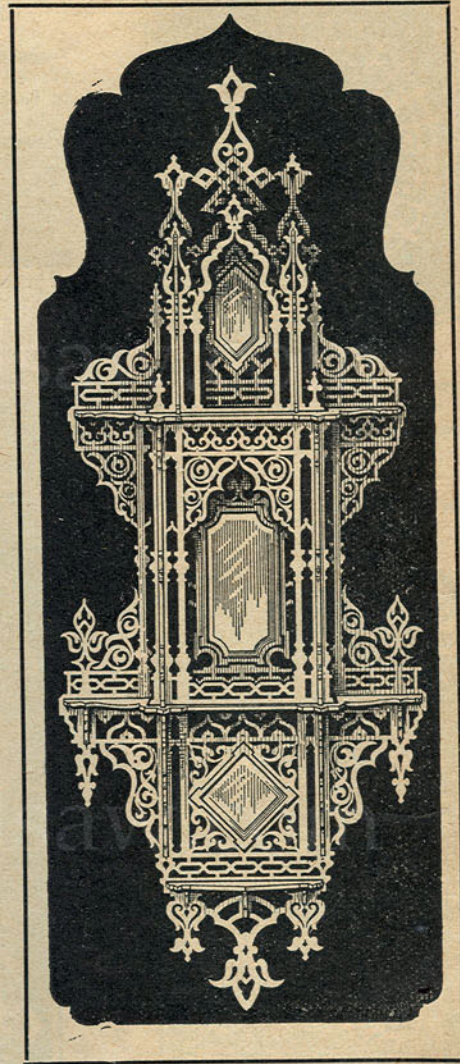

**A Parcel** of Solid Hardwood Rods, for making a skeleton Framework for the Cabinet, may be had for 1/9

In ordering, the name of the nearest Railway Station must be given.

**No. 10 SPECIAL. ORIENTAL WALL CABINET.**

Price 6d. Post free 7d.

Size 41 in. high by 16 in. wide.

**T**HIS handsome Arabian Wall Cabinet is a companion ornament to the Grand Oriental Overmantel.

**Fretwood.**—Parcels of selected Fretwood may be had as follows: Satin Walnut, with Whitewood for the Overlay Borders, together with Two Flat Steel Bars for strengthening the Cabinet, price 5/-, or p.f. 5/10 Parcels of Mahogany and Whitewood, with the Two Steel Bars, 6/9, or p.f. 7/8 Wood for back is in 3 sections. If wood for back is supplied in one piece the price is 6d. extra. In this case the wood is sent carriage forward. The nearest station must be named when ordering.

**Mirrors.**—Bevelled-edge Mirrors (5720), (5727), and (5716), 2/3 per Set of Three. Post free 2/5

**Orders for Goods by Post should be addressed to HOBBIES LIMITED, DEREHAM, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

## TEN CHRISTMAS DESIGNS.

SIZES:—Handkerchief Box, 7½ in. by 7½ in.; Glove Box, 11½ in. by 4½ in.; Photograph Frames, 17 in. by 7 in., and 14½ in. by 7½ in.; Cards, from 6 in. to 8 in.

This SPECIAL CHRISTMAS DESIGN SHEET includes the following TEN beautiful Patterns:—

Christmas Glove Box; Christmas Handkerchief Box to match; Two Christmas Photograph Frames, one upright in form, the other oblong, and each for holding two circular pictures; and, lastly, a series of Six Fretwork Christmas Cards of a useful size and graceful design.

**Fretwood for Glove and Handkerchief Boxes.**—For making both Boxes we can supply complete parcels of White Holly, price 1/11 per parcel, or post free for 2/3

**Fretwood for Photograph Frames.**—Parcels of selected Myrtle, with White Holly for the Overlays, for making both the Christmas Photograph Frames, may be had for 1/4 per parcel, or post free for 1/8

**Fretwood for Christmas Cards.**—Parcels of selected Fancy Fretwoods (including pieces for Overlays), of suitable thicknesses, for making all the Six Christmas Cards, may be had for 1/1 per parcel, or post free for 1/4. Each parcel contains fine varieties, and only woods of suitable grain are included.

**"Merry Christmas" Panels.**—For the Lids of the Glove and Handkerchief Boxes we can supply very superior Gilt Metal Panels (No. 5324), with the motto "A Merry Christmas." These measure 4½ in. by 2½ in. They are designed in an effective Renaissance style, and are stamped in relief from an exclusive die. They are finished in Matt Gilt, and give a very handsome finish to the Box Lids. Price 4d. per panel, or 5d. post free. A pair may be had for 9d. post free.

**"Merry Christmas" Panels.**—For the Two Christmas Photograph Frames we can supply similar Gilt Metal Panels (No. 5324), with the motto "A Merry Christmas," price 4d. per Panel, or post free for 5d.; a pair may be had for 9d. post free.

**Clear Framing Glasses** for Christmas Photograph Frames (No. 5806), may be had for 2d. per pair, or 4d. for four; postage 21.

**Ornaments for Christmas Cards.**—"Merry Christmas" Panel (No. 5324), in Gilt Metal, as described above, for Card E; price 4d., or 5d. post free.

**Holly Spray Mounts** (No. 5451), for Cards B, C, and F, with green leaves and red berries, stamped from a fine die, and coloured by hand, price 1½d. each (postage 1d. for one or more).

**Ivy Leaf Spray Ornament** (No. 5461), for Card A, in Gilt Metal, and richly coloured by hand in different tints of green, price 3d. each, or post free 4d.

**Gilt Metal Seal**, with word "Greeting" (No. 5462), for Card C, price 1d., or post free for 2d.

**Gilt Metal Seals** for Card D, viz., with motto "A Merry Christmas" (No. 5464), and with "Cigar" emblem (No. 5463), may be had for 2d. per pair, or post free for 3d.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

CARDS—ARTISTIC EFFECTS.

Designs 3d. each unless otherwise marked.

531. SIX FRETWORK  
NEW YEAR CARDS.

Sizes 7 in. by 2½ in.; 5 in. by 3½ in.; 6 in. by 3¾ in., etc.

**Fretwood.**—Parcels of assorted Fretwood of the thickness recommended (including Myrtle, Holly, Satinwood, etc.) for making all the six Cards, may be had for 1/- or post free for 1/3 per parcel.

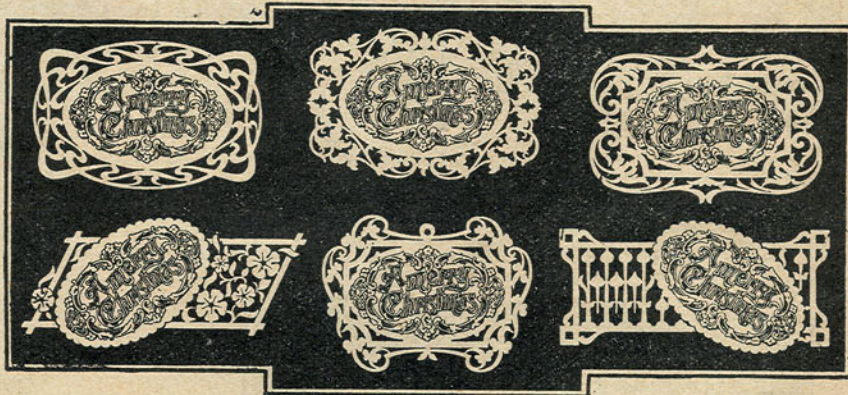

**Vine-Leaf Mounts** (No. 5460).—Sets of six finely modelled Vine Leaves (as illustrated) may be had for 6d. or post free for 7d. per set.

No. 582. SIX FRETWORK CHRISTMAS CARDS.—Price 3d.

Sizes from 6¼ in. by 4½ in. to 8¾ in. by 4 in.

**Fretwood.**—Parcels of selected Sycamore, Myrtle, Lacewood, White Maple, Mahogany, and Satin Walnut, for making Six of these Cards (each piece cut to suit the LARGEST) may be had for 11d. or post free for 1/2 per parcel. Double parcels may be had for 2/1 post free.

**Merry Christmas Greeting Mounts** (No. 5324).—For these Six Designs we can supply very superior Gilt Metal Overlay Mounts, with the Greeting, "A Merry Christmas." These measure 4½ in. by 2½ in. They are designed in an effective Renaissance style, and are stamped in relief from a fine and costly die. They are finished in Matt Gilt, and give a very handsome finish to the articles. Price 4d. per Mount. (Postage One Penny extra on one or more Mounts.)

631. FRETWORK CHRISTMAS CARDS, WITH BRIGHT ENAMELLED METAL HOLLY SPRAYS.

**Fretwood.**—We can supply Parcels of selected Wood of suitable thickness, for making the set of Seven Christmas Cards, cut to the proper size in Mahogany, Satin Walnut, and Holly, for 10d. or post free 1/2

**Holly Sprays.**—These beautifully designed enamelled Metal Mounts, with green leaves and red berries, give the cards a very bright appearance. The price of them is 1½d. each, or a set of Seven will be supplied for 11d. post free.

In sending through the post workers should pack their finished work carefully and between two pieces of cardboard.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

CARDS—LARGE SELECTION.

Designs 3d. each unless otherwise marked.

633.  
SIX FRETWORK CHRISTMAS GREETING CARDS.

**Fretwood.**—We can supply Parcels of selected Wood, of suitable thickness, for making the set of "Christmas Greeting Cards," in Maple, Satin Walnut and Dark Walnut,  $\frac{1}{4}$  in. thick, for 11d., or post free 1/3.

**Metal Panels.**—The "Merry Christmas" Gilt Metal Panels are supplied at 4d. each, or sent post free for 5d.

**Metal Corners.**—The set of four Metal Corners (No. 5104) are supplied for 4d., or post free 5d. Set of four (No. 5102), 3d., or post free 4d.; and the set of four (No. 5101), 3d., or post free 4d.

No. 476. SIX FRETWORK CHRISTMAS CARDS. Price 3d. Sizes about 6½ in. by 4 in.

**Fretwood.**—Parcels of selected Fretwood,  $\frac{1}{4}$  in. and  $\frac{1}{8}$  in. thick (including Myrtle, Holly, White Maple, &c.), for making One of each Card, may be had for 1/2, or post free for 1/6 per parcel.

**Gilt and Coloured Overlay Mounts.** 476A. Gilt and Aluminium-coloured Figure Corner Ornament (No. 5110), size 4½ in. by 2½ in., 4d. Post free 5d. 476B. Gilt Metal Anchor (No. 5312), with Portrait Medallion, size 2½ in. by 1½ in., 3d. Post free 4d. 476C and 476E. Holly Spray Ornaments (No. 5451), richly coloured in Green and Red, 1½d. each, or 2½d. post free. A pair 3d., or post free 4d. 476D. Gilt and richly coloured Metal Corners (No. 5112), 4d. per set of four. Post free 5d. 476F. Gilt Metal Cherub Ornament (No. 5313), size 2½ in. by 1½ in., 1d. Post free 2d. These Ornaments are beautifully modelled in relief, and a complete set of the NINE Pieces may be had for 1/3, or post free for 1/4.

No. 579.

THREE CHRISTMAS CARD PANELS.

Price 3d.

Sizes about 12 in. by 4½ in.

THESE Card Panels—a Christmas Novelty—are a convenient size, and may be packed flat. The Panels are designed to carry elegant Gilt Metal Mounts with the words "A Merry Christmas."

**Fretwood.**—Parcels of selected Mahogany, for the Backgrounds and Supports, and White Holly for the Overlays, for making all Three Card Panels, may be had for 1/5, or post free for 1/9 per parcel.

"Merry Christmas" Panels (5324).—For these Three Designs we can supply very superior Gilt Metal Panels, with the greeting "A Merry Christmas." These measure 4½ in. by 2½ in. They are designed in an effective Renaissance style, and are stamped in a relief from a fine and costly die. They are finished in Matt Gilt, and give a very handsome finish to the articles. Price 4d. per Panel, or post free for 5d. (Three may be had for 1/1 post free.)

**Hinges.**—Brass Hinges, price 1d. per pair; or 2d. per pair, post free.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

Parcel Satin Walnut, 8d. Post free 1/-

**THE IMPERIAL CLOCK TOWER.**

Price of Design, 1/-

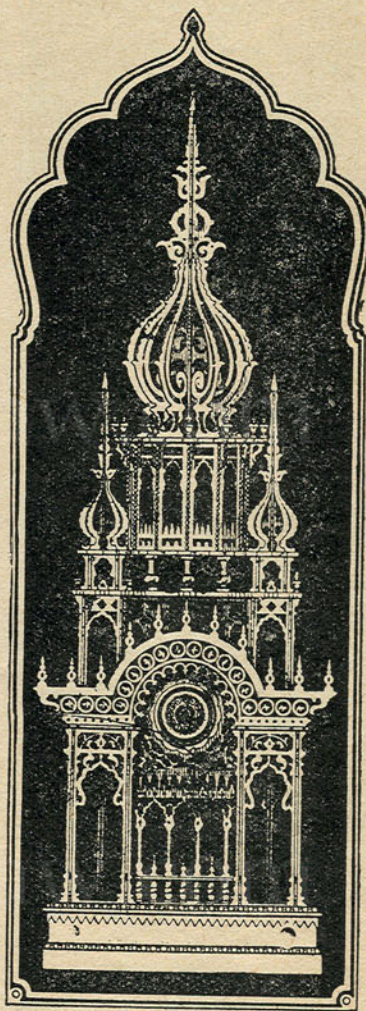

**N**O ONE can fail to be struck with this magnificent Indian Clock.

The dome rises above a twelve-sided tower—a characteristic feature of the Indian style. The tower stands upon a circular colonnade, made up chiefly of elegantly-turned columns. The platform upon which the colonnade and upper tower stand is four-sided instead of round, and from each front corner rises the little turret dome seen on the miniature sketch. The sides of the corner arcades are surmounted by the square ledges which carry the pediment, and upon which stand the narrower arcades that rise to the platform. The base is ornamented with rich mouldings, while pearl beading gives a beautiful finish to the corners of the upper tower. The spindles of the lower rail on the clock front are turned and the colonnade, dome, base and platform are enriched with columns and finials, the pleasing effect of which it is almost impossible to exaggerate.

Parcels of specially selected Mahogany, Satin Walnut, and Whitewood, together with a series of finely-turned Wood Mouldings, Quarter-Mouldings, Spindles, Finials, etc., may be had for 15/9 per Parcel.

All the Wood is of the best quality. With each Parcel is sent free a Duplicate Copy of the Design.

The Wood-Turnings include: 10 ft. of Quarter-Moulding for Base and Stand, 12 Pieces of Pearl Moulding for corners of twelve-sided Upper Tower, 7 small Spindles for Balustrade below Clock, 12 handsome Spindles for Colonnade round Upper Tower, 12 Finials for base of Dome, 6 ditto for corners of Platform and 2 ditto for Ledges. Price of these turnings independent of the wood is 5/- or p.f. 5/3

Size 48 in. by 16 1/2 in. by 12 1/2 in.

NOTE.—As the Parcels of Fretwood and Wood-Turnings are too heavy to be sent by post, they will be securely packed for rail, the carriage being paid on delivery by receiver. In ordering, the name of the nearest Railway Station (in addition to full name and address) should always be given.

**CLOCKS.**

Thirty-hour Clocks (No. 5503), to fit the above, may be had, securely packed in Box, for 6/-, or post free for 6/3

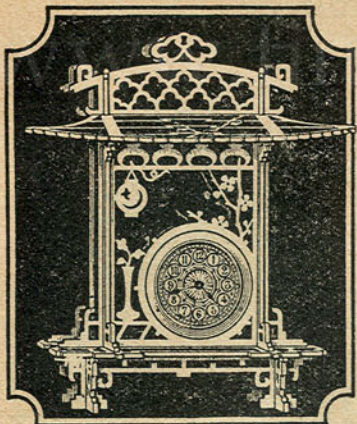

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Autho ised Agents.

# OVERMANTELS IN FRETWORK.

REAL ARTICLES  
OF FURNITURE.

No. 39 SPECIAL.

## UNIVERSAL OVERMANTEL.

1/- Post free 1/1

Dimensions—45 inches long by 41 inches wide.

**Fretwood.**—Parcel of selected Satin Walnut,  $\frac{1}{4}$  in. thick, with special  $\frac{3}{4}$  in. board for the base, and Five turned Toes may be had at 7/6 per parcel.

**Mirror.**—Handsome Bevelled-edge Rectangular Silver Plate Mirror, in moulded Satin Walnut Frame, size 22 in. by 16 in., may be had complete for 10/6

**Two Steel Support Bars** (one 32 in., and one 30 in.),  $\frac{1}{2}$  inch wide, and  $\frac{1}{8}$  inch thick, for supporting the Overmantel at the back, may be had for 1/- per pair.

[These goods being too heavy for Parcel Post, will be sent, securely packed, by Rail from Dereham, the carriage being paid by the receiver on delivery.]

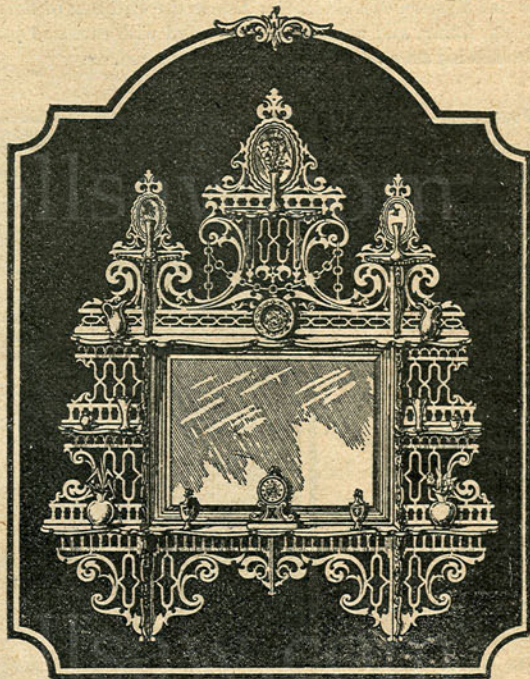

No. 3 SPECIAL.

## OVERMANTEL.

Price 6d. Post free 7d.

THIS Design is undoubtedly one of the finest ever issued, and since its publication some years ago many thousands of homes have been decorated with handsome Overmantels made from the pattern.

Full instructions are given on the Design Sheet.

Size 50 in. by 40 in. by 8 in.

**Fretwood.**—Special Parcel of Satin Walnut,  $\frac{1}{2}$  in. thick, with suitable Overlays. Price 10/6

**Mirrors.**—Set of Four Bevelled-edge Mirrors, comprising three for the top portion, and one Silver Plate Mirror (size 20 in. by 15 in.), framed complete in Reeded Frame of Solid Satin Walnut, may be had for 13/6 per set complete.

**Steel Supports.**—Flat Steel Bars (as recommended in instructions) may be had for 1/- per pair.

As the above goods are too heavy to be sent by post, they will be sent by rail, the carriage being paid on delivery by receiver. In ordering, the name of the nearest Railway Station must be given.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

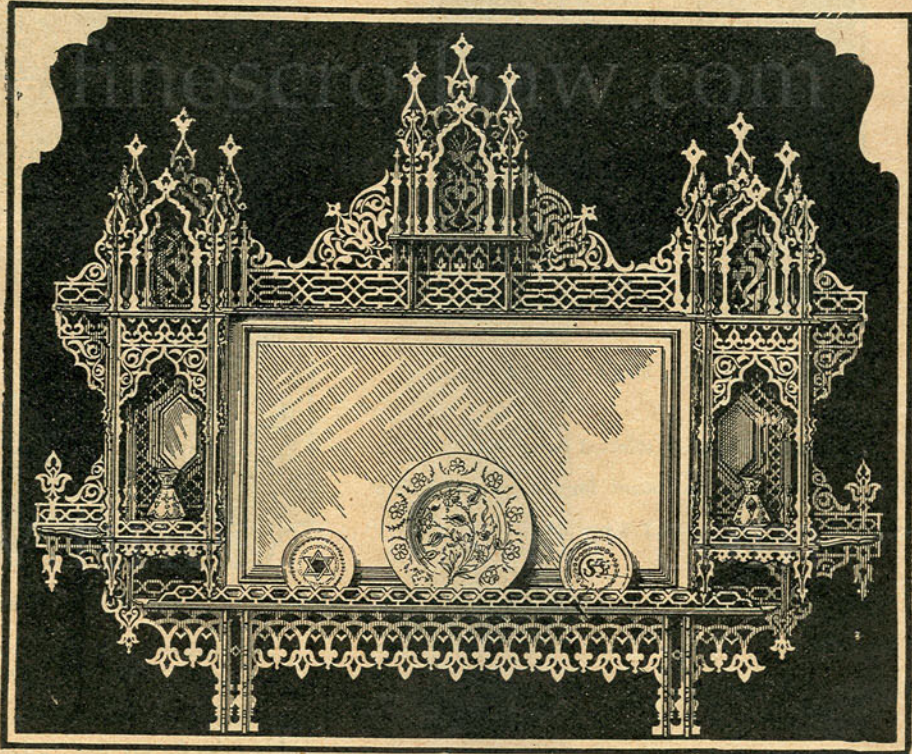

## GRAND ORIENTAL OVERMANTEL.

Price 1/- Post free 1/1

**T**HIS Oriental Overmantel is perhaps one of the most remarkable examples of modern Fretwork Furniture. Gracefully proportioned and rich in detail, it makes a capital piece of Exhibition work. The Overmantel is 48 in. long, and rather more than 3 ft. in height. The Arabian style in which it is designed gives the article a striking appearance, and the two wings, with their arched recesses and graceful canopies, lend a peculiar beauty to the work. A large rectangular space—about 22 in. by 14 in.—is provided for holding a mirror, and there are numerous shelves for ornaments and knick-knacks. The fine Eastern characteristics disarm the criticism of those who still sneer at Fretwork as a schoolboy pastime, and if the cutting, fixing, and finishing are executed with care and judgment, the article may stand comparison with any other work of furnishing art against which it may be placed.

**Fretwood.**—Parcels of Fretwood, specially selected and cut to size in order to avoid waste, containing  $\frac{1}{4}$  in. Satin Walnut for the Back Portions, Lower Shelves etc.,  $\frac{3}{16}$  in. Satin Walnut for the Upper Shelves, and fine  $\frac{3}{16}$  in. White-wood for the projecting Arcade and upper Arched parts, may be had for 10/6 per Parcel.

**Mirrors.**—Sets of three Bevelled-edge Mirrors, including One Rectangular Silver-plate Mirror (size 24 in. by 14 in.), in Solid Moulded Frame ready for Fitting, and two Hexagonal Mirrors for the Arcade Wings, may be had for 12/6 per Set of three complete.

Size 4 ft. long by 3 ft. 3 in. high.

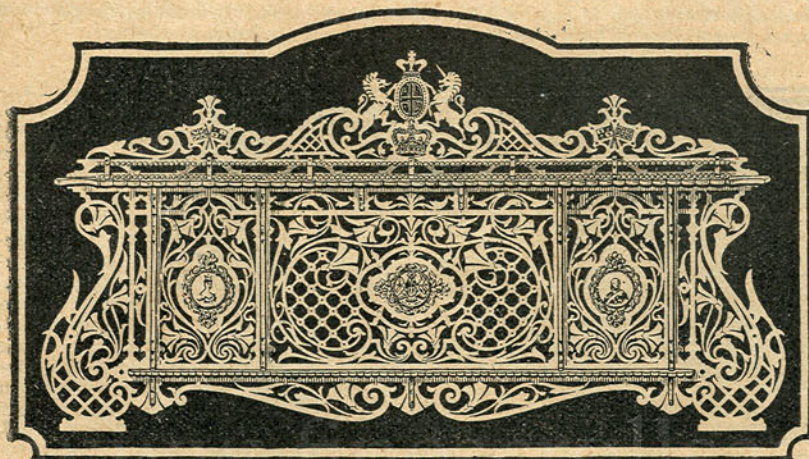

**Steel Supports.**—Flat Steel Bars (as recommended in instructions), one 47 in. long by  $\frac{1}{2}$  in. wide by  $\frac{1}{8}$  in. thick, and one 37 in. long by  $\frac{1}{2}$  in. wide by  $\frac{1}{8}$  in. thick, may be had for 1/- per pair. These Bars have holes drilled and counter-sunk for screwing to the back of the Overmantel. The long Steel Bar is intended to project about  $\frac{3}{4}$  in. at each end, by which means the Overmantel may be fixed to the wall.

**NOTE.**—As the Fretwood and Mirror Parcels are too heavy to be sent by post, they will be sent, securely packed, by rail, the carriage being paid on delivery by receiver. In ordering, the name of the nearest Railway Station (in addition to full name and address) should always be given.

**Orders for Goods by Post should be addressed to HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

No. 11 SPECIAL.—CORONATION OVERMANTEL. Price 6d. Post free 7d.

Size 33½ in. long by 17 in. high.

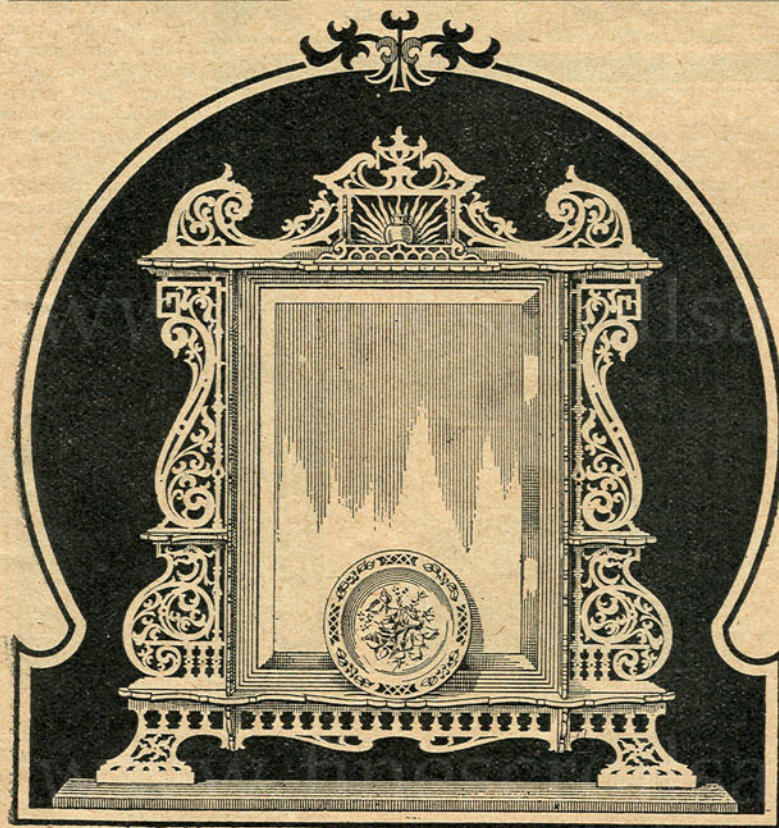

Majesty. (3) Royal Arms Medallion (No. 5209), with richly modelled and coloured Royal Coat of Arms, mounted on Ivory grained Celluloid Plaque. (4) Imperial Crown (No. 5205), richly modelled and coloured. (5-6) Two pairs of Flag Groups (No. 5206), each with Royal Ensign and Union Jack, coloured. The Six Mounts may be had for 2/1 per set. Post free 2/2

TO CELEBRATE THE  
CORONATION OF KING GEORGE V.

**Fretwood.**—Parcels of selected Fretwood, including Satin Walnut for the Back and Shelves, and Whitewood for the Brackets, Rail Posts and Overlay, also with sufficient finely-turned Pearl Beading and Quarter-Moulding for the Upper and Lower Shelves, may be had for 3/3 per parcel.  
Post free 3/10

**Medallions and Emblems.**—

We supply sets of handsome Gilt Metal Medallions and Ornaments as follows: (1) King George V. Medallion (No. 5221), in Gilt Metal Border, with admirable portrait of His Majesty, size 3½ in. by 2¾ in. (2) Queen Mary Medallion (No. 5222), with portrait of Her Majesty, size 3½ in. by 2¾ in. (3) Royal Arms Medallion (No. 5209), with richly modelled and coloured Royal Coat of Arms, mounted on Ivory grained Celluloid Plaque. (4) Imperial Crown (No. 5205), richly modelled and coloured. (5-6) Two pairs of Flag Groups (No. 5206), each with Royal Ensign and Union Jack, coloured. The Six Mounts may be had for 2/1 per set. Post free 2/2

No. 21 SPECIAL.

**COTTAGE  
OVERMANTEL.**

Price 6d. Post free 7d.  
Size 33¼ in. by 31 in.

THIS is an excellent Overmantel for a small room. All the work may be done with a twelve-inch Hand Frame, and owing to the method of construction adopted, all the parts may be put together by the average amateur.

**Fretwood.**—Parcels of selected Satin Walnut, of the thicknesses recommended, may be had for 2/4 or post free for 2/10 per parcel.

**Mirrors.**—A handsome Bevelled-edge Rectangular Silver Plate Mirror (size 20 in. by 15 in.), in Reeded Frame of Satin Walnut, may be had for 11/- complete.

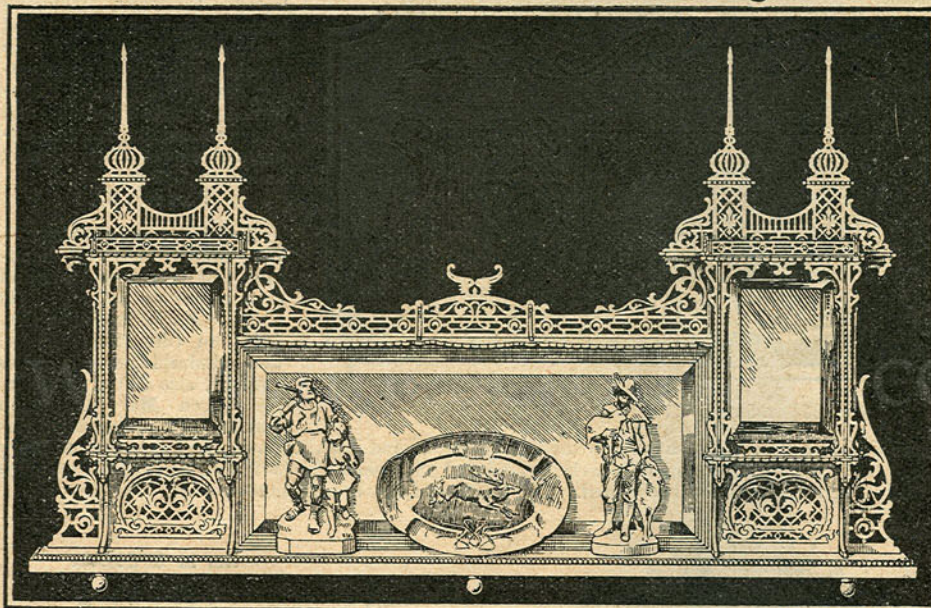

As this Mirror is too heavy to go by Post, it will be sent by Rail, the receiver paying carriage on delivery.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

No. 27 SPECIAL.—RENAISSANCE OVERMANTEL. Size 4 ft. 3 in. by 2 ft. 7 in. Price 6d. Post free 7d

THIS Overmantel has been specially designed to suit the requirements of an ordinary sitting-room. Its oblong character will suit most workers, while in length it will easily fit any but the smallest mantelpieces. In cases where provision is already made for an Overmantel, the article could be fitted above a cabinet or dwarf bookcase.

**Fretwood.**—Parcels of Fretwood, specially selected and cut to size in order to avoid waste, containing  $\frac{1}{8}$  in. and  $\frac{1}{4}$  in. Myrtle, with Whitewood for Upper Rails and Overlay Ornaments, together with finely-turned Pearl Beading for wing Panels and Base, also three Turned Toes for Base, may be had for 8/6 per parcel, carriage forward.

**Steel Support Bars,** 3 ft.  $10\frac{1}{2}$  in. long,  $\frac{1}{2}$  in. wide, and  $\frac{1}{2}$  in. thick, with holes drilled and countersunk, may be had for 1/- per pair. (These are recommended for strengthening the Overmantel.) The bars

are screwed behind the Frame of Mirror. The ends of the upper bar have eyelets for fixing the Overmantel to the wall.

**Mirrors.**—A handsome Bevelled-edge Rectangular Silver Mirror (size about 26 in. by 10 in.), in solid moulded frame, size 28 in. by 12 in., may be had (packed in strong wood case, ready for rail) for 8/9 complete, carriage forward. These frames match the Myrtle. As the frames are specially made to fit the Design, no difficulty will be found in fitting. Also two rectangular bevelled-edge Mirrors for the sides (5742), price 2/6 per pair.

**HOBBIES  
"DIAMOND"  
DESIGNS.**

Hand Mirror

Wall Bracket.

Thermometer Mount.

Small China Shelf.

With Parcel of Fretwood—Price 1/-  
Post free 1/3

Corner Bracket.

Watch Stand

Although small, these Designs are not intended for very young beginners, as in each case the ultimate success of the work depends entirely on the care bestowed on both cutting and fixing. Special Parcels containing the above Six "Diamond" Designs, with sufficient selected and assorted wood for making them:—Price 1/- Post free 1/3

Circular Xylonite Thermometer (No. 5004), Red 1/- Post free 1/1  
(No. 5005), Black, 1/- Post free 1/1 Mirror, Bevelled-edge (5707), 3d. Post free 4d.

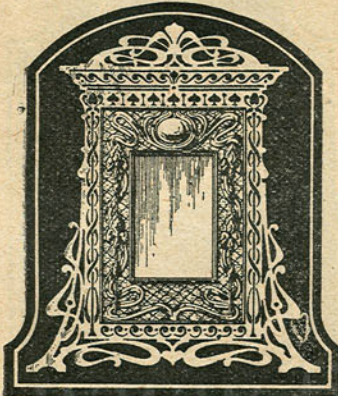

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

**HOME CIRCLE CABINET PHOTO FRAME.**

A Magnificent Wall Ornament suitable for Open Cabinet or Overmantel.

Price 6d. Post free 7d.

OUR object in preparing this Home Circle Photograph Frame was to provide a handsome ornament which not only meets the requirements of a portrait frame, but also supplies an elegant piece of wall furniture which cannot fail to look well in any room.

The article takes the form of an open Wall Cabinet. It holds Six Cabinet Photographs, and is furnished

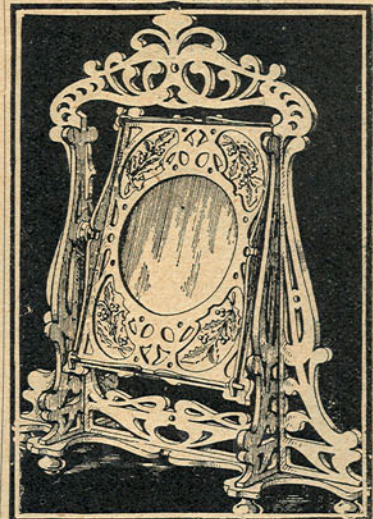

Size 38 in. by 29 in.

with small Shelves, which may be used for holding light knick-knacks. Three long Spiral Columns rise at each side of the central portion, and a graceful Arch forms the upper finishing touch.

# SMOKERS' CABINETS.

ATTRACTIVE  
AND USEFUL.

## No. 23 SPECIAL.—CHINESE SMOKING CASKET.

Price 6d. Post free 7d.

This beautiful Chinese Model represents a Smoker's Companion, and takes the form of a Square Cabinet with double doors at both front and back. The interior is quaintly arranged, and may be fitted for holding Tobacco, Pipes, Cigarettes, Cigars, etc.

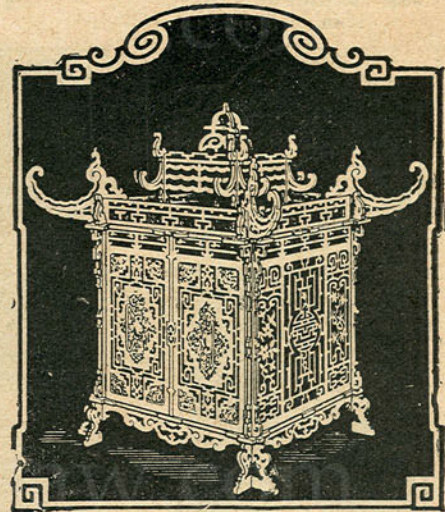

**Fretwood.**—Parcels of selected Fretwood, specially prepared and cut to size, for making this Casket, including Myrtle and Maple, may be had for 5/-, or post free for 5/10 per Parcel. (Each Parcel includes a small quantity of  $\frac{1}{8}$  in. wood suitable for interior shelving, etc.)

**Parcels of Satin Walnut and Maple** may be had for 4/3, or post free for 4/11 per Parcel.

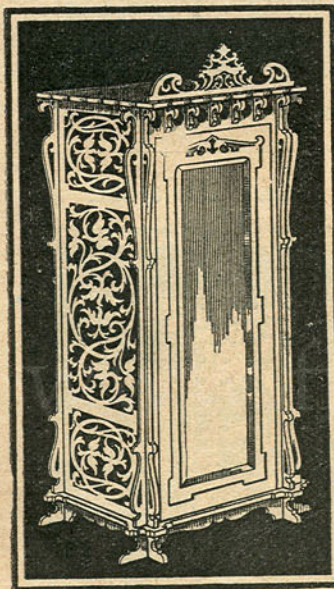

**Door Handles and Corner Ornaments.**—For the Four Doors of this Casket we have had made a series of exceedingly handsome Gilt and Coloured Metal Overlay Fittings, including four Handles (No. 5311), size  $3\frac{1}{2}$  in. by  $2\frac{1}{2}$  in., and 16 Corners (No. 5112), size  $1\frac{1}{2}$  in. by  $1\frac{1}{2}$  in. These are stamped in fine Gilt Metal from beautifully modelled Dies, parts being richly coloured by hand. The complete Set of Twenty Ornaments, which give a most handsome finish to the Casket, may be had for 3/8, or post free for 3/10

(Handles may be had separately for 7d. each, and Corners for 1d. each.)

**Door Catches and Hinges.** Two Superior Brass Door Catches (5341), with eight Brass Hinges, may be had for 10d., or post free for 11d. per Set.

Size 17 in. high.

### 600. MODEL WARDROBE SMOKING CABINET.

Size  $14\frac{1}{2}$  in. by  
7 in.

**Parcel** Sycamore  
and Holly, 1/10  
or 2/3 post free.

**Mirror** (5728),  
 $9\frac{3}{8}$  in. by 3 in.,  
1/3, or 1/6 post  
free. **Door Catch**  
(5309), 1 $\frac{1}{2}$ d., or  
2 $\frac{1}{2}$ d. post free.

### 743. "TRADES" SMOKER'S CABINET. 4d.

12 in. by  $9\frac{1}{2}$  in. by 6 in. (closed).

**Fretwood.**—Satin Walnut, Maple and Dark Walnut, 1/7, post free 2/-

**Fittings.**—1 Brass Catch (5309), and 2 Photo Clips, 2d. the set, postage 1d.; 2 pairs  $\frac{3}{4}$  in. Brass Hinges, 2 $\frac{1}{2}$ d., postage 1d.; Tobacco Jar, with nickel mounts, 1/-, postage 4d. Postage on complete set, 4d.

The "Trades" Smoker's Cabinet can be adapted to be descriptive of five trades, viz., the Miner, Engineer, Printer, Railway and Builder. The Overlays for the Miner are on Sheet 743, the Printer and Builder Overlays are included on Design 744, and those for the Engineer and Railway on Design 745. These Overlays are vividly descriptive of various phases of these industries. They entail no extra fittings. Designs 744 and 745.

3d. each.

Some of the "Trades" Overlays.

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

## HOBBIES FRETWORK DESIGNS ARE UNAPPROACHABLE.

### No. 38 SPECIAL. GIANT BRACKET "THE YEAR."

Size 33 in. by 21 in.

Price 6d. Post free 7d.

THE miniature illustration of this handsome and striking Bracket, entitled "The Year," will at once indicate the general idea underlying this Title. The first feature to strike the eye is the series of twelve uniform panels representing the Months. These are fretted in the ordinary way, and their pictorial character lends a special interest to the work of cutting.

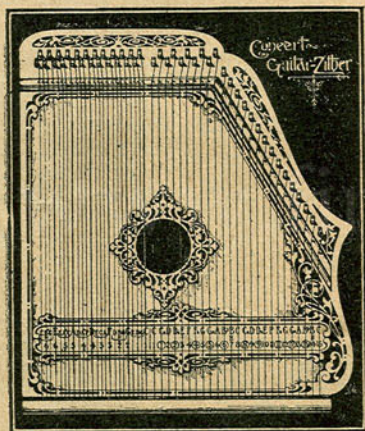

But the Bracket has more than these twelve panels to be proud of. Its overall size is 33 in. in length and 21 in. in width. It has ten shelves, two of which are 19 in. long, and three about 9 in. The summit is crowned with a reclining figure of Father Time, with his hour-glass and scythe, but otherwise the symbolism is left to the monthly panels.

**Mirrors.**—Sets of Five Bevelled-edge Mirrors for this design, including large Crystal Glass (No. 5731) for the centre, Two Circular Glasses (No. 5704), and Two Diamond Glasses (No. 5707), may be had for 2/6, or post free for 2/9 per set of five.

**Fretwood.**—Parcels (A) of selected Satin Walnut with Maple for the Overlay Rims for making the complete Bracket, may be had for 2/3, or post free for 2/10 per parcel.

Or similar Parcels (B) of selected Lacewood, with Maple for the Overlay Rims, may be had for 3/6, or post free for 4/1 per parcel.

Or Parcels (C) of selected Sycamore, with Mahogany for the Overlay Rims, may be had for 4/3, or post free for 4/10 per parcel.

### 780b. GUITAR-ZITHER.

**Fretwood.**—A Parcel of Fretwood, including  $\frac{7}{16}$  in. Pine, 1 in. Beech, Myrtle for Overlays, and specially-cut bridge moulding, 2/9, or post free 3/4 (Weight, 6 lbs. 5 ozs).

**Fittings.**—Complete Set of 24 Single Wires, 25 Covered Wires, 5/-; 49 stout metal Keys, with square tops, 49 Short Pins, and 49 Guide Pins; price 1/9 post free. Wire for top of moulding, 2d. Lithographed Key Board, for fixing under overlay to indicate notes, 1d. Postage on whole, 4d.

Tuning Key 6d., post free 7d. Thumb Rings: brass 4d., tortoise 3d. Postage 1d. if sent separately.

### 768. FULL SIZE JAPANESE FIDDLE.

A Special Parcel of wood selected for its musical qualities. It consists of  $\frac{3}{8}$  in. Instrument Pine, for the breast, Maple for sides and back. Beech for neck and head, 1/1, or post free 1/6

1 Ebony Peg or Key and one gut Violin E String, price 7d. the two. Postage 1d.

Bow—(ready for use) 2/3 p. f. 2/6  
Tutor for Japanese Fiddle,  
1/- p. f. 1/2

Orders for Goods by Post should be addressed to **HOBBIES LIMITED, Dereham, Norfolk.**

Goods may also be had at Hobbies Stores in London, Glasgow, Manchester, Birmingham and Leeds, and of all Hobbies Authorised Agents.

**WHEN YOU WANT  
• TO SELL •  
OR EXCHANGE  
ANYTHING**

**HOBBIES GUARAN-  
TEE BUREAU.**

*In order to guarantee fair transactions in the cases of goods advertised for Sale in the Private Sale and Exchange Column, "Hobbies" undertakes to receive and hold the purchaser's money until the latter sends word that the payment can be made. For this guarantee a charge of 6d. per transaction will be made. The transaction must be arranged between the parties previously to communicating with "Hobbies." The purchaser must send the money in P.O.'s, stating what it is for and to whom it is to be sent. "Hobbies" will then send a postcard to the seller to inform him that the money is in "Hobbies" charge, and that the goods can be forwarded. When a card arrives from purchaser to the effect that he is satisfied, the money is forwarded.*

ADVERTISE IN "HOBBIES"  
**SALE & EXCHANGE  
COLUMNS.**

**SALE & EXCHANGE FORM.**

To HOBBIES, 166, Aldersgate St., E.C

Must be received not later than Monday  
1st post for following week's issue.

**12 Words—Sixpence**  
Each additional 2  
words. 1d.

Name and  
Address }

Write Advert. on above with sharp pencil, and send with P.O. or Stamps

**RESULTS ASSURED.**

Read what Advertisers say:—

Mr. F. BRETTON, Bow, writes:—

"I put an advert in your paper and I had replies from all parts of **England and Ireland**, and a very successful exchange from **Blackpool**. I had over 70 answers."

"Sir.—Twelve months ago I inserted a small advt. in HOBBIES for the sale of a machine. It was sold on the day of publication. Since then I have been inundated with replies and returned a good many postal orders, one coming from **South Africa**. Imagine my surprise last week when I received a postcard from **India**. I think that this speaks very highly for your advertising columns."

Yours, &c.,

L. PAYNE.
